I love you I miss you

And I love to hold and kiss you

I need your embrace your touch and to see your face

To hear your voice and feel your thoughts

To share a lifeline so beautiful like yours and mine

Is a dream so true and fine it feels like a perfect design.

One soul, one mind.... one body and one love.

7/7/17

Be my valentine.

I ask if you will

And were to begin

I am so anxious to here

What you will answer my dear

So give me your voice loud and clear when I ask you:

“will you be my valentine today and every other year”

23/1/17

At 7

I'll meet you at 7 at seven

Of the 7th of the 7th of the 17th

Every year from now until our physics

Take the next leap of faith

To do this dance once again and just like today

I will dance my way to the stars with you now and for eternity

Because we shall always find one and other.....

12/2/17

*Here I am without you
Trying to convince myself that I have to keep my distance
I just feel this urge to be there with you
I love to be around you
I love to talk to you
I love to laugh with you
And the best of all is just to look at you without saying anything
You're the language that I speak
You're all the food that I eat
You are the music that I hear
You're the wind that's blowing through my hair
It feels like you're running through my veins
And when I don't see you my heart hurts
And my mind breaks
So let's stop playing run and chase
And love each other till
The end of days.....
12/2/17*

Listen mr....

Listen mr. air

*That likes to blow through my hair,
The kind that keeps me warm, and lets me fly
All the way back home,
Please never leave me alone.*

Listen mr. wind

*With all the leaves that spin around me,
To dress me up I have a wooden basket,
Can you please fill it up.*

*And now finally mr. *samoon*

*I call out to you, so make me bloom
And kiss every note and tune
It sounds like love and that's what I feel for you!
Your heart is writing it in to my soul for me to share
So together with the wind, the sky and the air
Blow it through the globe,
To see if someone will care,
And hopefully let the hope , love , peace, and joy
Unfold the true meaning of the all..... the together and both !!!*

7/3/17

**Samoon: A hot whirling wind in the sahara and Arabian desert that plays a role in reshaping, Dunes it can move vast quantities of sand. From the Arabic for "poison"*

Strange.....

It's like one day your souls on fire

And the next day its cold ! It's like the heat of my love was too much for you to handle.

Way too much for you to take in, that's why you cannot accept it and we cannot begin.

So my question to you is when will you let me in ???

18/3/17

I am tapping into a big well so I can create a new and powerful spell to leash up on the world,

And restore our knowledge and remember every single word.....

*Of our history..... our future..... our journey our past..... our love..... our
mystery and it shall forever last,*

We owe it to our self to know who we really are we are powerful beings we are all stars.

So stop putting your head In the sand and remember to never give in or up.

Just make sure you are always on top.

19/3/17

So how long.....

Are we gonna do this dance separately ? it's a shame if you ask me.....because

The music sounds and feels

So much more alive and fun when we dance together !

The moves are smooth and sexy.... see won't you rather

Dance our ways to the stars or wherever just as long as we dance it together

21/3/17

In my mind it's all sublime

In my mind it's all fine

In my mind it all makes sense

In my mind it's called the love defense

In my mind I know it will be ok

In my mind I feel the warmth of being safe

My body feels the need to outrun my soul I feel confused

Because of the who the why and the all

So remember whenever I act strange it's because I lift a heavy bag of mess and pain

Trying to find a way to explain my actions myself my brain

It makes me act in a peculiar way

And all because you like to be with me all day

So now I feel the way I'm slowly backing up because I prefer to outrun my feelings

*True love before I get in to deep and die in my sleep
because I will try and disappear before you can walk*

Walk away from me you hear so

To protect my sweet and lovely heart one way or another I will outrun

The loss the love and the fear of a broken heart

6/9/2017

Acceptance is the key.....

Acceptance has to be.....

I accept you for you.....

Do you accept me for me.....

Let's all be happy.....

And racism free..... because I love you.....

And I hope that you can love all of me.....

21/3/17

I love you and desire is what I feel for you.....

And missing you is what I do every time I

Don't see you but the most important thing

Is that you illuminate my way with you smile

It doesn't matter where you are

Because you always will be....mine

2014

*There are many keys to life
But only one key to my heart
And it belongs to you.*

22/3/17

With every note that I hear

It's like your whispering in my ear

When I close my eyes I see you bright and clear

When I look into your eyes I feel the world disappear

And my gravity is you whenever you come near

13/2/17

I will meet you at 11 at eleven

On the 11th of the 11th of 2011 from now till then we will, be flying in the spiritual world and be completely zen..... so start counting the number 11:11 again

14/2/17

When I look at the sky it's red and divine

Whenever I think of your person I just start to float

And fly.

I feel like a star that's glowing and roaming through time and space.

now look at all of that love on your face come over here and I will give you a warm embrace.

16/2/17

I wait and I wait and I wait....

Little by little I am breaking down....

And building up a new version of me.....

That's truly happy and absolutely free....

So don't you worry about me...

Once I am truly healed I shall appear....

So don't you worry about me my dear....

Because sooner rather than later it will be here.....

And there will only be place for light.....love..... and free spirits

Because the rest will finally disappear.....

It will be over and finished all of that doubt and sorrow you here.....

just never lose hope because in your heart I will always be near.
