Acknowledgments

I extend my heartfelt gratitude to everyone who has contributed to the creation of this booklet through their conversations, feedback, and insights. Your input has been invaluable throughout this journey.

A special thanks goes to my wife and family, whose unwavering support, motivation, and inspiration continue to fuel my writing. Without their presence, this work would not have been possible.

Finally, I wish to express my sincere appreciation to Prof. Dr. Ir. Genserik Reniers, my steadfast companion in exploring the deeper meaning of risk, safety, and performance. Together, we have delved into how these concepts can be approached in meaningful and impactful ways. This booklet is, in many ways, a reflection of those shared endeavours.
