

Test who matches more sets of four the fastest!

Each player turns her or his pink card over and looks for pictures that match the icon. When the time is up, the players turn their pictures over to check that they match the **pink card**. If they do, the player can take another **pink card** to start a second collection.

Repetition

Now take a picture of each other using two pink cards or try combinations with three cards. It's easier if you photograph little things.

My PHOTOGRAPHY GAME

How to Play

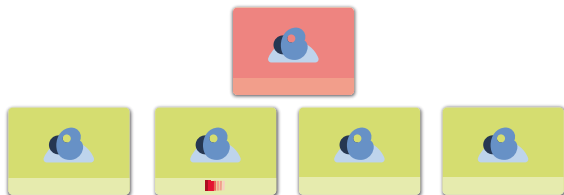

MATCH AND COLLECT TEN SETS OF FOUR

1 player

Spread out the **green cards** with the pictures facing up.
Look at the names on the **pink cards**, and spread them out with the icons facing up. Look carefully at the similarities between pictures and icons: you have to find four pictures that match each icon.

Some pictures relate to more than one theme, so just match the pictures with the best one.

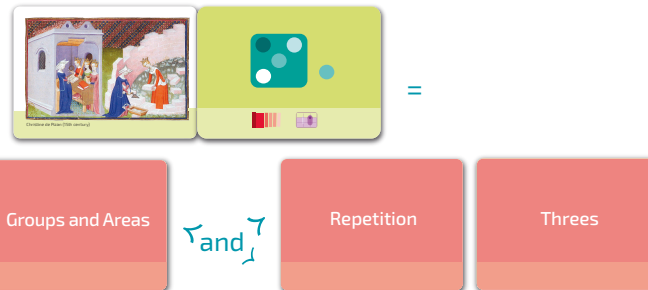

Turn the pictures over and see if they have the same icon as the **pink card**. If they do, they belong together. If not, try again. You can collect ten sets of four.

CLICK AND SHARE

Be creative like a real photographer! Choose a **pink card**. Take a photo that illustrates the theme. Share it on Instagram **#myphotogame** and see what others photographed. When you've tried all the themes, you can start taking photos based on two **pink cards** at a time.

The multiple icons on some of the **green cards** mean that pictures have more than one theme.

Take a **green card** from the pack, look at the picture, then look at the small icons and find the **pink cards** connected to it.

COLLECT NEW BIGGER SETS

Draw a **pink card** and find all the **green cards** that have the same icon, big or small.
