

Intro

*I kept my lovers a secret
Now, I am ready to reveal them*

1

I really loved you
I really did
and still do.
You once shared
I would be your perfect
wife, but deserved
more than you.
And even if we wouldn't
end up together
I would always
be yours.

2

Feeling your eyes
in the back of me.
Being lost
in the city of love
wish I could go back
to replay how our eyes met.
How you touched my soul
and planted
a seed in me.
How words can fall into non-
existence
Leaving me stuttering
not knowing how to leave
