

# Welcome, Demon Hunter!

So you think you've got what it takes to slay on stage and slay on the battlefield? Good. Because the world needs heroes who can hit a high note, land a perfect choreography, and banish a demon back to the shadow realm – sometimes all in the same night.

This activity book is your training ground. Inside these pages, you'll sharpen the skills every K-pop demon hunter needs: a sharp eye, quick reflexes, a creative mind, and (of course) impeccable style.

You'll color fierce performance looks, design your own stage outfits, navigate twisting mazes through haunted concert halls, decode secret messages hidden in setlists, and dream up the ultimate hunter squad. Some pages will test your brain. Some will test your imagination. All of them will test whether you can stop humming long enough to finish them.

There are no wrong answers here – only your answers. Color outside the lines if you want. Give your hunter purple hair and neon boots.

Invent a finishing move so cool it makes the demons clap before they vanish. This book belongs to you, so make it loud, make it bold, and make it yours.

A few things to keep nearby before you begin: your favorite pencils, markers, or crayons; a quiet corner (or a noisy one – we won't judge); and the playlist that makes you feel most unstoppable.

Press play, flip the page, and step into the spotlight.
