

management plan

It's nice to take a walk in the forest.
There's a lot to see and hear!
Are there any trees with dead branches
that can fall onto the trail?
Did any rare animals pass by?
The park ranger keeps an eye on it all.
Do you want to come along through the forest,
together with the park ranger?

The park ranger wears **clothes** in the **colors of the forest**: shades of brown and green. That way, she doesn't stand out between the trees and she doesn't disturb the animals. The park ranger always wears **long pants with pockets** and **sturdy hiking boots** or **rain boots**. That way, her legs and feet are protected from animals that sting. Attached to a **special belt**, she carries her tools. In case of dangerous work, the park ranger wears a **helmet** and **ear protection**. The **safety vest** is used by the park ranger when she works at the edge of the forest.
