Hongerwinter 1944 Om aan brandstof te komen begonnen de mensen bomen te kappen en leegstaande huizen te slopen. De geteerde houtblokjes tussen de tramrails werden gestolen. De hoeveelheid voedsel die op de bon kon worden verkregen slonk snel.

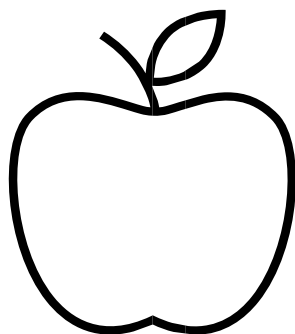

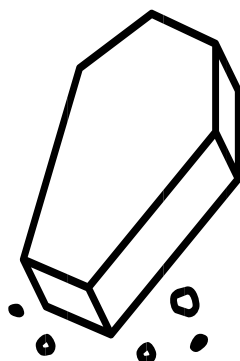

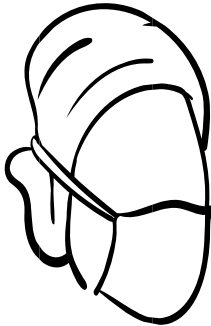

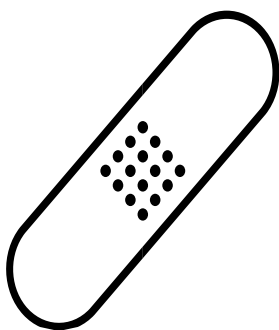

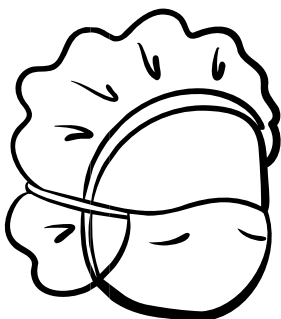

Het distributiesysteem was ingestort. In de gaarkeuken kon eens per dag, op vertoon van een bon, een pannetjes waterige stampot of soep van aardappelschillen of bloembollen worden opgehaald.
