books.mathcardo.com

About this Book

This book contains practice worksheets for subtraction. It starts with single-digit calculations (1 - 1, 2 - 1, 3 - 2, ...) and works up in size and difficulty until the last pages are four-digit calculations with regrouping (also called borrowing).

The levels are in the order they are usually taught. Single-digit calculations come first, then two-digit calculations that do not need regrouping, then calculations that do, and then the mixed ones where the child has to spot the regrouping themselves. Every level comes with five worksheets, one for each day of the school week.

Other MathCardo Books

01	Addition	From 1 + 1 to four-digit column addition
02	**Subtraction**	From 1 - 1 to four-digit column subtraction
03	Times Tables	Practice times tables from 1 to 12
04	Multiplication	From 1 x 1 to four-digit multiplication
05	Division	From 1 ÷ 1 to four-digit division
06	Fractions	Adding, subtracting and simplifying fractions

Answers

Every worksheet in this book has its answers in a separate answer book, free to download. It is the same book as this one just with the answers filled in.
