The visions and thoughts in this book could contradict each other. The solution is only to be found in the Paradox.

In the acceptance of the paradox, because the paradoxical language is the language of Existence itself.

Dear Reader, Dear You, I am a Reality Traveler.

I have traveled through Dimensions, I have seen other Worlds thanks  
to my Divine Cosmic Imagination.

I am Your Brother and I am here to teach You about Reality Travelling  
and the Knowledge I have developed through my Travelings.

I Know things.

I see things.

I witnessed other Beings within different Dimensions.

I am here to introduce You to the World of Reality Traveling.

I hope You will follow my words to another state of Being.

In short this booklet contains my Reality Teachings in a way You will Understand directly.

I will take You to an Understanding of Visions Unknown until now.

I am a Stranger in Your regions of Reality.

I am The One You have never ever met in Your life.

You are also a stranger to me.

I have never met someone like You.

Well, let us focus on the goal of this booklet, to inform You in a few pages about my Knowledge, my Visions.

Let us dive into words of my World, my Universe, my Reality, my  
Utopia.
