the 1990s, the number of publications on the topic has increased steadily, and the number of citations has increased exponentially.

There are a number of reasons for this increase in interest. One reason is the growing awareness of the importance of the environment and the need to protect it. Another reason is the increasing number of people who are interested in the environment and who are willing to pay for environmental protection. A third reason is the increasing number of people who are interested in the environment and who are willing to pay for environmental protection.

Waar zijn mijn krijtjes?

Illustraties: Natalie Briscoe

Als het mooi weer is, zit Amber altijd lekker buiten.

Aan tafel, waar ze kan tekenen. Dat doet ze het liefst.

Vanmorgen begon ze aan een mooie regenboog.

Amber heeft net een boterham gegeten.

Nu wil ze weer verder tekenen.

Waar was ze ook alweer?

Oh ja, nu is blauw aan de beurt.

Maar waar is het blauwe krijtje gebleven?

Hij ligt niet op tafel. Niet op de grond.

Hij zit zelfs niet in het doosje.

Zou hij weggerold zijn?

Wat gek!

Ik zoek hem straks wel, denkt Amber.

Ze wil nu tekenen.

Dus gaat ze gewoon door met paars.

Maar ... waar is het paarse krijtje?

Net was hij er nog. Op tafel. Dat weet ze zeker.

Maar hij ligt er echt niet.

Hij ligt ook niet op de grond. En hij zit niet in het doosje.

Dus Amber gaat maar op zoek naar de oranje.

En dat krijtje is ook weg!

Hoe kan dat nou?

Iemand heeft de krijtjes gestolen.

Dat kan niet anders!

Zou iemand ze hebben gepakt
toen zij een boterham at?

Maar wie zou er buiten bij haar
krijtjes kunnen?

Amber wil het weten.

Ze heeft een plan.
