ABOUT

The Wishkeeper is a professional wish keeper. Every time someone makes a wish – however big or small – a shimmer of light appears that only the Wishkeeper can see. When a magic marble begins to glow, he knows that somewhere, for somebody, a dream has come true.

THE WISHKEEPER

Most people never notice it. Most people don't even realise it. They think about their new dreams, what they want to do and who they want to become. So much so that they no longer see their dreams coming true.

People walk beneath the skies, which glitter with countless wishes that have come true. They're too busy to look up and too certain to be surprised.

And so the Wishkeeper walks among them - a silent gatherer of light, the keeper of every small, unseen miracle. Yet he doesn't strive to create more magic. He merely reminds the world that while new dreams may not have come true yet, old dreams come true before our eyes every single day.

The Wishkeeper is different because he writes down all of his wishes. He never forgets his wish list.

Yet he knows that not all of his dreams need to come true. If just some come true, that's good enough for him.
