

FIND THE LIGHT IN EVERYTHING

**A Collection of Inspirational
Poetry**

Annelies Wetzelaer

INTRODUCTION

Writing has always been my biggest passion. I started writing from a very young age. Most of my life, I have been very shy and introverted so I didn't speak much. The fact that I stuttered also made things worse, but I found my voice in writing. I especially love writing poetry, because it gives me so much freedom.

I've had many struggles in my life. Writing has helped me overcome and deal with them. I have learned that, in order to break free from the darkness, I need to have faith, I need to believe in myself.

I started reading many self-help books, and eventually stumbled upon the concept of the law of attraction. It fascinated me and I started to incorporate it into my daily life. It completely changed my way of thinking. A lot of synchronicities followed and I have personally seen some little miracles happen. Once you start living by the law of attraction, powerful things will happen and all of your dreams, even those really big ones you don't dare to speak out loud yet, will one by one come true.

If you want to know more about my story and how I finally overcame the darkness that once used to rule my life, you can read my upcoming book „Unveiling the Light“, it is my autobiography about finding unconditional love and true beauty in everything.

I hope you will find my poetry inspirational!

With love,
Annelies
