## Preface

Every beginning comes to an end.

The same goes for the first cycle of the Chin series, his 'Year One'. The most difficult challenge in his current life, it is the beginning of the life of a hero in the making. The sacrifices to be made, dealing with the consequences of actions, learning how this life all works, seeking your identity. That doesn't mean it's going to get easier for Chin in the future. No, on the contrary.

The beginning of Chin's life is now written, his adventure has only just begun.

The danger is far from over when one danger is defeated or solved, the universe is infinitely large, with alternative dimensions even larger. Chin doesn't know what surprises he's in for. In fact, he hasn't even seen the tip of the iceberg yet.

The future is going to be a special one for him. Many new characters are waiting to enter the next cycle of Chin's life. Every beginning ends and every ending is a new beginning. But for now, another exciting story awaits you with our familiar friends Steelwing-Girl Delana Danix, Red Mantis and Captain Metalhead.

Welcome to the Chinverse.

Deal!

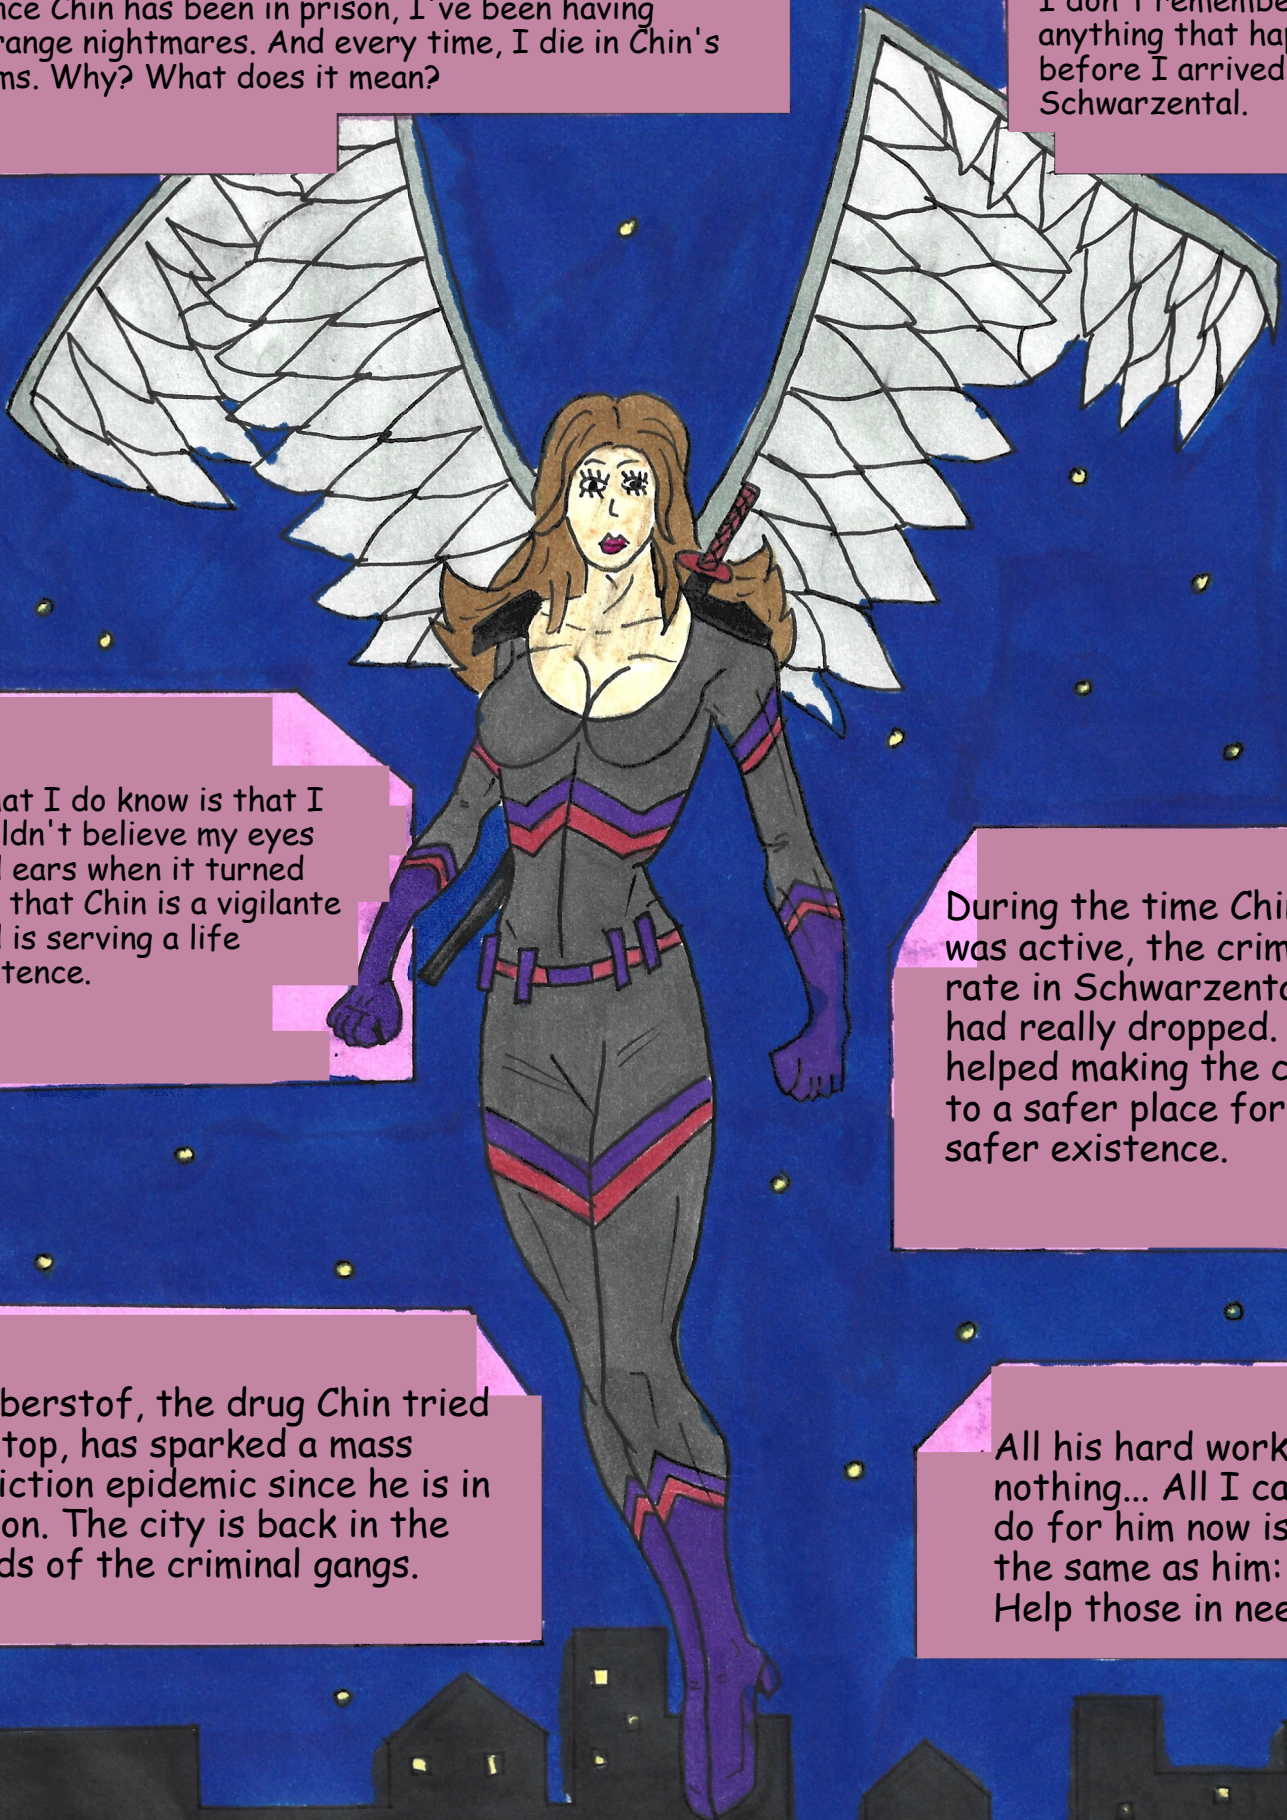

Since Chin has been in prison, I've been having strange nightmares. And every time, I die in Chin's arms. Why? What does it mean?

I don't remember anything that happened before I arrived in Schwarzentel.

What I do know is that I couldn't believe my eyes and ears when it turned out that Chin is a vigilante and is serving a life sentence.

During the time Chin was active, the crime rate in Schwarzentel had really dropped. He helped making the city to a safer place for a safer existence.

Zauberstof, the drug Chin tried to stop, has sparked a mass addiction epidemic since he is in prison. The city is back in the hands of the criminal gangs.

All his hard work for nothing... All I can do for him now is do the same as him: Help those in need.

And figure out a way to free Chin from the Schwarze Hölle. He's innocent. I'm sure

HEEEELP!
