# THINK INSIDE THE BOX

## AUTHOR'S NOTE

If I say “Create a story”, your mind will probably stay wandering through space; however, if I say “Create a story that happens in a forest where there’s a hut with a mysterious trunk and a flaming sword”, you’ll automatically begin producing images in your mind.

Perhaps you already have characters, maybe you even know what’s in that trunk, you’re probably not even in the forest anymore, and perhaps you’ve already run away with your thoughts to a mountain or to the middle of a city.

And now you’re probably wondering I have given you ideas, but that’s not what has happened: I just reduced your universe and conditioned your possibilities to a box.

That happens because creativity is a tool that is only developed in limited contexts.

Creativity is the ability to enhance the limited resources placed by God at our disposal; in that

sense, this book proposes to limit your universe through questions that you would not be asked normally and, in that process of considering the answers of your soul, you will find out a bit more about your own spirit.
