Non-Religious Society

Muslim, Christian countries & Discrimination

The past has related to the Present

Former adherents of Islam, the Catholic Church and all religious organizations worldwide, have been guilty in the past of all their God has forbidden.

Thus, says the doctrine of Vishnuh:

"All who are engaged in the so-called sacred writings of the Bible, Torah, Bhagavad Gita, Koran, and non-compliance, are similar to a pack animal that carries books."

Nowadays make the current sectarian adherents originated from the aforementioned religious institutions and following this, with the Koran and the Bible in prospect, is still guilty of various crimes and malpractice against humanity, including killings arbitrarily, ethnic and religious cleansing, genocide of Gentiles, mentally and physical violence, robbery, extortion, kidnapping and murder, torture and slavery, sometimes under the guise of

democracy or Sharia on behalf of God and in the name of Allah.

And all these mentioned religious sects are literally matched, and whether they're democratic, autocratic or commit crimes on their own, it does not matter, because the fact remains, however, they are all equally guilty in their union with God or Allah which patently clear that religion is fueling their malice.

Followers, patrons, and supporters of those religions to practice their propaganda regularly in public, through their prayer houses and using the media, in which the government plays a key role. Look for this purpose, to the education system in religious countries globally where young children in schools are affected early on with various insanities of ecclesiastical power which Bible and Koran stories constantly discussed and thus the poison that religion is called, in the minds of children is placed.

Thus, become fellow humans kept stupid at an early stage, intimidated, oppressed and frequently subordinated according to the so-called constitutional and democratic right, because the constitution is based on their

scriptural injunctions of the Bible or Qur'an that mankind since its inception has brought only unpleasant experiences and misery.

Nowadays fellow human beings converted by churches of various alloy with calculating precision and insidious of which their religion tales are supported and reinforced by all kinds of activities they organize to glorify their religion and have embedded in so-called charities for the poor and sympathizing world, while their method representing an own cigar.

This makes clear and bright, that fellow human beings who are constantly working to feed the oldest evil in the world that humanity in general, and so far, has brought misfortune and unhappiness, at any time should be avoided. Usually, it is ignorance, the germ of terrible behaviour, whose confessions as well as evidence of this are legion.

Religion translates for centuries as an epidemic and is, in fact, a threat to humanity. Who promotes religion is a misanthrope who seeks the end of humanity. Some countries and religious organizations promote their religion as a human right, but religion is evil, inhumane

and immorality. Religion is a curse to mankind. It is very necessary to do about the world there everything to eliminate this unnatural religious behaviour, because religion is clearly characterized by torment and an inherited germ.

One believer keeps his fellow believer the hand above the head, and so this is the belief in God's own. Most believers worldwide who criticize land policy and land managers are itself religious allowing this issue for them is taboo and therefore do not want to see that in all cases religion dominated their malice and that they are all sick in their head, no matter how you turn it or returns....

From an early age are generations in churches and from home nagged by their gullible grown-ups about values and good behaviour, but all their good intentions still get no hold on the believer, because there is a terrible curse on all religions, so how the religious humanity behaves and acts, yet never will turn out well. But how is this curse that rests on the religious humanity, than to explain, and how can they be turned away to make room for the purity of mind?

Who with Islam, Christianity or similar groups sympathizes and favors, makes itself most certainly guilty of complicity, partly ignorance and often effective involvement in crimes against humanity from then and now. Believing mankind is aware or unconsciously guilty of crimes that are not compatible with the global citizenship. Their crimes are contrary fundamentally against the interests of humanity, nature, and life in general so that they do not deserve to advance the right of residence on Mother Earth.

The crimes IS sect widely commits and other sectarian organizations and agencies taken over the world, referring to the earlier practice of the main churches (Islam and Christianity) on behalf of God and Allah on witch hunts, jihads, crusades, genocide and Christianization of the innocent crowds of people using mental and physical violence.

Although the cruel practices and conversion actions of the IS in numbers is small, compared to the nature of the crimes against humanity such as by Christianity and Islam (Arabia) in far earlier times longer than a millennium were committed on behalf of God and Allah, even

now, she is just as serious and cool-headed and at all times shall never be condoned.

Note: ** In those millennia, in which Christianity (the Vatican) and Islam committed unlimited atrocities against the innocent world population, there was no media capabilities, such as satellite TV, radio, etc. so that the unbridled brutality and global human rights violations committed by said main churches could not be reported or indicated by independent bodies to the world.**

... All atrocities and human rights violations of the highest degree, which then gradually became committed by churches and its sympathizers, were for the entire world a closed book for lack of the world journalism and technology news distribution, so that the nations with unbridled violence were surprised and annexed by religious humanity, because they were not prepared for an attack and were unable to timely withdraw or get to safety.

... Christians and Muslims at the time went as wild beasts against the innocent world humanity on behalf of God and Allah, among others, vicious rapes, beheadings of children

and adults with blunt cutters, terrible torture methods, opponents normally died a horrible death, they were alive among others on a pole strung like satay, women trafficking and holding various sex slaves, polygamy, child slavery, paedophilia, genocide a legion peoples, arbitrary killings and reprisals against those who did not wish to take their belief in God...

... And all this happened in the Christian world by the knights and in the world of Islam in association with Alibaba and the forty robbers like Muslims, later expanded with Arabic faith fanatics in association with its sympathizers, who like wild beasts went to time in villages, cities, and foreign countries, which today in European and Asian books are romanticized as sweet boys who sowed earlier wherever they went right and truth, when in fact 99% were murderers in service of the Church and Mosque, thus acting on behalf of religious leaders and lords..

... So, all the unprecedented atrocities that the IS (ISIS) today committed and still commits against the innocent and otherwise believing mankind were/ are Christians and Islam own. As well as the process of converting foreign

nations during the foundation of Christian and Muslim states and spreading her faith in God worldwide, refer to the current practice of IS (ISIS) and other similarly-styled sectarian currents, which for at least 2,000 years, according to their current method should continue with the implementation and documentation of their Caliphate if they want to stand shoulder to shoulder to face with Christianity and Islam....

... So, what IS (ISIS) has until now accomplishes is peanuts and it is by far not even a fraction of what Christianity and other Main Churches actually have to answer for.

Therefore, thus saith the doctrine of Vishnuh:

"If a believer points with his index finger to his fellow believer neighbour, nine fingers pointing automatically to himself."

Equal opportunities? Everyone has equal opportunities in this world as is often promoted by governments and religious humanity? Certainly, according to their constitution on paper but not in practice. No, except you are Christian or Muslim, or adheres a church to a

non-existent God than they seem to have a chance to generate opportunities.

Thus, says the doctrine of "Vishnuh":

"It is dangerous to linger in dreams and forget to survive."

Nowadays

... Today there seems to be no option anymore to create opportunities in Christian countries. European countries, or to daily screaming that there is democracy and free

speech, equal opportunities, etc. But all this is true only when it suits the Western countries.

... Furthermore, Europe finds that it is not normal when Christians and Jews not allowed to build churches and synagogues in Islamic countries, but the ridicule of a prophet for them is the most natural thing in the world, because Europeans may offend Muslims because it falls under freedom of expression. But you go stand in the courtyard at The Hague and call once "the king is a moron", or "Jews are sheep fuckers" and "the Holocaust was what they deserved", or "Black Peter means racism." Will they also call "Je Suis Charlie?"

... In all four cases above, the chances are very likely that the caller must deal with police violence and his / her right to freedom of expression without mercy will be trampled. The west is a big media circus which most Western politicians are sociopaths, who only lie, cheat and twist the truth.

... Ethnic minorities are discriminated against and mistreated in the Netherlands, by the police, and the top which is aware of this horror dares not speak out publicly. 90% of Dutch natives

believe that a Muslim should not be mayor, so 90% disapprove only because he is Muslim. That this Muslim speaks better Dutch than many Dutch, he is integrated perfectly and has the Dutch nationality, he does his job better than its predecessor, the native Dutchman does not bother. They discriminate undisturbed all together under the slogan of "freedom of speech."

... Hypocrites galore, because now speak the decisions of several Western countries volumes to sell to Muslim countries especially weapons. The US supplies for \$ 5 billion to Iraq. Germany for € 700 million to Dubai and Qatar, the Netherlands for half a billion euros to SA, for the US \$ 3.5 billion to Saudi Arabia, France EUR 1.5 billion in the United Arab Emirates. Despite all the misery that the belief in Allah caused, yet the West is doing business very much with these countries.

... All that in the name of religion and political preference causes harm to the world must be sentenced and combated. ***

I am against all forms of genocide, so I think that the French and the rest of Europe once again

to stop insulting Muslims and destruction of their land just to steal oil. But to jointly destroy the African butcher group Boko Haram, which in inhuman way children and adults under hypnosis or with the use of violence and death threats against the family enforce Islamic terrorist attacks, No, the Western countries feel nothing for this, because these African countries fall for industrialized countries little or nothing to pick, then death and destruction allowed. For that matter, they're just grabbers who do not think of people, but only to money and their own survival!

... Although many nations, including the Muslims, the science of ancient India have studied and taken over, it is in almost all Western countries like spit on Muslims, while forgetting that the contribution that Islam has made to the European science e.g. physics, mathematics and chemistry is many times greater than any other belief in God whatsoever. The figures 0 t / m 9 Europe owes to the Arabs, Ibn Sina or Avicenna (Latin), full name Abu Ali al-Hussein Ibn Abdullah Ibn Sina, is the founder of modern medical science.
