THINK INSIDE THE BOX

AUTHOR'S NOTE

This book assumes that creativity happens when we're limited in space, time and resources.

It's the barriers we have that lead us to develop creative solutions: if we were capable of flying, we wouldn't have invented the airplane.

However, Man lives not only on creativity, but also on self-knowledge.

This book will clearly make you think about things that, under normal circumstances, you wouldn't think about, and it'll put you in boxes where, in normal circumstances, you wouldn't put yourself.
