# **Welcome, Future Hunter–Artist**

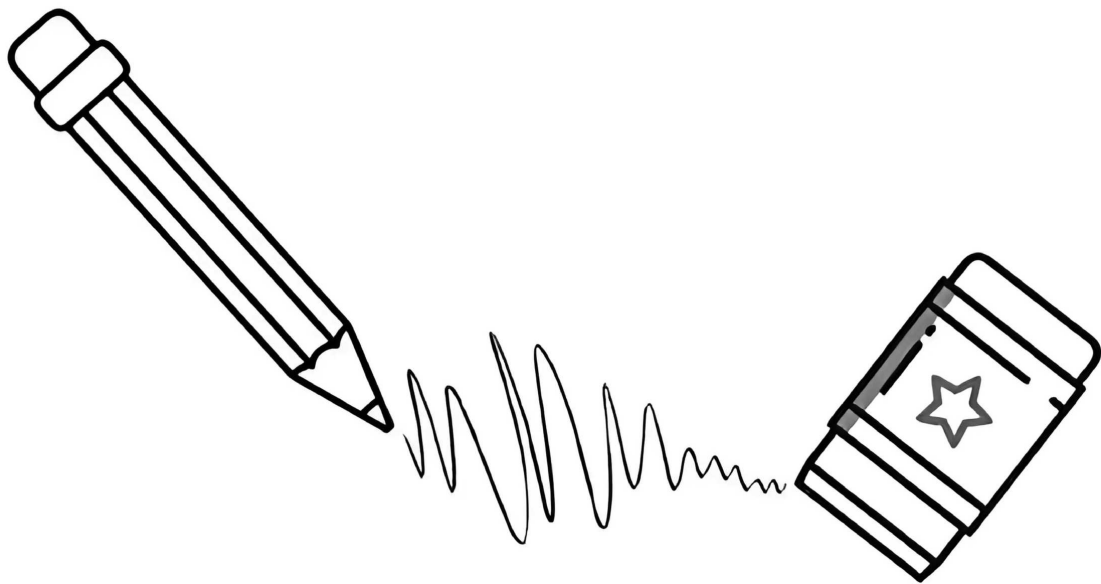

So. You want to draw the hunters.

Not just sketch a cute idol with a microphone – you want to capture the whole thing. The way a ponytail whips mid-spin kick. The way a sword catches stage light. The way a crop top, a tassel charm, and a pair of combat-ready boots somehow tell you everything you need to know about a character before she's even opened her mouth.

You've come to the right book.
