“ A blowjob a day , keeps the troubles away”

Women just do it

Don't be lazy

What is it ? 5 or 10 minutes a day

If you want your man to whistle while he takes out the trash

whistle while he goes to work

whistle while he works more and harder and brings his money home to you

Suck his dick everyday

It is even deeper than that

it prevents cheating

If you empty his balls everyday

he is satisfied

and not interested in other women

And you can ask things in return

reciprocity

and he will do them
