Can anybody hear me okay in the back. Yeah cause I have a volume control that I can increase. Big family. Can you hear me okay. Okay now we're going go over that.

You've heard of immunizations right. That means you're immune. That means you're done. You're immune. Okay now you can get immune by catching certain viruses and your body can build a protection to that. So vaccinations are not. Now this comes from the root word cow, in Latin vacca. Because they used to think that the original theory was that milk maids who got cow pox were protected from smallpox. It didn't work.

## Vaccination is NOT Immunization

"... But after all, it is the leaders of a country who determine the policy ..... All you have to do is **tell them(public) they are being attacked, and denounce the peace makers for lack of patriotism and exposing the country to danger.** It works the same in any country."

— Hermann Goehring, SS

Now I'm using a quote from Herman Goring not because we're in a German beer hall.

But think of this and think of this policy that's going on now the leaders of the country determine the policy. All you have to do is tell the public that they're being attacked. Create a fear and denounce the peacemakers for lack of

patriotism. If you don't get shot. What about the kids that can't get shot. You're going to kill them. Oh wait and then expose the country to danger. By God the Zika virus is coming. OK now this pattern has been used for centuries.

Now the tough part is this: we got two things we either have ignorance or evil here.

Now Richard Pan is supposed to be a pediatrician. We're talking Johns Hopkins Harvard. And these are some pretty big well named schools right. So and he is pro vaccine. He passed this bill to force people to be vaccinated.

**California's vaccination bill SB277**  
**Author Lied under oath to the senate**  
**Richard Pan stated under oath:**  
**"there are no aborted fetal cells in vaccines."**  
California State Senator and Pediatrician Richard Pan Harvard/ Johns Hopkins  
mandatory vaccines and the removal of religious and philosophical exemptions  
**•SB277 took away all vaccination exemptions, except medical, for California children**  
the CDC's:  
•Adenovirus vaccine WI-38 a fetal cell line, commonly referred to as diploid cells.  
•MMR-II has WI-38 cells  
•Pentacel has MRC-5 human diploid cells  
•Havrix has WI-38 cells  
•Vaqta has WI-38 cells  
•Twinrix has WI-38 cells  
•MMRV has WI-38 cells  
•Imovax has WI-38 cells  
•Zostavax has WI-38 cells  
•Varivax contains both WI-38 and MRC-5.

In 1963 it was about 46 times more likely for a child to die from a congenital malformation than for someone to die from the measles.

So now you no longer have personal choice. You no longer have religious rights or exemptions. And in fact the amendments of the Constitution have been abolished. I think it's 1, 4 and 7. OK. By passing this law. But when he's in front of this committee under oath and he says no there are no aborted fetal cells in vaccines and he's right unless you read the ingredients of the vaccines.

So is he completely ignorant that the process of vaccinations are injecting foreign animal proteins into human beings?

Well these are the ones that actually have it. They have the aborted human fetal cells in vaccines and you're going to find out that it's also in the flu shot as

well. See we're not killing babies to make it out of it's hard to isolate a virus. You can't do it. You'd need to grow it in infected tissue and I'll show you the growth mediums that they're using now. So since you can't isolate a virus you have to grow it in something that's effective. OK. So now this was passed so you now only have a medical exemption in California. What that means is you have to prove that you're toxic or allergic to all the different shots. Now we've got a couple of patients from Arizona that actually got went through the whole legal process to get the courts to agree that the two daughters were caught had autism from the DPT shot they actually won the course the case nine years it took them. So that's not an easy thing to do. Now they're in or Arizona. They come to California for their care if they lived in California. They would be exempt from the DPT shot. They would not be exempt from the flu shot or the polio or the Prevenar<sup>1</sup> or anything else that they're coming up with. So this is insane.

Now it's interesting you're 40 in 1963 you're forty six times more likely for a child to die of a congenital malformation than someone dying at the measles. Look at the Brady Bunch measles episode. OK. So. And I'll show you how to treat it correctly. Now this is a new law that's going to make the movie that you're going to watch pretty soon illegal. It's AB 1671.

## **AB 1671**

**The recordings of Thompson could be labeled “undercover,” and “illegal,”**

a journalist receiving and posting footage from an anonymous source could be punished by the state as well as be opened up to potential civil lawsuits.

**Whistleblowers would not be exempt from the proposal either, regardless of how they obtained the illegal footage**

The bill would criminalize publishing undercover video footage of 'health care providers' and subject third parties, including journalists, to **penalties for reporting and distributing the illegally recorded footage.**

Now it's also going to make me speaking about this illegal and it's going make If you comment on this on Facebook you will also be arrested. OK. So no this is I

---

<sup>1</sup> pneumokokkenvaccin

mean this is bad enough your rights are taken away your kids will be not let in the school you're forced vaccinated. OK. So when people say well yeah they're safe and effective. No they're not. Now Thompson and you're going to see the whole thing in Vaxxed like where he got the information you're going to see the whole back story just understand that this is one of the lead scientist to the definitive study that prove beyond a shadow of a doubt that the measles, mumps, rubella vaccine does not cause autism. This is what all the doctors have been using as their data. This is what the ignorant politicians are saying look the science is in. Shut up. Roll up your sleeves get the shot. OK. This is the data they're using.

He calls up this journalist and says I can't take it anymore, we falsified the data the vaccines actually do cause autism and 400 percent increase nearly. And we falsify the data. So the doctors are using false data a number of cases were thrown out of court using the false data and it was a one sided recording. Now the recording was done in Oregon where it's legal to do one sided recordings. They want this to have the formation that was God from the movie for the movie VAX. The information that was withheld from the public. They're going to make it illegal. No one's arguing about the information. No one's saying holy. OK. These vaccines that are being forced actually caused neurologic damage.

No one's saying anything about that. They're just saying you got the information wrong.

Whistleblowers will not be exempt. That means if you find something going on with your company OK and you record or you take papers you can be arrested. So thank God we won't have those damn whistleblowers, penalties for reporting and distributing illegally footage. Robin the police will be here soon. Anyone who posts the videos and comments on them online or audio recordings

Welcome to America. OK.

## The ten points of the Nuremberg Code

1. **Required is the voluntary, well-informed, understanding consent of the human subject in a full legal capacity.**
2. The experiment should aim at positive results for society that cannot be procured in some other way.
3. It should be based on previous knowledge (like, an **expectation derived from animal experiments**) that justifies the experiment.
4. The experiment should be set up in a way that **avoids unnecessary physical and mental suffering and injuries.**
5. It should **not** be conducted when there is any reason to believe that it implies a **risk of death or disabling injury.**

## The ten points of the Nuremberg Code

6. The risks of the experiment should be in proportion to (that is, not exceed) the expected humanitarian benefits.
7. Preparations and facilities must be provided that **adequately protect the subjects against the experiment's risks.**
8. The staff who conduct or take part in the experiment must be fully trained and scientifically qualified.
9. The **human subjects must be free to immediately quit the experiment at any point when they feel physically or mentally unable to go on.**
10. Likewise, the medical staff must stop the experiment at any point **when they observe that continuation would be dangerous**
