PREFACE.....	74
WHY THIS BOOK.....	76
DEDICATION.....	78
PART I.....	79
THE LEAN TRANSFORMATION OF MARKETING & SALES.....	79
.....	79
CHAPTER 1.....	79
MARKETING AND SALES AS FLOW SYSTEMS.....	79
1.1 BEYOND TRADITIONAL MARKETING AND SALES.....	79
1.2 FROM FUNCTIONAL THINKING TO SYSTEMS THINKING.....	81
<i>The customer experiences the flow—not the organization chart.....</i>	83
1.3 THE CUSTOMER ACQUISITION VALUE STREAM.....	83
1.4 FLOW: THE HEART OF LEAN THINKING.....	85
<i>Information flow is the production flow of knowledge-based commercial work.....</i>	86
1.5 LEAD TIME VERSUS ACTIVITY TIME.....	87
<i>Lean focuses on improving the system rather than merely accelerating individual activities.....</i>	88
1.6 LEADS ARE WORK-IN-PROCESS.....	88
1.7 THE RELATIONSHIP BETWEEN WIP, THROUGHPUT, AND LEAD TIME.....	89
1.8 THE SALES PIPELINE AS A PRODUCTION SYSTEM.....	91
<i>Manufacturing question:.....</i>	91
<i>Sales question:.....</i>	91
<i>Manufacturing question:.....</i>	92
<i>Sales question:.....</i>	92
<i>Manufacturing question:.....</i>	92
<i>Sales question:.....</i>	92
<i>Manufacturing question:.....</i>	92
<i>Sales question:.....</i>	92
<i>Manufacturing question:.....</i>	92
<i>Sales question:.....</i>	92
1.9 BOTTLENECKS: THE POINT WHERE FLOW BREAKS.....	93
1.10 PUSH VERSUS PULL.....	94
1.11 THE HANDOFF PROBLEM.....	95
1.12 FLOW EFFICIENCY.....	96
1.13 FROM ACTIVITY METRICS TO FLOW METRICS.....	97
1.14 A NEW MENTAL MODEL.....	98
1.15 DESIGNING THE MARKETING & SALES FLOW SYSTEM.....	100
1. What is the customer value?.....	100
2. What is the value stream?.....	100
3. Where is the waste?.....	100
4. Where is the bottleneck?.....	100
5. How should work flow?.....	100
6. How will we improve?.....	100
1.16 A PRACTICAL EXAMPLE: REDESIGNING A SALES FLOW.....	101
1.17 THE ULTIMATE OBJECTIVE: FLOW OF CUSTOMER VALUE.....	103
1.18 CHAPTER SUMMARY.....	104

KEY TAKEAWAYS.....	105
CHAPTER 2.....	106
WHAT IS VALUE IN MARKETING AND SALES?.....	106
2.1 THE MOST IMPORTANT QUESTION IN LEAN.....	106
2.2 VALUE IS NOT THE SAME AS ACTIVITY.....	107
2.3 THE THREE QUESTIONS OF VALUE.....	108
<i>Question 1: Does it directly contribute to what the customer wants?.....</i>	108
<i>Question 2: Is it required by the business, regulatory environment, or process but does not directly create customer value?.....</i>	108
<i>Question 3: Does it consume resources without contributing meaningful value or being genuinely necessary?.....</i>	108
2.4 VALUE-ADDED WORK IN MARKETING.....	109
<i>Customer Understanding.....</i>	109
<i>Relevant Information.....</i>	109
<i>Problem Identification.....</i>	110
<i>Relevant Communication.....</i>	110
2.5 VALUE-ADDED WORK IN SALES.....	111
<i>Understanding Customer Requirements.....</i>	111
<i>Solution Design.....</i>	111
<i>Risk Reduction.....</i>	111
<i>Technical Clarification.....</i>	111
<i>Commercial Clarification.....</i>	112
<i>Negotiation.....</i>	112
2.6 NECESSARY NON-VALUE-ADDED WORK.....	112
2.7 PURE WASTE IN MARKETING.....	113
<i>Duplicate Campaign Work.....</i>	113
<i>Irrelevant Content.....</i>	113
<i>Excessive Internal Meetings.....</i>	114
<i>Repetitive Reporting.....</i>	114
<i>Unnecessary Data Entry.....</i>	114
<i>Poorly Targeted Lead Generation.....</i>	114
2.8 PURE WASTE IN SALES.....	114
2.9 CUSTOMER EFFORT AS A LEAN SIGNAL.....	115
2.10 CUSTOMER VALUE AND CUSTOMER FRICTION.....	116
<i>Improvement does not always require adding more value.....</i>	117
2.11 THE CUSTOMER JOURNEY AS A VALUE STREAM.....	117
<i>What does the customer need here?.....</i>	118
<i>What creates value?.....</i>	118
<i>What creates waiting?.....</i>	118
<i>What creates confusion?.....</i>	118
<i>What creates repetition?.....</i>	118
<i>What information is missing?.....</i>	118
<i>What causes the customer to leave?.....</i>	118
2.12 VALUE LEAKAGE.....	119
2.13 THE VALUE-TO-WASTE RATIO.....	120
2.14 VALUE DOES NOT MEAN "WHAT THE CUSTOMER LIKES".....	121
2.15 VOICE OF THE CUSTOMER.....	122
<i>What customers say.....</i>	122
<i>What customers do.....</i>	122

<i>What customers struggle with</i>	122
<i>What customers avoid</i>	123
<i>What customers repeatedly request</i>	123
2.16 LOST SALES AS A SOURCE OF LEARNING	123
2.17 DESIGNING FOR VALUE INSTEAD OF ADDING ACTIVITIES	124
2.18 THE VALUE CREATION HIERARCHY	125
<i>Level 1 — Customer Need</i>	125
<i>Level 2 — Customer Value</i>	125
<i>Level 3 — Value Proposition</i>	125
<i>Level 4 — Process</i>	125
<i>Level 5 — Activities</i>	126
<i>Level 6 — Metrics</i>	126
2.19 WORKING BACKWARD FROM THE CUSTOMER	126
2.20 A PRACTICAL EXAMPLE: THE OVER-ENGINEERED PROPOSAL	127
2.21 VALUE AND SPEED	128
2.22 VALUE, QUALITY, AND FIRST-TIME-RIGHT	129
2.23 VALUE IS DYNAMIC	130
2.24 THE LEAN VALUE EQUATION	131
<i>Increase meaningful value</i>	131
<i>Remove friction and waste</i>	131
2.25 FROM VALUE TO FLOW	131
CHAPTER SUMMARY	132
KEY TAKEAWAYS	133
CHAPTER 3	134
THE SEVEN WASTES OF MARKETING AND SALES	134
3.1 WASTE EXISTS WHEREVER WORK EXISTS.....	134
3.2 WHAT IS WASTE?.....	135
3.3 WASTE IN A CUSTOMER ACQUISITION SYSTEM.....	136
3.4 WASTE #1 — TRANSPORTATION.....	138
MOVING INFORMATION INSTEAD OF CREATING VALUE.....	138
3.4.1 MARKETING EXAMPLES.....	139
3.4.2 SALES EXAMPLES.....	139
3.4.3 REDUCING TRANSPORTATION WASTE.....	140
3.5 WASTE #2 — INVENTORY.....	140
WHEN LEADS BECOME COMMERCIAL INVENTORY.....	140
3.5.1 THE ILLUSION OF A LARGE PIPELINE.....	141
3.5.2 LEAD AGING.....	141
3.5.3 MARKETING INVENTORY.....	142
3.5.4 REDUCING COMMERCIAL INVENTORY.....	142
3.6 WASTE #3 — MOTION.....	143
THE UNNECESSARY MOVEMENT OF PEOPLE.....	143
3.6.1 THE SALESPERSON AS A "HUMAN SEARCH ENGINE".....	144
3.7 WASTE #4 — WAITING.....	144
THE SILENT KILLER OF CUSTOMER CONVERSION.....	144
3.7.1 INTERNAL WAITING.....	145
3.7.2 CUSTOMER WAITING.....	146
3.7.3 REDUCING WAITING.....	146

3.8 WASTE #5 — OVERPRODUCTION.....	147
CREATING MORE THAN THE CUSTOMER NEEDS.....	147
3.8.1 CONTENT OVERPRODUCTION.....	147
3.8.2 LEAD OVERPRODUCTION.....	148
3.8.3 PROPOSAL OVERPRODUCTION.....	148
3.8.4 REDUCING OVERPRODUCTION.....	148
3.9 WASTE #6 — OVERPROCESSING.....	149
DOING MORE THAN NECESSARY.....	149
3.9.1 OVERPROCESSING IN MARKETING.....	150
3.9.2 OVERPROCESSING IN SALES.....	150
3.10 WASTE #7 — DEFECTS.....	150
WHEN COMMERCIAL WORK IS WRONG.....	150
3.11 FIRST-TIME-RIGHT IN MARKETING & SALES.....	152
<i>Before sending a proposal:.....</i>	<i>152</i>
<i>Before launching a campaign:.....</i>	<i>152</i>
<i>Before transferring a lead:.....</i>	<i>152</i>
3.12 THE EIGHTH WASTE — UNUSED HUMAN POTENTIAL.....	153
3.13 WASTE IS USUALLY CONNECTED.....	154
3.14 A WASTE CASCADE EXAMPLE.....	155
3.15 WASTE HUNTING AT THE GEMBA.....	156
3.16 THE MARKETING & SALES WASTE WALK.....	157
<i>Step 1 — Select the Process.....</i>	<i>157</i>
<i>Step 2 — Observe the Actual Process.....</i>	<i>157</i>
<i>Step 3 — Record Every Delay.....</i>	<i>157</i>
<i>Step 4 — Identify the Waste.....</i>	<i>157</i>
<i>Step 5 — Identify the Cause.....</i>	<i>158</i>
<i>Step 6 — Design Countermeasures.....</i>	<i>158</i>
3.17 A WASTE OBSERVATION SHEET.....	158
3.18 NECESSARY WORK VERSUS WASTE.....	158
3.19 WASTE AND TECHNOLOGY.....	159
3.20 WASTE AND ARTIFICIAL INTELLIGENCE.....	160
3.21 MEASURING WASTE.....	161
<i>Waiting.....</i>	<i>161</i>
<i>Inventory.....</i>	<i>161</i>
<i>Motion.....</i>	<i>161</i>
<i>Overproduction.....</i>	<i>162</i>
<i>Overprocessing.....</i>	<i>162</i>
<i>Defects.....</i>	<i>162</i>
3.22 FROM WASTE REDUCTION TO FLOW IMPROVEMENT.....	162
3.23 THE WASTE-TO-VALUE TRANSFORMATION.....	163
<i>Identify.....</i>	<i>163</i>
<i>Classify.....</i>	<i>163</i>
<i>Understand.....</i>	<i>163</i>
<i>Eliminate.....</i>	<i>164</i>
<i>Simplify.....</i>	<i>164</i>
<i>Standardize.....</i>	<i>164</i>
<i>Automate.....</i>	<i>164</i>
<i>Measure.....</i>	<i>164</i>
3.24 A COMPLETE EXAMPLE: FROM LEAD GENERATION TO CUSTOMER.....	164

<i>Marketing</i>	164
<i>Sales</i>	165
<i>CRM</i>	165
<i>Salespeople</i>	165
<i>Qualification</i>	165
<i>Proposals</i>	165
<i>Management</i>	165
<i>Customers</i>	165
<i>Sales</i>	165
<i>Closing</i>	165
3.25 THE DEEPER LESSON: WASTE IS A SYSTEM SIGNAL.....	166
3.26 CHAPTER SUMMARY.....	167
1. <i>Transportation</i>	167
2. <i>Inventory</i>	167
3. <i>Motion</i>	167
4. <i>Waiting</i>	167
5. <i>Overproduction</i>	167
6. <i>Overprocessing</i>	167
7. <i>Defects</i>	168
8. <i>Unused Human Potential</i>	168
KEY TAKEAWAYS.....	168
CHAPTER 4.....	169
THE CUSTOMER ACQUISITION VALUE STREAM.....	169
4.1 FROM MARKETING ACTIVITIES TO A CUSTOMER VALUE STREAM.....	169
4.2 THE DIFFERENCE BETWEEN A FUNNEL AND A VALUE STREAM.....	171
<i>The funnel asks:</i>	173
<i>The value stream asks:</i>	173
4.3 THE BEGINNING OF THE VALUE STREAM.....	173
4.4 THE TRIGGER: WHAT CREATES CUSTOMER DEMAND?.....	174
4.5 STAGE 1 — AWARENESS.....	175
4.6 STAGE 2 — INTEREST AND ENGAGEMENT.....	176
4.7 STAGE 3 — LEAD GENERATION.....	177
4.8 LEAD TIME BEGINS AT THE CUSTOMER'S NEED—NOT THE CRM TIMESTAMP.....	178
4.9 STAGE 4 — QUALIFICATION.....	179
4.10 THE COST OF POOR QUALIFICATION.....	179
4.11 STAGE 5 — SALES ENGAGEMENT.....	180
4.12 STAGE 6 — NEEDS UNDERSTANDING.....	181
4.13 STAGE 7 — SOLUTION DEVELOPMENT.....	182
4.14 STAGE 8 — PROPOSAL.....	183
4.15 PROPOSAL LEAD TIME.....	184
4.16 STAGE 9 — EVALUATION AND NEGOTIATION.....	185
4.17 STAGE 10 — DECISION AND CLOSING.....	185
4.18 STAGE 11 — CUSTOMER ONBOARDING.....	186
4.19 VALUE STREAM BOUNDARIES.....	187
4.20 THE CURRENT-STATE VALUE STREAM.....	187
4.21 MAPPING REALITY, NOT THEORY.....	188
4.22 MEASURING THE VALUE STREAM.....	189

4.23 TOUCH TIME VERSUS WAIT TIME.....	190
4.24 HANDOFFS AS PROCESS BOUNDARIES.....	191
<i>Clear Trigger</i>	191
<i>Complete Information</i>	191
<i>Clear Ownership</i>	191
<i>Expected Response</i>	191
<i>Exception Process</i>	192
4.25 THE CUSTOMER SHOULD NOT HAVE TO SEE THE INTERNAL VALUE STREAM.....	192
4.26 CUSTOMER ACQUISITION AS A PULL SYSTEM.....	192
4.27 THE PROBLEM OF FALSE DEMAND.....	193
4.28 THE ECONOMICS OF THE VALUE STREAM.....	194
4.29 THE VALUE STREAM AND CUSTOMER ACQUISITION COST.....	195
4.30 A COMPLETE EXAMPLE: REDESIGNING A B2B CUSTOMER ACQUISITION VALUE STREAM	196
<i>Lead Qualification</i>	196
<i>Technical Support</i>	197
<i>Proposal Preparation</i>	197
<i>Proposal Revision</i>	197
4.31 FUTURE-STATE THINKING.....	197
4.32 VALUE STREAM THINKING CHANGES MANAGEMENT.....	199
4.33 THE CUSTOMER ACQUISITION VALUE STREAM FRAMEWORK.....	200
1. <i>Demand</i>	200
2. <i>Attract</i>	200
3. <i>Engage</i>	200
4. <i>Qualify</i>	200
5. <i>Understand</i>	200
6. <i>Solve</i>	200
7. <i>Offer</i>	200
8. <i>Decide</i>	200
9. <i>Convert</i>	201
10. <i>Realize</i>	201
4.34 THE THREE QUESTIONS AT EVERY STAGE.....	201
<i>Question 1</i>	201
<i>Question 2</i>	201
<i>Question 3</i>	201
4.35 THE ULTIMATE TEST.....	201
4.36 CHAPTER SUMMARY.....	202
KEY TAKEAWAYS.....	203
CHAPTER 5.....	204
VALUE STREAM MAPPING FOR MARKETING AND SALES.....	204
5.1 SEEING THE WHOLE PROCESS.....	204
5.2 WHAT IS VALUE STREAM MAPPING?.....	207
5.3 VSM IS MORE THAN A FLOWCHART.....	208
5.4 THE THREE FLOWS WE NEED TO SEE.....	208
1. CUSTOMER DEMAND FLOW.....	208
2. INFORMATION FLOW.....	209
3. WORK FLOW.....	209
5.5 THE CURRENT-STATE MAP.....	209

5.6 GO TO THE GEMBA.....	210
5.7 FOLLOW ONE LEAD.....	211
<i>Where did it originate?.....</i>	<i>211</i>
<i>When did it enter the system?.....</i>	<i>211</i>
<i>Who received it?.....</i>	<i>212</i>
<i>How long did it wait?.....</i>	<i>212</i>
<i>What happened next?.....</i>	<i>212</i>
<i>What information was missing?.....</i>	<i>212</i>
<i>How many people touched it?.....</i>	<i>212</i>
<i>How many systems recorded it?.....</i>	<i>212</i>
<i>How many times was information entered?.....</i>	<i>212</i>
<i>Where did it wait?.....</i>	<i>212</i>
<i>Where was it reworked?.....</i>	<i>212</i>
<i>When did it become an opportunity?.....</i>	<i>212</i>
<i>When was the proposal sent?.....</i>	<i>212</i>
<i>When did the customer receive value?.....</i>	<i>213</i>
5.8 DEFINING THE SCOPE.....	213
<i>Lead Response Problem.....</i>	<i>213</i>
<i>Sales Cycle Problem.....</i>	<i>213</i>
<i>Proposal Problem.....</i>	<i>213</i>
<i>Customer Acquisition Problem.....</i>	<i>213</i>
<i>Onboarding Problem.....</i>	<i>213</i>
5.9 ESTABLISHING THE START AND END POINTS.....	214
5.10 MAPPING THE CUSTOMER.....	214
5.11 MAPPING THE PROCESS STEPS.....	215
5.12 PROCESS TIME.....	216
5.13 WAITING TIME.....	216
5.14 LEAD TIME.....	217
5.15 THE TIMELINE AT THE BOTTOM OF THE MAP.....	217
5.16 WIP AT EVERY STAGE.....	218
5.17 QUEUE SIZE IS A SIGNAL.....	219
5.18 INFORMATION FLOW MAPPING.....	219
<i>Where does the information originate?.....</i>	<i>219</i>
<i>Where is it stored?.....</i>	<i>219</i>
<i>Who receives it?.....</i>	<i>219</i>
<i>How is it transferred?.....</i>	<i>219</i>
<i>How often is it updated?.....</i>	<i>219</i>
<i>Is the transfer automatic or manual?.....</i>	<i>220</i>
<i>How much information is lost?.....</i>	<i>220</i>
5.19 PUSH INFORMATION VERSUS PULL INFORMATION.....	221
5.20 HANDOFFS ON THE VALUE STREAM MAP.....	221
5.21 REWORK LOOPS.....	222
5.22 DEFECTS IN THE VALUE STREAM.....	223
5.23 CURRENT-STATE EXAMPLE.....	224
5.24 CALCULATING PROCESS CYCLE EFFICIENCY.....	226
5.25 THE FUTURE-STATE VALUE STREAM.....	227
<i>Current.....</i>	<i>227</i>
<i>Future.....</i>	<i>227</i>
<i>Current.....</i>	<i>227</i>
<i>Future.....</i>	<i>227</i>

<i>Current</i>	227
<i>Future</i>	227
<i>Current</i>	228
<i>Future</i>	228
<i>Current</i>	228
<i>Future</i>	228
5.26 FUTURE-STATE DESIGN PRINCIPLES.....	228
<i>Reduce WIP</i>	228
<i>Reduce Waiting</i>	228
<i>Improve Flow</i>	228
<i>Reduce Handoffs</i>	229
<i>Improve Quality at the Source</i>	229
<i>Establish Pull</i>	229
<i>Standardize</i>	229
<i>Create Visual Management</i>	229
<i>Protect the Constraint</i>	229
5.27 THE ROLE OF TAKT TIME.....	229
5.28 CAPACITY AND FLOW.....	230
5.29 BOTTLENECKS AND THE VALUE STREAM.....	231
5.30 VSM AND LITTLE'S LAW.....	231
5.31 VSM AND CUSTOMER EXPERIENCE.....	232
5.32 VSM AND CUSTOMER EFFORT.....	233
5.33 VSM AND MARKETING CAMPAIGNS.....	234
5.34 VSM FOR DIGITAL MARKETING.....	235
5.35 VSM FOR B2B SALES.....	236
5.36 COMMON MISTAKES IN MARKETING & SALES VSM.....	237
<i>Mistake 1 — Mapping the Ideal Process</i>	237
<i>Mistake 2 — Mapping Only Activities</i>	237
<i>Mistake 3 — Ignoring Waiting</i>	237
<i>Mistake 4 — Ignoring Information Flow</i>	237
<i>Mistake 5 — Ignoring the Customer</i>	237
<i>Mistake 6 — Mapping Too Much</i>	238
<i>Mistake 7 — Starting With Solutions</i>	238
<i>Mistake 8 — Treating Every Delay as Waste</i>	238
5.37 FROM MAP TO IMPROVEMENT PRIORITIES.....	238
5.38 THE KAIZEN BURST.....	239
5.39 PRIORITIZING IMPROVEMENTS.....	240
5.40 THE FUTURE-STATE MAP IS A HYPOTHESIS.....	240
5.41 VSM AS A MANAGEMENT SYSTEM.....	241
5.42 A PRACTICAL VSM IMPLEMENTATION METHOD.....	242
<i>Step 1 — Select the Value Stream</i>	242
<i>Step 2 — Define Start and End</i>	242
<i>Step 3 — Identify Customer Demand</i>	242
<i>Step 4 — Observe the Current State</i>	242
<i>Step 5 — Map Process Steps</i>	242
<i>Step 6 — Map Information Flow</i>	242
<i>Step 7 — Measure Time</i>	242
<i>Step 8 — Measure WIP</i>	242
<i>Step 9 — Identify Waste</i>	242
<i>Step 10 — Identify Constraints</i>	243
<i>Step 11 — Design Future State</i>	243

<i>Step 12 — Develop Kaizen Actions</i>	243
<i>Step 13 — Implement and Measure</i>	243
<i>Step 14 — Update the Map</i>	243
5.43 A MANAGEMENT EXAMPLE	243
5.44 THE DEEPER MEANING OF VSM	244
5.45 FROM COMPLAINTS TO DATA	245
<i>Complaint</i>	245
<i>VSM finding</i>	245
<i>Complaint</i>	245
<i>VSM finding</i>	246
<i>Complaint</i>	246
<i>VSM finding</i>	246
<i>Complaint</i>	246
<i>VSM finding</i>	246
5.46 THE ULTIMATE PURPOSE	246
5.47 CHAPTER SUMMARY	247
KEY TAKEAWAYS	248
CHAPTER 6 — FINDING HIDDEN WASTE IN THE CUSTOMER JOURNEY	250
INTRODUCTION: THE WASTE THE CUSTOMER DOES NOT ALWAYS REPORT.....	250
6.1 THE CUSTOMER JOURNEY IS A VALUE STREAM	251
6.2 VISIBLE WASTE AND HIDDEN WASTE	253
VISIBLE WASTE.....	254
HIDDEN WASTE.....	254
6.3 CUSTOMER EFFORT AS A LEAN SIGNAL	255
<i>Physical effort</i>	255
<i>Digital effort</i>	255
<i>Cognitive effort</i>	255
<i>Coordination effort</i>	255
<i>Follow-up effort</i>	256
6.4 THE CUSTOMER SHOULD NOT HAVE TO SEE YOUR ORGANIZATION CHART	256
6.5 HIDDEN WAITING	258
6.6 WAITING WITHOUT VISIBILITY IS WORSE	259
<i>Situation A</i>	259
<i>Situation B</i>	259
6.7 REPETITION: ONE OF THE MOST OBVIOUS HIDDEN WASTES	260
6.8 CHANNEL SWITCHING AS TRANSPORTATION WASTE	261
6.9 THE DIGITAL SPAGHETTI DIAGRAM	263
6.10 DEAD ENDS	264
6.11 BROKEN HANDOFFS	265
6.12 THE OWNERSHIP GAP	266
6.13 EXCESSIVE PERSONALIZATION: WHEN “CUSTOMER-CENTRIC” BECOMES OVERPROCESSING	267
6.14 INFORMATION OVERLOAD	268
6.15 THE WASTE OF IRRELEVANT COMMUNICATION	269
6.16 OVERPRODUCTION IN THE CUSTOMER JOURNEY	270
6.17 THE LEAD AS CUSTOMER-FLOW WIP	271
6.18 FRICTION AT THE CONVERSION POINT	272

6.19 THE “ALMOST CUSTOMER” PROBLEM.....	272
6.20 THE CUSTOMER JOURNEY WASTE AUDIT.....	273
<i>Question 1 — What is the customer trying to accomplish?.....</i>	<i>273</i>
<i>Question 2 — What does the customer have to do?.....</i>	<i>273</i>
<i>Question 3 — What does the organization do?.....</i>	<i>274</i>
<i>Question 4 — How long does the customer wait?.....</i>	<i>274</i>
<i>Question 5 — What information does the customer provide?.....</i>	<i>274</i>
<i>Question 6 — Where can the customer fail?.....</i>	<i>274</i>
<i>Question 7 — Why does each step exist?.....</i>	<i>274</i>
6.21 A PRACTICAL WASTE CLASSIFICATION.....	274
6.22 USE THE FIVE WHYS ON CUSTOMER FRICTION.....	275
<i>Why 1.....</i>	<i>275</i>
<i>Why 2.....</i>	<i>275</i>
<i>Why 3.....</i>	<i>275</i>
<i>Why 4.....</i>	<i>276</i>
<i>Why 5.....</i>	<i>276</i>
6.23 PARETO ANALYSIS OF CUSTOMER JOURNEY WASTE.....	276
6.24 FROM CUSTOMER COMPLAINT TO PROCESS CAUSE.....	277
6.25 CUSTOMER JOURNEY MAPPING IS NOT ENOUGH.....	278
6.26 SERVICE BLUEPRINTING AND LEAN.....	279
<i>Customer.....</i>	<i>279</i>
<i>Frontstage.....</i>	<i>279</i>
<i>Backstage.....</i>	<i>279</i>
<i>Support.....</i>	<i>279</i>
6.27 CUSTOMER-FACING WASTE VS INTERNAL WASTE.....	280
CUSTOMER-FACING WASTE.....	280
INTERNAL WASTE.....	280
6.28 THE HIDDEN COST OF CUSTOMER FOLLOW-UP.....	281
<i>Customer-Generated Rework.....</i>	<i>282</i>
6.29 THE COST OF UNCERTAINTY.....	282
6.30 THE CUSTOMER JOURNEY AS A QUEUEING SYSTEM.....	283
6.31 HIDDEN WASTE IN MARKETING.....	284
6.32 HIDDEN WASTE IN SALES.....	285
<i>Lead assignment delay.....</i>	<i>285</i>
<i>Qualification rework.....</i>	<i>285</i>
<i>Discovery repetition.....</i>	<i>285</i>
<i>Technical waiting.....</i>	<i>286</i>
<i>Proposal rework.....</i>	<i>286</i>
<i>Approval delay.....</i>	<i>286</i>
<i>Follow-up loops.....</i>	<i>286</i>
<i>Forecast administration.....</i>	<i>286</i>
6.33 HIDDEN WASTE AFTER THE SALE.....	286
6.34 THE CLOSED-WON HANDOFF.....	287
6.35 THE PRINCIPLE OF FIRST-TIME-RIGHT CUSTOMER FLOW.....	288
6.36 POKA-YOKE FOR THE CUSTOMER JOURNEY.....	289
6.37 STANDARD WORK REDUCES CUSTOMER VARIABILITY.....	289
6.38 THE LEAN CUSTOMER JOURNEY EQUATION.....	290
6.39 MEASURING CUSTOMER-JOURNEY WASTE.....	291

<i>Customer Lead Time</i>	291
<i>Response Time</i>	291
<i>Queue Time</i>	291
<i>First-Time-Right Rate</i>	291
<i>Customer Repetition Rate</i>	291
<i>Handoff Count</i>	291
<i>Customer Effort</i>	291
<i>Follow-Up Rate</i>	291
<i>Abandonment Rate</i>	292
<i>Journey Flow Efficiency</i>	292
6.40 A COMPLETE CUSTOMER JOURNEY EXAMPLE.....	292
6.41 DESIGNING THE FUTURE-STATE CUSTOMER JOURNEY.....	294
<i>Reduce unnecessary steps</i>	294
<i>Reduce WIP</i>	294
<i>Reduce handoffs</i>	294
<i>Eliminate repetition</i>	294
<i>Improve information quality</i>	294
<i>Establish clear ownership</i>	294
<i>Introduce pull</i>	294
<i>Standardize common work</i>	294
<i>Error-proof critical steps</i>	294
<i>Make status visible</i>	294
<i>Protect bottlenecks</i>	295
<i>Simplify customer interactions</i>	295
6.42 THE CUSTOMER JOURNEY WASTE WALK.....	295
6.43 ASK THE CUSTOMER TO SHOW YOU, NOT JUST TELL YOU.....	296
6.44 WORKAROUNDS ARE SIGNALS.....	297
6.45 HIDDEN WASTE OFTEN LIVES BETWEEN METRICS.....	298
6.46 THE DANGER OF “MORE”.....	299
6.47 FROM WASTE REDUCTION TO FLOW IMPROVEMENT.....	300
6.48 THE CUSTOMER JOURNEY WASTE HIERARCHY.....	301
<i>Level 1 — Eliminate</i>	301
<i>Level 2 — Simplify</i>	301
<i>Level 3 — Combine</i>	301
<i>Level 4 — Standardize</i>	301
<i>Level 5 — Error-Proof</i>	301
<i>Level 6 — Automate</i>	301
<i>Level 7 — Optimize</i>	301
6.49 A PRACTICAL LEAN CUSTOMER JOURNEY AUDIT CHECKLIST.....	302
<i>Value</i>	302
<i>Waiting</i>	302
<i>Information</i>	302
<i>Handoffs</i>	302
<i>Errors</i>	302
<i>Customer Effort</i>	303
<i>Complexity</i>	303
<i>WIP</i>	303
<i>Flow</i>	303
<i>Quality</i>	303
<i>Pull</i>	303
<i>Improvement</i>	303
6.50 A NEW WAY TO THINK ABOUT CUSTOMER EXPERIENCE.....	304
6.51 THE DEEPER LEAN QUESTION.....	305

6.52 CHAPTER FRAMEWORK: THE HIDDEN WASTE LENS.....	305
6.53 THE LEAN CUSTOMER JOURNEY PRINCIPLE.....	306
CHAPTER SUMMARY.....	307
KEY TAKEAWAYS.....	310
CLOSING THOUGHT.....	310
CHAPTER 7 — LEAD TIME: FROM LEAD GENERATION TO CLOSED DEAL.....	312
INTRODUCTION: THE COST OF TIME.....	312
7.1 WHAT IS LEAD TIME?.....	313
<i>Lead Generation Lead Time</i>	313
<i>Lead Response Time</i>	314
<i>Qualification Lead Time</i>	314
<i>Sales Cycle Time</i>	314
<i>Lead-to-Close Lead Time</i>	314
<i>Customer Acquisition Lead Time</i>	314
<i>Demand-to-Value Lead Time</i>	314
7.2 START AND END POINTS MATTER.....	314
7.3 PROCESSING TIME IS NOT LEAD TIME.....	315
7.4 DECOMPOSING LEAD TIME.....	316
7.5 LEAD TIME IS A FLOW METRIC.....	317
<i>Team A</i>	317
<i>Team B</i>	317
7.6 THE ECONOMICS OF LEAD TIME.....	318
7.7 LONG LEAD TIME CREATES OPPORTUNITY AGING.....	319
7.8 THE AGING WIP PROBLEM.....	320
7.9 AGING IS A DIAGNOSTIC SIGNAL.....	321
7.10 LEAD TIME AND BOTTLENECKS.....	322
7.11 DO NOT SPEED UP THE WRONG PROCESS.....	323
7.12 LEAD TIME AND THE THEORY OF CONSTRAINTS.....	323
<i>Identify</i>	324
<i>Exploit</i>	324
<i>Subordinate</i>	324
<i>Elevate</i>	324
<i>Repeat</i>	324
7.13 LEAD TIME AND PULL.....	324
7.14 LEAD RESPONSE TIME.....	325
7.15 THE FIRST RESPONSE IS A FLOW DECISION.....	326
7.16 CUSTOMER DECISION TIME.....	327
7.17 VALUE-ADDING SPEED VS PRESSURE.....	328
7.18 LEAD TIME AND QUALITY.....	328
7.19 FIRST-TIME-RIGHT AND LEAD TIME.....	329
7.20 LEAD TIME AND REWORK LOOPS.....	330
7.21 REDUCING SALES CYCLE TIME THROUGH BETTER UPSTREAM WORK.....	331
7.22 THE COST OF LONG SALES CYCLES.....	331
<i>Company A</i>	331
<i>Company B</i>	332

7.23 LEAD TIME AND FORECAST ACCURACY.....	332
7.24 LEAD TIME AS A COMPETITIVE ADVANTAGE.....	333
<i>Supplier A</i>	333
<i>Supplier B</i>	333
7.25 THE LEAD-TIME LADDER.....	334
<i>Level 1 — Demand Response</i>	334
<i>Level 2 — Lead Qualification</i>	334
<i>Level 3 — Solution Response</i>	334
<i>Level 4 — Commercial Response</i>	334
<i>Level 5 — Decision Support</i>	334
<i>Level 6 — Transaction</i>	334
<i>Level 7 — Value Realization</i>	334
7.26 THE DIFFERENCE BETWEEN CLOSING AND VALUE REALIZATION.....	335
7.27 LEAD TIME AND CUSTOMER LIFETIME VALUE.....	335
7.28 LEAD TIME AND CUSTOMER TRUST.....	336
<i>Company A</i>	336
<i>Company B</i>	337
7.29 VARIABILITY IS THE ENEMY OF FLOW.....	337
7.30 BATCHING INCREASES LEAD TIME.....	338
7.31 SMALLER BATCHES, FASTER FLOW.....	338
<i>Batch system</i>	338
<i>Smaller-batch system</i>	339
7.32 THE “URGENT” CULTURE.....	339
7.33 WIP LIMITS AND LEAD TIME.....	340
7.34 CONTEXT SWITCHING AS HIDDEN LEAD TIME.....	340
7.35 LEAD-TIME REDUCTION SHOULD START WITH A CURRENT-STATE MAP.....	341
7.36 THE LEAD-TIME WATERFALL.....	342
7.37 FLOW EFFICIENCY.....	342
7.38 WHAT SHOULD WE REMOVE?.....	343
1. <i>Can we eliminate it?</i>	343
2. <i>Can we reduce it?</i>	343
3. <i>Can we parallelize it?</i>	343
4. <i>Can we move it earlier?</i>	343
7.39 PARALLEL PROCESSING.....	343
7.40 APPROVAL LAYERS AND LEAD TIME.....	344
7.41 STANDARD SOLUTIONS REDUCE LEAD TIME.....	345
7.42 THE ECONOMICS OF STANDARDIZATION.....	346
7.43 LEAD-TIME REDUCTION AND AUTOMATION.....	346
7.44 AI AND LEAD TIME.....	347
7.45 LEAD TIME AS A MANAGEMENT METRIC.....	348
7.46 NEVER USE LEAD TIME AS A WEAPON.....	348
7.47 A BALANCED LEAD-TIME OBJECTIVE.....	349
7.48 THE LEAD-TIME IMPROVEMENT CYCLE.....	350
<i>Step 1 — Measure</i>	350
<i>Step 2 — Decompose</i>	350
<i>Step 3 — Visualize</i>	350

<i>Step 4 — Identify Constraints</i>	350
<i>Step 5 — Reduce WIP</i>	350
<i>Step 6 — Remove Waste</i>	350
<i>Step 7 — Improve Quality</i>	350
<i>Step 8 — Improve Flow</i>	350
<i>Step 9 — Standardize</i>	351
<i>Step 10 — Automate</i>	351
<i>Step 11 — Measure Again</i>	351
<i>Step 12 — Repeat</i>	351
7.49 A COMPLETE EXAMPLE: REDUCING A 45-DAY SALES CYCLE	351
<i>Problem 1 — Poor qualification</i>	352
<i>Problem 2 — Missing requirements</i>	352
<i>Problem 3 — Large approval queue</i>	352
<i>Problem 4 — Proposal rework</i>	352
<i>Problem 5 — Excessive WIP</i>	352
7.50 THE REAL MEANING OF SALES-CYCLE REDUCTION	353
7.51 A LEAD-TIME MATURITY MODEL	353
LEVEL 1 — UNKNOWN.....	353
LEVEL 2 — MEASURED.....	353
LEVEL 3 — DECOMPOSED.....	354
LEVEL 4 — MANAGED.....	354
LEVEL 5 — CONTINUOUSLY IMPROVED.....	354
7.52 THE DEEPER PRINCIPLE: TIME REVEALS THE SYSTEM	354
7.53 THE L-MSO LEAD-TIME FRAMEWORK	355
CHAPTER SUMMARY	356
KEY TAKEAWAYS	358
CLOSING THOUGHT.....	358
CHAPTER 8 — FROM CAMPAIGN PUSH TO MARKETING FLOW	360
INTRODUCTION: MARKETING WAS BUILT TO PUSH.....	360
8.1 WHAT IS CAMPAIGN PUSH?	361
8.2 PUSH IS NOT AUTOMATICALLY BAD	362
8.3 PUSH AND PULL IN LEAN THINKING	363
8.4 MARKETING AS A DEMAND-RESPONSE SYSTEM	364
8.5 THE DIFFERENCE BETWEEN ATTENTION AND DEMAND	365
8.6 THE PROBLEM OF FALSE DEMAND	365
8.7 MARKETING QUALITY AT THE SOURCE	366
8.8 FROM LEAD VOLUME TO DEMAND QUALITY	367
<i>Campaign A</i>	367
<i>Campaign B</i>	367
8.9 THE MARKETING VALUE STREAM	368
8.10 CAMPAIGNS SHOULD BE TREATED AS EXPERIMENTS	369
<i>Hypothesis</i>	369
<i>Target Customer</i>	369
<i>Value Proposition</i>	369
<i>Demand Signal</i>	369
<i>Test</i>	369
<i>Measure</i>	369
<i>Learning</i>	369
8.11 MARKETING FLOW IS A LEARNING FLOW	370

8.12 SMALL BATCHES IN MARKETING.....	370
8.13 THE COST OF LARGE MARKETING BATCHES.....	371
8.14 MARKETING WIP.....	372
8.15 THE “EVERYTHING IS A PRIORITY” PROBLEM.....	372
8.16 FLOW REQUIRES FINISHING.....	373
8.17 MARKETING THROUGHPUT.....	373
8.18 THE MARKETING KANBAN CONCEPT.....	374
8.19 MARKETING BOTTLENECKS.....	375
8.20 DO NOT FEED THE BOTTLENECK.....	376
8.21 THE CAMPAIGN APPROVAL BOTTLENECK.....	376
8.22 PULL SIGNALS IN MARKETING.....	377
<i>Weak Signal</i>	377
<i>Moderate Signal</i>	377
<i>Stronger Signal</i>	377
<i>Very Strong Signal</i>	378
8.23 PULL DOES NOT MEAN PASSIVE MARKETING.....	378
8.24 CONTENT AS A FLOW SYSTEM.....	378
8.25 CONTENT FLOW.....	379
8.26 REUSE AND STANDARDIZATION.....	380
8.27 THE MARKETING PLATFORM AS A PRODUCTION SYSTEM.....	381
8.28 MARKETING DEFECTS.....	382
8.29 POKA-YOKE IN MARKETING FLOW.....	382
<i>Campaign setup</i>	382
<i>Audience selection</i>	382
<i>Pricing</i>	383
<i>Links</i>	383
<i>Personalization</i>	383
<i>CRM</i>	383
<i>Lead routing</i>	383
8.30 THE DANGER OF PERSONALIZATION AT SCALE.....	383
8.31 CAMPAIGN FLOW EFFICIENCY.....	384
8.32 MARKETING RESPONSE TIME.....	385
8.33 THE CUSTOMER QUESTION BACKLOG.....	385
8.34 FROM CONTENT CALENDAR TO DEMAND BACKLOG.....	386
8.35 THE PULL-BASED CONTENT ENGINE.....	386
8.36 CLOSING THE FEEDBACK LOOP.....	387
8.37 THE MARKETING-SALES FEEDBACK LOOP.....	388
8.38 LEARNING LEAD TIME.....	389
8.39 THE OODA-LIKE MARKETING LOOP.....	389
8.40 CAMPAIGNS AS FLOW CELLS.....	390
8.41 CROSS-FUNCTIONAL MARKETING CELLS.....	390
8.42 VISUAL MANAGEMENT IN MARKETING.....	391
8.43 ABNORMALITY MANAGEMENT.....	392
8.44 STANDARD WORK FOR MARKETING FLOW.....	392

8.45 KAIZEN IN MARKETING.....	393
8.46 A PRACTICAL MARKETING FLOW TRANSFORMATION.....	393
8.47 THE ECONOMIC EFFECT.....	394
8.48 MARKETING FLOW AND REVENUE FLOW.....	395
8.49 THE MARKETING FUNNEL RECONSIDERED.....	395
<i>Funnel asks:</i>	396
<i>Lean flow asks:</i>	396
8.50 FROM FUNNEL MANAGEMENT TO FLOW MANAGEMENT.....	396
<i>Stage 1</i>	396
<i>Stage 2</i>	396
<i>Stage 3</i>	397
<i>Stage 4</i>	397
<i>Stage 5</i>	397
<i>Stage 6</i>	397
<i>Stage 7</i>	397
8.51 THE LEAN MARKETING OPERATING SYSTEM.....	397
1. <i>Demand Visibility</i>	397
2. <i>Pull</i>	397
3. <i>WIP Control</i>	397
4. <i>Flow</i>	397
5. <i>Quality at Source</i>	398
6. <i>Fast Learning</i>	398
7. <i>Continuous Improvement</i>	398
8.52 THE L-MSO MARKETING FLOW MODEL.....	398
8.53 WHAT CHANGES FOR THE MARKETING MANAGER?.....	399
8.54 WHAT CHANGES FOR THE MARKETER?.....	399
8.55 WHAT CHANGES FOR SALES?.....	400
8.56 THE ULTIMATE SHIFT.....	401
<i>Traditional Marketing</i>	401
<i>Lean Marketing</i>	401
8.57 CHAPTER FRAMEWORK.....	402
CHAPTER SUMMARY.....	403
KEY TAKEAWAYS.....	404
CLOSING THOUGHT.....	405
CHAPTER 9 — KANBAN FOR MARKETING OPERATIONS.....	405
CHAPTER 9 — KANBAN FOR MARKETING OPERATIONS.....	406
INTRODUCTION: FROM VISIBILITY TO FLOW CONTROL.....	406
9.1 WHAT IS KANBAN?.....	407
9.2 KANBAN IS NOT A TO-DO LIST.....	408
<i>Traditional Task List</i>	408
<i>Kanban System</i>	408
9.3 THE FOUR BASIC KANBAN PRINCIPLES.....	409
PRINCIPLE 1 — VISUALIZE WORK.....	409
PRINCIPLE 2 — LIMIT WIP.....	409
PRINCIPLE 3 — MANAGE FLOW.....	409
PRINCIPLE 4 — IMPROVE CONTINUOUSLY.....	409
9.4 WHY MARKETING NEEDS WIP CONTROL.....	410

9.5 THE HIDDEN COST OF MULTITASKING.....	411
9.6 KANBAN AND LITTLE'S LAW.....	411
9.7 KANBAN MAKES QUEUES VISIBLE.....	412
9.8 DESIGNING A MARKETING KANBAN BOARD.....	413
9.9 WHY “TO DO → DOING → DONE” IS OFTEN TOO SIMPLE.....	414
9.10 WAITING IS WORK IN PROGRESS.....	414
9.11 BLOCKED WORK.....	415
9.12 WIP LIMITS.....	416
9.13 WIP LIMITS ARE NOT ARBITRARY RESTRICTIONS.....	416
9.14 HOW TO SET WIP LIMITS.....	417
9.15 THE PULL SIGNAL.....	418
9.16 READY CRITERIA.....	418
9.17 DEFINITION OF DONE.....	419
9.18 KANBAN FOR CONTENT MARKETING.....	420
9.19 KANBAN FOR CAMPAIGNS.....	421
9.20 KANBAN FOR MARKETING EXPERIMENTS.....	421
9.21 KANBAN FOR LEAD MANAGEMENT.....	422
9.22 KANBAN ACROSS MARKETING AND SALES.....	422
9.23 KANBAN AND THE SALES FUNNEL.....	423
9.24 AGING CARDS.....	424
9.25 WORK ITEM AGE.....	425
9.26 CYCLE TIME.....	425
9.27 THROUGHPUT.....	426
9.28 FLOW EFFICIENCY.....	426
9.29 BLOCKER ANALYSIS.....	427
9.30 CLASSES OF SERVICE.....	428
<i>Standard</i>	428
<i>Expedite</i>	428
<i>Fixed Date</i>	428
<i>Strategic</i>	428
9.31 THE COST OF EXPEDITES.....	428
9.32 PRIORITY IS NOT THE SAME AS URGENCY.....	429
9.33 COST OF DELAY.....	430
9.34 KANBAN AND CAPACITY.....	430
9.35 KANBAN REVEALS SYSTEM IMBALANCE.....	431
9.36 SUBORDINATION TO THE CONSTRAINT.....	432
9.37 KANBAN POLICIES.....	432
<i>Ready</i>	432
<i>Production</i>	432
<i>Review</i>	432
<i>Expedite</i>	432
<i>Done</i>	433
9.38 EXPLICIT POLICIES REDUCE MANAGEMENT FRICTION.....	433
9.39 KANBAN CADENCES.....	433

<i>Daily Flow Review</i>	433
<i>Weekly Replenishment</i>	434
<i>Weekly Flow Review</i>	434
<i>Monthly Improvement Review</i>	434
9.40 REPLENISHMENT IS A MANAGEMENT DECISION.....	434
9.41 KANBAN AND MARKETING PLANNING.....	435
9.42 THE BACKLOG IS NOT WIP.....	435
9.43 THE BACKLOG SHOULD BE DECAYING, NOT GROWING FOREVER.....	436
9.44 KANBAN AND CUSTOMER PULL.....	436
9.45 A MARKETING KANBAN EXAMPLE.....	437
<i>WIP Limits</i>	437
<i>Ready Criteria</i>	438
<i>Pull Rule</i>	438
<i>Blocker Visibility</i>	438
<i>Weekly Replenishment</i>	438
9.46 KANBAN DOES NOT REQUIRE EXPENSIVE SOFTWARE.....	438
9.47 DIGITAL KANBAN AND PHYSICAL KANBAN.....	439
9.48 KANBAN FOR REMOTE MARKETING TEAMS.....	439
9.49 THE “SHADOW KANBAN” PROBLEM.....	440
9.50 KANBAN AND HUMAN BEHAVIOR.....	441
9.51 THE DANGER OF MEASURING INDIVIDUAL UTILIZATION.....	441
9.52 CAPACITY BUFFERS.....	442
9.53 FLOW METRICS FOR KANBAN.....	442
<i>WIP</i>	442
<i>Throughput</i>	442
<i>Lead Time</i>	442
<i>Cycle Time</i>	443
<i>Work Item Age</i>	443
<i>Blocked Time</i>	443
<i>Flow Efficiency</i>	443
<i>Rework Rate</i>	443
9.54 LEAD-TIME DISTRIBUTION MATTERS.....	443
9.55 PREDICTABILITY IS A LEAN OUTCOME.....	444
9.56 KANBAN AND CONTINUOUS IMPROVEMENT.....	444
9.57 THE KANBAN KAIZEN LOOP.....	445
<i>Plan</i>	445
<i>Do</i>	445
<i>Check</i>	445
<i>Act</i>	445
9.58 KANBAN AND STANDARD WORK.....	445
9.59 KANBAN AND POKA-YOKE.....	446
9.60 KANBAN AND AUTOMATION.....	446
9.61 KANBAN AND AI.....	447
9.62 A KANBAN TRANSFORMATION ROADMAP.....	448
<i>Step 1 — Identify the Value Stream</i>	448
<i>Step 2 — Define Work Items</i>	448
<i>Step 3 — Map Current Stages</i>	448
<i>Step 4 — Visualize</i>	448

<i>Step 5 — Identify WIP</i>	448
<i>Step 6 — Set Initial WIP Limits</i>	448
<i>Step 7 — Define Pull Rules</i>	448
<i>Step 8 — Define Ready and Done</i>	448
<i>Step 9 — Make Blockers Visible</i>	448
<i>Step 10 — Measure Flow</i>	449
<i>Step 11 — Improve</i>	449
<i>Step 12 — Adjust</i>	449
<i>Step 13 — Standardize</i>	449
<i>Step 14 — Repeat</i>	449
9.63 WHAT NOT TO DO	449
MISTAKE 1 — BUILDING A PRETTY BOARD.....	449
MISTAKE 2 — CREATING TOO MANY COLUMNS.....	449
MISTAKE 3 — IGNORING WAITING.....	449
MISTAKE 4 — NO WIP LIMITS.....	449
MISTAKE 5 — EVERYTHING IS URGENT.....	450
MISTAKE 6 — MEASURING ACTIVITY INSTEAD OF FLOW.....	450
MISTAKE 7 — TREATING THE BOARD AS EMPLOYEE SURVEILLANCE.....	450
MISTAKE 8 — AUTOMATING BEFORE STABILIZING.....	450
9.64 KANBAN AS A MANAGEMENT SYSTEM	450
9.65 THE MARKETING KANBAN OPERATING SYSTEM	451
<i>Demand</i>	451
<i>Prioritization</i>	451
<i>Replenishment</i>	451
<i>WIP Control</i>	451
<i>Flow</i>	452
<i>Quality</i>	452
<i>Measurement</i>	452
<i>Learning</i>	452
9.66 THE BROADER L-MSO PERSPECTIVE	452
9.67 THE DEEPER PRINCIPLE	453
CHAPTER SUMMARY	454
KEY TAKEAWAYS	455
CLOSING THOUGHT.....	456
CHAPTER 10 — MANAGING WIP IN MARKETING AND SALES	457
CHAPTER 10 — MANAGING WIP IN MARKETING AND SALES	458
INTRODUCTION: THE WORK WE HAVE STARTED BUT HAVE NOT FINISHED.....	458
10.1 WHAT EXACTLY IS WIP?	459
10.2 WIP IS NOT THE SAME AS A BACKLOG	460
10.3 THE HIDDEN NATURE OF COMMERCIAL WIP	461
10.4 THE EIGHT FORMS OF WIP IN MARKETING AND SALES	461
1. <i>Demand WIP</i>	461
2. <i>Opportunity WIP</i>	461
3. <i>Proposal WIP</i>	461
4. <i>Decision WIP</i>	461
5. <i>Marketing Production WIP</i>	462
6. <i>Information WIP</i>	462
7. <i>Approval WIP</i>	462
8. <i>Customer Onboarding WIP</i>	462
10.5 WHY WIP INCREASES LEAD TIME	462
10.6 THE PIPELINE FALLACY	463

10.7 PIPELINE VELOCITY.....	464
10.8 WIP AND ATTENTION.....	464
10.9 CONTEXT SWITCHING.....	465
10.10 WIP AND DEFECTS.....	466
10.11 WIP AND CUSTOMER RESPONSIVENESS.....	467
10.12 WIP AS INVISIBLE INVENTORY.....	467
10.13 WIP CARRYING COST IN SALES.....	468
10.14 THE WIP EXPLOSION.....	469
10.15 THE WIP TRAP.....	469
10.16 STOP STARTING, START FINISHING.....	470
10.17 WIP LIMITS BY DESIGN.....	471
10.18 WIP LIMITS IN SALES.....	471
10.19 QUALIFICATION AS WIP CONTROL.....	472
10.20 WIP LIMITS AND CUSTOMER VALUE.....	473
<i>High-touch WIP</i>	473
<i>Low-touch nurture</i>	473
10.21 CLASSES OF SERVICE FOR WIP.....	473
<i>Strategic</i>	473
<i>Standard</i>	473
<i>Nurture</i>	473
<i>Expedite</i>	473
10.22 WIP AND CUSTOMER SEGMENTATION.....	474
10.23 MANAGING WIP AT THE SYSTEM LEVEL.....	474
10.24 THE WIP CASCADE.....	475
10.25 WIP AND BOTTLENECKS.....	476
10.26 WIP HEAT MAPS.....	476
10.27 WIP AGING.....	477
10.28 AGING BUCKETS.....	477
10.29 THE STALE OPPORTUNITY.....	478
10.30 THE “CLOSE OR MOVE” RULE.....	478
10.31 WIP AND CRM HYGIENE.....	479
10.32 WAITING FOR CUSTOMER VS WAITING FOR ORGANIZATION.....	479
10.33 WIP AND VISUAL MANAGEMENT.....	480
10.34 WIP AND DAILY MANAGEMENT.....	480
10.35 WIP AND MANAGEMENT MEETINGS.....	481
10.36 WIP AND DECISION LATENCY.....	481
10.37 THE EXECUTIVE BOTTLENECK.....	482
10.38 WIP AND WORK RELEASE.....	483
10.39 THE RELEASE RATE.....	483
10.40 WIP AND THROUGHPUT.....	484
10.41 THE OPTIMAL WIP IS NOT ZERO.....	484
10.42 STRATEGIC BUFFERS.....	485
10.43 WIP AND VARIABILITY.....	485

10.44 THE WIP-LEAD TIME TRADEOFF.....	486
10.45 WIP AND FLOW EFFICIENCY.....	486
10.46 WIP REDUCTION TECHNIQUES.....	487
1. Stop Starting.....	487
2. Prioritize.....	487
3. Qualify.....	487
4. Standardize.....	487
5. Reduce Batch Size.....	487
6. Eliminate Waste.....	487
7. Reduce Rework.....	488
8. Improve Bottlenecks.....	488
9. Automate Stable Work.....	488
10. Close Stale WIP.....	488
10.47 STOP STARTING.....	488
10.48 PRIORITIZATION.....	488
10.49 WIP AND COST OF DELAY.....	489
10.50 WIP AND SERVICE-LEVEL AGREEMENTS.....	490
10.51 WIP AND AUTOMATION.....	490
10.52 WIP AND AI.....	490
10.53 THE AI-WIP PARADOX.....	491
10.54 WIP AND KNOWLEDGE MANAGEMENT.....	492
10.55 WIP AND CUSTOMER COMMUNICATION.....	492
10.56 WIP AND CUSTOMER SUCCESS.....	493
10.57 WIP ACROSS THE ENTIRE CUSTOMER VALUE STREAM.....	494
10.58 THE WIP DASHBOARD.....	494
10.59 WIP AND DAILY MANAGEMENT QUESTIONS.....	495
1. What is aging?.....	495
2. What is blocked?.....	495
3. What is the constraint?.....	495
4. What can we finish?.....	495
5. What should not start?.....	496
10.60 THE WIP REDUCTION KAIZEN.....	496
10.61 A COMPLETE EXAMPLE: SALES WIP REDUCTION.....	496
Stale opportunities.....	497
Poorly qualified.....	497
Waiting for customer.....	497
Technical.....	497
High-value.....	497
Standard.....	497
10.62 THE DIFFERENCE BETWEEN WIP REDUCTION AND COST CUTTING.....	498
10.63 RELEASED CAPACITY.....	499
10.64 WIP AND GROWTH.....	499
10.65 WIP AND REVENUE RECOGNITION.....	500
10.66 WIP AND CASH FLOW.....	500
10.67 THE WIP MANAGEMENT MATURITY MODEL.....	501
LEVEL 1 — INVISIBLE.....	501
LEVEL 2 — COUNTED.....	501
LEVEL 3 — CONTROLLED.....	501

LEVEL 4 — FLOW MANAGED.....	501
LEVEL 5 — DYNAMICALLY OPTIMIZED.....	501
10.68 A PRACTICAL WIP MANAGEMENT FRAMEWORK.....	502
<i>Step 1 — Define WIP.....</i>	<i>502</i>
<i>Step 2 — Measure.....</i>	<i>502</i>
<i>Step 3 — Segment.....</i>	<i>502</i>
<i>Step 4 — Age.....</i>	<i>502</i>
<i>Step 5 — Identify Constraints.....</i>	<i>502</i>
<i>Step 6 — Establish Limits.....</i>	<i>502</i>
<i>Step 7 — Control Release.....</i>	<i>502</i>
<i>Step 8 — Improve Flow.....</i>	<i>502</i>
<i>Step 9 — Remove Stale WIP.....</i>	<i>502</i>
<i>Step 10 — Rebalance.....</i>	<i>502</i>
10.69 THE L-MSO WIP PRINCIPLE.....	503
10.70 THE DEEPER PRINCIPLE.....	504
CHAPTER SUMMARY.....	504
KEY TAKEAWAYS.....	506
CLOSING THOUGHT.....	507
CHAPTER 11 — STANDARD WORK FOR MARKETING OPERATIONS.....	508
CHAPTER 11 — STANDARD WORK FOR MARKETING OPERATIONS.....	509
INTRODUCTION: YOU CANNOT IMPROVE WHAT HAS NO STANDARD.....	509
11.1 WHAT IS STANDARD WORK?.....	510
<i>Current.....</i>	<i>510</i>
<i>Best Known Method.....</i>	<i>511</i>
<i>Repeatable Process.....</i>	<i>511</i>
11.2 STANDARD WORK IS NOT BUREAUCRACY.....	511
11.3 WHY MARKETING NEEDS STANDARD WORK.....	512
11.4 STANDARD WORK AND VARIATION.....	512
11.5 NECESSARY VS UNNECESSARY VARIATION.....	513
11.6 STANDARDIZATION CREATES A BASELINE.....	513
11.7 WITHOUT A STANDARD, EVERY IMPROVEMENT IS AN ARGUMENT.....	514
11.8 STANDARD WORK AND PDCA.....	515
<i>Plan.....</i>	<i>515</i>
<i>Do.....</i>	<i>515</i>
<i>Check.....</i>	<i>515</i>
<i>Act.....</i>	<i>515</i>
11.9 STANDARD WORK AND THE LEAN PRINCIPLE OF “CURRENT BEST”.....	515
11.10 THE THREE ELEMENTS OF STANDARD WORK.....	516
1. <i>Sequence.....</i>	<i>516</i>
2. <i>Timing.....</i>	<i>516</i>
3. <i>Standard Conditions.....</i>	<i>516</i>
11.11 STANDARD SEQUENCE.....	516
11.12 STANDARD TIMING.....	517
11.13 STANDARD CONDITIONS.....	518
11.14 STANDARD WORK AND KANBAN.....	518
11.15 STANDARD WORK AND WIP.....	519
11.16 STANDARD WORK AND FIRST-TIME-RIGHT.....	519

11.17 STANDARD WORK AS POKA-YOKE.....	520
<i>Standard</i>	520
<i>Poka-Yoke</i>	520
11.18 THE STANDARD MARKETING BRIEF.....	520
<i>Customer</i>	521
<i>Problem</i>	521
<i>Desired Outcome</i>	521
<i>Value Proposition</i>	521
<i>Offer</i>	521
<i>Channel</i>	521
<i>Evidence</i>	521
<i>Measurement</i>	521
<i>Owner</i>	521
11.19 STANDARD WORK FOR CONTENT.....	522
<i>Step 1</i>	522
<i>Step 2</i>	522
<i>Step 3</i>	522
<i>Step 4</i>	522
<i>Step 5</i>	522
<i>Step 6</i>	522
<i>Step 7</i>	522
<i>Step 8</i>	522
<i>Step 9</i>	522
<i>Step 10</i>	522
<i>Step 11</i>	523
11.20 STANDARD WORK FOR EMAIL MARKETING.....	523
11.21 STANDARD WORK FOR LEAD QUALIFICATION.....	523
11.22 STANDARD WORK FOR LEAD ROUTING.....	524
11.23 STANDARD WORK FOR SALES FOLLOW-UP.....	524
<i>After initial qualification</i>	524
<i>After discovery</i>	525
<i>After proposal</i>	525
11.24 STANDARD WORK FOR PROPOSALS.....	525
11.25 STANDARD WORK FOR APPROVALS.....	526
11.26 STANDARD WORK FOR CAMPAIGN LAUNCH.....	526
<i>Audience</i>	526
<i>Creative</i>	526
<i>Offer</i>	526
<i>Links</i>	526
<i>Tracking</i>	527
<i>Landing Page</i>	527
<i>Pricing</i>	527
<i>Legal</i>	527
<i>Test</i>	527
<i>Owner</i>	527
11.27 STANDARD WORK FOR MEASUREMENT.....	527
11.28 STANDARD WORK FOR POST-CAMPAIGN LEARNING.....	528
11.29 STANDARD WORK AND CREATIVITY.....	528
11.30 STANDARDIZATION FREES CREATIVITY.....	529
11.31 STANDARD WORK AND PROFESSIONAL JUDGMENT.....	529
11.32 STANDARD WORK AND EXCEPTIONS.....	530

<i>Standard Process</i>	530
<i>Exception</i>	530
<i>Response</i>	530
<i>Standard</i>	530
<i>Exception</i>	530
<i>Response</i>	530
11.33 STANDARD WORK AND WORKAROUNDS.....	531
11.34 STANDARD WORK AND GEMBA.....	531
11.35 THE STANDARD WORK COMBINATION TABLE.....	532
11.36 STANDARD WORK AND TAKT.....	533
11.37 STANDARD WORK AND CAPACITY.....	533
11.38 STANDARD WORK AND WORKLOAD BALANCE.....	534
11.39 STANDARD WORK AND CROSS-TRAINING.....	534
11.40 THE HERO CULTURE PROBLEM.....	535
11.41 STANDARD WORK AND ONBOARDING.....	535
11.42 STANDARD WORK AND ORGANIZATIONAL LEARNING.....	536
11.43 STANDARD WORK AND KNOWLEDGE LOSS.....	536
11.44 DO NOT STANDARDIZE EVERYTHING.....	537
11.45 THE STANDARDIZATION MATRIX.....	537
11.46 STANDARD WORK AND CUSTOMER EXPERIENCE.....	538
11.47 STANDARD WORK AND TRUST.....	538
11.48 STANDARD WORK AND SERVICE RECOVERY.....	539
<i>Trigger</i>	539
<i>Standard Response</i>	539
11.49 STANDARD WORK AND CUSTOMER EFFORT.....	539
11.50 STANDARD WORK AND THE “ONE-TIME DATA” PRINCIPLE.....	540
11.51 STANDARD WORK AND HANDOFFS.....	541
11.52 STANDARD WORK FOR SALES HANDOFFS.....	541
11.53 STANDARD WORK AND FLOW.....	542
11.54 STANDARD WORK AND MEASUREMENT.....	543
<i>Campaign Process</i>	543
<i>Lead Qualification</i>	543
<i>Proposal</i>	543
<i>Customer Response</i>	543
11.55 STANDARD VS ACTUAL.....	543
11.56 THE GAP IS THE STARTING POINT.....	544
11.57 STANDARD WORK AND 5 WHYS.....	544
<i>Why?</i>	544
<i>Why?</i>	544
<i>Why?</i>	545
<i>Why?</i>	545
<i>Why?</i>	545
11.58 STANDARD WORK AND A3.....	545
11.59 STANDARD WORK AND VISUAL MANAGEMENT.....	546
11.60 THE ONE-PAGE STANDARD.....	546
<i>Purpose</i>	546

<i>Trigger</i>	546
<i>Sequence</i>	546
<i>Owner</i>	546
<i>Timing</i>	546
<i>Quality</i>	547
<i>Escalation</i>	547
<i>Completion</i>	547
11.61 STANDARD WORK AND DIGITAL SYSTEMS.....	547
11.62 BEWARE OF RIGID AUTOMATION.....	547
11.63 STANDARD WORK AND AI.....	548
11.64 AI REQUIRES MORE STANDARDIZATION, NOT LESS.....	549
11.65 STANDARD WORK FOR AI-ASSISTED MARKETING.....	549
<i>Input</i>	549
<i>AI Use</i>	549
<i>Human Review</i>	549
<i>Quality Gate</i>	550

<i>Chapter 10</i>	556
<i>Chapter 11</i>	556

11.74 PART III — THE COMPLETE OPERATING LOGIC.....	557
<i>Campaign Push.....</i>	<i>557</i>
<i>Marketing Flow.....</i>	<i>557</i>
<i>Kanban.....</i>	<i>557</i>
<i>WIP Management.....</i>	<i>557</i>
<i>Standard Work.....</i>	<i>557</i>
<i>Stable Flow.....</i>	<i>557</i>
11.75 THE DEEPER PRINCIPLE.....	558
CHAPTER SUMMARY.....	558
KEY TAKEAWAYS.....	559
CLOSING THOUGHT.....	560
PART IV — LEAN SALES OPERATIONS.....	561
CHAPTER 12 — DESIGNING A LEAN SALES PIPELINE.....	561
CHAPTER 12 — DESIGNING A LEAN SALES PIPELINE.....	562
INTRODUCTION.....	562
12.1 FROM SALES FUNNEL TO SALES PIPELINE.....	563
12.2 THE SALES PIPELINE AS A VALUE STREAM.....	564
12.3 WHAT MAKES A SALES PIPELINE "LEAN"?.....	566
1. <i>It contains genuine demand.....</i>	<i>566</i>
2. <i>Its stages represent meaningful progress.....</i>	<i>566</i>
3. <i>WIP is controlled.....</i>	<i>566</i>
4. <i>Waiting is visible.....</i>	<i>566</i>
5. <i>Work is pulled.....</i>	<i>567</i>
6. <i>Quality is built into the process.....</i>	<i>567</i>
7. <i>Bottlenecks are managed.....</i>	<i>567</i>
8. <i>Lead time is measured.....</i>	<i>567</i>
9. <i>Standard Work exists.....</i>	<i>567</i>
10. <i>Improvement is continuous.....</i>	<i>567</i>
12.4 THE FIRST DESIGN PRINCIPLE: STAGES MUST REPRESENT CUSTOMER PROGRESS....	567
12.5 ACTIVITY IS NOT PROGRESS.....	569
12.6 DESIGNING MEANINGFUL PIPELINE STAGES.....	570
STAGE 1 — QUALIFIED DEMAND.....	570
STAGE 2 — PROBLEM CONFIRMED.....	570
STAGE 3 — SOLUTION FIT ESTABLISHED.....	571
STAGE 4 — DECISION PROCESS UNDERSTOOD.....	571
STAGE 5 — TECHNICAL / COMMERCIAL ALIGNMENT.....	572
STAGE 6 — PROPOSAL / OFFER.....	572
STAGE 7 — CUSTOMER EVALUATION.....	573
STAGE 8 — NEGOTIATION / COMMITMENT.....	573
STAGE 9 — CLOSED WON.....	574
STAGE 10 — HANDOFF / VALUE REALIZATION.....	574
12.7 ENTRY AND EXIT CRITERIA.....	574
<i>Stage: Proposal.....</i>	<i>575</i>
12.8 DEFINITION OF READY AND DEFINITION OF DONE.....	575
DEFINITION OF READY.....	575
DEFINITION OF DONE.....	576
12.9 PIPELINE WIP.....	576
12.10 THE PIPELINE GRAVEYARD.....	578
12.11 THE "NO NEXT STEP" SIGNAL.....	578

12.12 AGING: HOW LONG HAS THE OPPORTUNITY BEEN HERE?.....	579
12.13 AGING RULES.....	580
12.14 BOTTLENECKS IN THE SALES PIPELINE.....	581
12.15 PROTECTING THE CONSTRAINT.....	582
12.16 QUALITY AT THE SOURCE.....	582
12.17 QUALIFICATION AS A FLOW-CONTROL MECHANISM.....	583
12.18 PULL IN THE SALES PIPELINE.....	584
12.19 CUSTOMER COMMITMENT AS A PULL SIGNAL.....	585
12.20 PIPELINE CLASSES OF SERVICE.....	586
<i>Strategic</i>	586
<i>Standard</i>	586
<i>Nurture</i>	586
<i>Expedite</i>	586
12.21 WIP LIMITS BY STAGE.....	586
12.22 PIPELINE VELOCITY.....	587
12.23 PIPELINE COVERAGE IS NOT PIPELINE HEALTH.....	588
<i>Pipeline A</i>	588
<i>Pipeline B</i>	588
12.24 FORECASTING THROUGH FLOW EVIDENCE.....	589
12.25 SALES CYCLE TIME BY STAGE.....	590
12.26 TOUCH TIME VERSUS WAITING TIME.....	591
12.27 CUSTOMER WAITING IS DIFFERENT FROM ORGANIZATIONAL WAITING.....	592
<i>Customer waiting</i>	592
<i>Organizational waiting</i>	592
<i>Shared waiting</i>	592
12.28 THE SALES PIPELINE AND CRM.....	592
12.29 POKA-YOKE IN THE CRM.....	593
12.30 STANDARD WORK AND THE SALES PIPELINE.....	594
<i>Proposal Standard Work</i>	594
12.31 THE "CLOSE, ADVANCE, NURTURE, OR REMOVE" RULE.....	595
1. <i>Advance</i>	595
2. <i>Close</i>	595
3. <i>Nurture</i>	595
4. <i>Remove</i>	595
12.32 THE COST OF KEEPING DEAD OPPORTUNITIES ALIVE.....	596
12.33 A PRACTICAL EXAMPLE: FROM PIPELINE CHAOS TO FLOW.....	596
12.34 REDUCING WIP WITHOUT DESTROYING FUTURE REVENUE.....	598
12.35 PIPELINE BALANCING.....	599
12.36 PIPELINE METRICS THAT MATTER.....	599
FLOW METRICS.....	599
<i>Throughput</i>	599
<i>Lead Time</i>	599
<i>Stage Cycle Time</i>	600
<i>WIP</i>	600
<i>Aging</i>	600
<i>Flow Efficiency</i>	600
QUALITY METRICS.....	600

<i>First-Time-Right</i>	600
<i>Rework Rate</i>	600
<i>Qualification Quality</i>	600
CUSTOMER METRICS.....	600
<i>Customer Waiting Time</i>	600
<i>Customer Effort</i>	600
<i>Decision Friction</i>	601
CONVERSION METRICS.....	601
<i>Stage Conversion</i>	601
<i>Win Rate</i>	601
<i>Loss Reasons</i>	601
12.37 THE DANGER OF PIPELINE GAMING.....	601
12.38 THE MANAGER'S ROLE CHANGES.....	602
12.39 DAILY MANAGEMENT OF THE LEAN PIPELINE.....	602
12.40 A LEAN PIPELINE BOARD.....	603
12.41 DESIGNING THE PIPELINE FROM THE CUSTOMER BACKWARD.....	604
<i>Customer Commitment</i>	604
<i>Negotiation</i>	604
<i>Proposal</i>	605
<i>Solution</i>	605
<i>Problem</i>	605
<i>Qualification</i>	605
12.42 THE LEAN SALES PIPELINE DESIGN ROADMAP.....	605
<i>Step 1 — Define the Value Stream</i>	605
<i>Step 2 — Define Customer Progress</i>	605
<i>Step 3 — Design Pipeline Stages</i>	606
<i>Step 4 — Define Entry and Exit Criteria</i>	606
<i>Step 5 — Measure Current WIP</i>	606
<i>Step 6 — Measure Aging and Lead Time</i>	606
<i>Step 7 — Identify Bottlenecks</i>	606
<i>Step 8 — Establish WIP and Aging Rules</i>	606
<i>Step 9 — Configure the CRM</i>	606
<i>Step 10 — Improve Continuously</i>	606
12.43 LEAN SALES PIPELINE MATURITY.....	606
LEVEL 1 — ACTIVITY PIPELINE.....	607
LEVEL 2 — VISIBILITY PIPELINE.....	607
LEVEL 3 — CONTROLLED PIPELINE.....	607
LEVEL 4 — FLOW PIPELINE.....	607
LEVEL 5 — ADAPTIVE LEAN PIPELINE.....	608
12.44 INTEGRATING THE PIPELINE WITH THE L-MSO FRAMEWORK.....	608
1. <i>Define Value</i>	608
2. <i>Map the Value Stream</i>	608
3. <i>Eliminate Waste</i>	608
4. <i>Identify Bottlenecks</i>	608
5. <i>Establish Flow</i>	608
6. <i>Control WIP</i>	609
7. <i>Reduce Lead Time</i>	609
8. <i>Standardize the Work</i>	609
9. <i>Measure Performance</i>	609
10. <i>Improve Continuously</i>	609
12.45 THE DEEPER PRINCIPLE: A PIPELINE SHOULD REPRESENT REALITY.....	609
12.46 CHAPTER SUMMARY.....	610
KEY TAKEAWAYS.....	611

CLOSING THOUGHT.....	612
CHAPTER 13 — REDUCING SALES CYCLE TIME.....	612
CHAPTER 13 — REDUCING SALES CYCLE TIME.....	614
INTRODUCTION.....	614
13.1 WHAT IS SALES CYCLE TIME?.....	615
13.2 SALES CYCLE TIME IS NOT ONE TYPE OF TIME.....	616
<i>Touch Time</i>	616
<i>Waiting Time</i>	617
<i>Queue Time</i>	617
<i>Transfer Time</i>	617
<i>Rework Time</i>	617
<i>Decision Time</i>	617
13.3 A 60-DAY SALES CYCLE MAY NOT BE A 60-DAY SALES PROCESS.....	617
13.4 THE DIFFERENCE BETWEEN SPEED AND FLOW.....	618
13.5 THE PHYSICS OF SALES CYCLE TIME.....	619
13.6 WHY ADDING MORE WORK CAN MAKE SALES SLOWER.....	620
13.7 THE QUEUEING EFFECT.....	621
13.8 THE FIRST PRINCIPLE OF CYCLE-TIME REDUCTION: FIND THE WAITING.....	622
13.9 THE SECOND PRINCIPLE: REDUCE HANDOFFS.....	623
13.10 REDUCE HANDOFFS BY IMPROVING INFORMATION QUALITY.....	624
13.11 THE THIRD PRINCIPLE: IMPROVE FIRST-TIME-RIGHT.....	625
13.12 COMMON SOURCES OF SALES REWORK.....	625
13.13 THE FOURTH PRINCIPLE: REDUCE APPROVAL TIME.....	626
13.14 APPROVAL THRESHOLDS.....	627
13.15 THE EXECUTIVE BOTTLENECK.....	628
13.16 THE FIFTH PRINCIPLE: IMPROVE CUSTOMER DECISION FLOW.....	629
13.17 REDUCE CUSTOMER DECISION FRICTION.....	629
13.18 THE DECISION-READY PROPOSAL.....	630
13.19 THE SIXTH PRINCIPLE: REDUCE BATCH SIZE.....	631
13.20 THE SEVENTH PRINCIPLE: LIMIT CONCURRENT WORK.....	631
13.21 "STOP STARTING, START FINISHING" IN SALES.....	632
13.22 THE EIGHTH PRINCIPLE: STANDARDIZE REPETITIVE WORK.....	633
13.23 TEMPLATES ARE NOT BUREAUCRACY.....	633
13.24 THE NINTH PRINCIPLE: IMPROVE INFORMATION AVAILABILITY.....	634
13.25 DIGITAL MOTION IS STILL MOTION.....	635
13.26 THE TENTH PRINCIPLE: AUTOMATE ONLY AFTER STABILIZATION.....	635
13.27 AI AND SALES CYCLE TIME.....	636
13.28 A NUMERICAL EXAMPLE: LOCAL OPTIMIZATION VERSUS SYSTEM IMPROVEMENT...	637
13.29 IDENTIFY THE CONSTRAINT BEFORE OPTIMIZING.....	638
13.30 A SALES CYCLE-TIME PARETO.....	638
13.31 CUSTOMER WAITING REQUIRES A DIFFERENT STRATEGY.....	639
13.32 THE NEXT-STEP STANDARD.....	639
13.33 REDUCING SALES CYCLE TIME THROUGH BETTER QUALIFICATION.....	640

13.34 THE RELATIONSHIP BETWEEN CONVERSION AND CYCLE TIME.....	641
13.35 SALES CYCLE TIME AND CUSTOMER TRUST.....	642
13.36 DESIGNING FOR FAST DECISIONS.....	642
13.37 A PRACTICAL SALES CYCLE-TIME IMPROVEMENT PROJECT.....	643
<i>Step 1 — Define the Measurement Boundary.....</i>	643
<i>Step 2 — Collect Actual Data.....</i>	643
<i>Step 3 — Decompose Lead Time.....</i>	643
<i>Step 4 — Segment the Data.....</i>	643
<i>Step 5 — Identify the Largest Delay Sources.....</i>	643
<i>Step 6 — Identify the Constraint.....</i>	644
<i>Step 7 — Analyze Root Causes.....</i>	644
<i>Step 8 — Design Countermeasures.....</i>	644
<i>Step 9 — Run a Pilot.....</i>	644
<i>Step 10 — Measure Again.....</i>	644
<i>Step 11 — Standardize.....</i>	644
<i>Step 12 — Continue the Cycle.....</i>	645
13.38 A FULL EXAMPLE.....	645
<i>Improvement 1: Qualification.....</i>	645
<i>Improvement 2: Technical Intake.....</i>	645
<i>Improvement 3: Proposal Standard Work.....</i>	646
<i>Improvement 4: Approval Matrix.....</i>	646
<i>Improvement 5: Decision-Ready Proposal.....</i>	646
<i>Improvement 6: Contract Standardization.....</i>	646
13.39 WHAT HAPPENS TO CAPACITY AFTER CYCLE-TIME REDUCTION?.....	647
13.40 CYCLE-TIME REDUCTION IS NOT HEADCOUNT REDUCTION.....	648
13.41 THE SALES CYCLE-TIME DASHBOARD.....	648
<i>Lead Time.....</i>	648
<i>Lead-Time Distribution.....</i>	649
<i>Stage Cycle Time.....</i>	649
<i>WIP.....</i>	649
<i>Aging.....</i>	649
<i>Waiting.....</i>	649
<i>Rework.....</i>	649
<i>Throughput.....</i>	649
<i>Conversion.....</i>	649
<i>Customer Effort.....</i>	649
13.42 PREDICTABILITY MATTERS.....	650
13.43 THE GOAL: FAST AND PREDICTABLE FLOW.....	650
13.44 A CYCLE-TIME REDUCTION CHECKLIST.....	651
<i>Customer.....</i>	651
<i>Sales.....</i>	651
<i>Technical.....</i>	651
<i>Commercial.....</i>	652
<i>Legal.....</i>	652
<i>Management.....</i>	652
<i>Systems.....</i>	652
<i>Quality.....</i>	652
13.45 THE DEEPER PRINCIPLE.....	652
13.46 INTEGRATING CYCLE TIME INTO THE L-MSO FRAMEWORK.....	653
<i>Define Value.....</i>	653
<i>Map the Value Stream.....</i>	653
<i>Eliminate Waste.....</i>	653

<i>Identify Bottlenecks</i>	653
<i>Establish Flow</i>	653
<i>Control WIP</i>	654
<i>Reduce Lead Time</i>	654
<i>Standardize the Work</i>	654
<i>Measure Performance</i>	654
<i>Improve Continuously</i>	654
13.47 CHAPTER SUMMARY	654
KEY TAKEAWAYS	655
CLOSING THOUGHT.....	656
CHAPTER 14 — BOTTLENECKS IN SALES AND MARKETING	657
CHAPTER 14 — BOTTLENECKS IN SALES AND MARKETING	658
INTRODUCTION.....	658
14.1 WHAT IS A BOTTLENECK?	659
14.2 BOTTLENECK VERSUS PROBLEM	660
14.3 THE BOTTLENECK IS WHERE WIP ACCUMULATES	661
14.4 THE BOTTLENECK CAN MOVE	662
14.5 THE THEORY OF CONSTRAINTS	663
14.6 STEP 1 — IDENTIFY THE CONSTRAINT	663
14.7 BOTTLENECK INDICATORS IN SALES	664
<i>Persistent Queue</i>	664
<i>Long Waiting Time</i>	664
<i>High Utilization</i>	664
<i>Frequent Escalation</i>	664
<i>Aging</i>	664
<i>Downstream Starvation</i>	664
<i>Upstream Overproduction</i>	664
14.8 EXAMPLE: THE TECHNICAL SPECIALIST BOTTLENECK	665
14.9 STEP 2 — EXPLOIT THE CONSTRAINT	666
14.10 QUALITY AT THE CONSTRAINT	666
14.11 STEP 3 — SUBORDINATE EVERYTHING ELSE	667
14.12 SUBORDINATION DOES NOT MEAN DOING NOTHING	668
14.13 STEP 4 — ELEVATE THE CONSTRAINT	668
14.14 STEP 5 — REPEAT	669
14.15 MARKETING BOTTLENECKS	669
14.16 THE MARKETING APPROVAL BOTTLENECK	670
14.17 THE CONTENT BOTTLENECK	671
14.18 CUSTOMER ATTENTION CAN BE THE BOTTLENECK	672
14.19 THE CUSTOMER DECISION BOTTLENECK	672
14.20 THE INFORMATION BOTTLENECK	673
14.21 THE DECISION BOTTLENECK	674
14.22 DELEGATION AS CAPACITY EXPANSION	675
14.23 BOTTLENECKS AND REVENUE	675
14.24 A DANGEROUS MANAGEMENT PATTERN	676
14.25 BOTTLENECK PROTECTION	677

<i>Priority Rules</i>	677
<i>Complete Inputs</i>	677
<i>Reduced Interruptions</i>	677
<i>Standard Work</i>	677
<i>Buffer</i>	678
<i>Quality Gate</i>	678
<i>Escalation</i>	678
14.26 DRUM-BUFFER-ROPE IN SALES.....	678
<i>Drum</i>	678
<i>Buffer</i>	678
<i>Rope</i>	678
14.27 BUFFER SIZE MATTERS.....	679
14.28 BOTTLENECKS AND VARIABILITY.....	679
14.29 BOTTLENECKS AND BATCH SIZE.....	680
14.30 BOTTLENECK SHIFTING THROUGH AUTOMATION.....	681
14.31 BOTTLENECKS AND AI.....	681
14.32 BOTTLENECK VERSUS CAPACITY SHORTAGE.....	682
14.33 BOTTLENECK ECONOMICS.....	683
<i>Option A</i>	683
<i>Option B</i>	683
14.34 CONSTRAINT COST IS MORE THAN LOST SALES.....	683
14.35 BOTTLENECKS AND EMPLOYEE BURNOUT.....	684
14.36 THE "HERO" BOTTLENECK.....	685
14.37 BOTTLENECKS AND STANDARD WORK.....	686
14.38 BOTTLENECKS AND POKA-YOKE.....	686
14.39 BOTTLENECKS AND CUSTOMER EXPERIENCE.....	687
14.40 BOTTLENECK IDENTIFICATION AT GEMBA.....	687
14.41 THE BOTTLENECK WALK.....	688
14.42 BOTTLENECK HEAT MAPS.....	689
14.43 BOTTLENECK METRICS.....	689
<i>Queue Length</i>	690
<i>Queue Age</i>	690
<i>Effective Capacity</i>	690
<i>Arrival Rate</i>	690
<i>Utilization</i>	690
<i>Throughput</i>	690
<i>Rework Rate</i>	690
<i>Constraint Availability</i>	690
<i>Blocked Time</i>	690
14.44 BOTTLENECK MANAGEMENT MEETING.....	691
14.45 A COMPLETE EXAMPLE.....	691
14.46 WHAT IF DEMAND IS THE BOTTLENECK?.....	692
14.47 THE DEMAND-GENERATION BOTTLENECK.....	693
14.48 BOTTLENECK MIGRATION THROUGH THE CUSTOMER JOURNEY.....	693
14.49 A SYSTEMS-LEVEL EXAMPLE.....	693
14.50 THE BOTTLENECK IS THE GOVERNOR OF THE SYSTEM.....	693
14.51 BOTTLENECK AND WIP CONTROL.....	693

14.52 BOTTLENECK AND LEAD TIME.....	693
14.53 BOTTLENECK AND FLOW EFFICIENCY.....	693
14.54 THE BOTTLENECK IMPROVEMENT PRIORITY MATRIX.....	693
14.55 WHEN TO ADD CAPACITY.....	693
14.56 BOTTLENECK IMPROVEMENT AND KAIZEN.....	693
14.57 WHY IMPROVING THE CONSTRAINT HAS LEVERAGE.....	693
14.58 BOTTLENECKS AND MANAGEMENT ATTENTION.....	693
14.59 THE BOTTLENECK IS NOT ALWAYS PERMANENT.....	693
14.60 THE ULTIMATE BOTTLENECK: CUSTOMER VALUE.....	693
14.61 THE LEAN BOTTLENECK MANAGEMENT MODEL.....	693
1. Observe.....	693
2. Measure.....	693
3. Identify.....	693
4. Protect.....	693
5. Exploit.....	693
6. Synchronize.....	693
7. Elevate.....	693
8. Reassess.....	693
9. Standardize.....	693
10. Repeat.....	693
14.62 INTEGRATING BOTTLENECKS INTO L-MSO.....	693
Define Value.....	693
Map the Value Stream.....	693
Eliminate Waste.....	693
Identify Bottlenecks.....	693
Establish Flow.....	693
Control WIP.....	693
Reduce Lead Time.....	693
Standardize the Work.....	693
Measure Performance.....	693
Improve Continuously.....	693
14.63 A PRACTICAL BOTTLENECK AUDIT.....	693
14.64 BOTTLENECK MANAGEMENT MATURITY.....	693
LEVEL 1 — BOTTLENECKS ARE BLAMED ON PEOPLE.....	693
LEVEL 2 — BOTTLENECKS ARE OBSERVED.....	693
LEVEL 3 — BOTTLENECKS ARE MEASURED.....	693
LEVEL 4 — BOTTLENECKS ARE MANAGED.....	693
LEVEL 5 — BOTTLENECKS DRIVE CONTINUOUS IMPROVEMENT.....	693
14.65 CHAPTER SUMMARY.....	693
KEY TAKEAWAYS.....	693
CLOSING THOUGHT.....	693
CHAPTER 15 — POKA-YOKE FOR SALES AND MARKETING.....	693
CHAPTER 15 — POKA-YOKE FOR SALES AND MARKETING.....	693
INTRODUCTION.....	693
15.1 POKA-YOKE IS MORE THAN CHECKING.....	693
Detection.....	693
Prevention.....	693
15.2 WHY SALES AND MARKETING NEED POKA-YOKE.....	693
15.3 HUMAN ERROR IS NOT THE SAME AS HUMAN FAILURE.....	693

15.4 THE DEFECT CASCADE.....	693
15.5 QUALITY AT SOURCE.....	693
15.6 THE THREE LEVELS OF POKA-YOKE.....	693
LEVEL 1 — WARNING.....	693
LEVEL 2 — DETECTION AND ESCALATION.....	693
LEVEL 3 — PREVENTION.....	693
15.7 NOT EVERY ERROR SHOULD BE PREVENTED THE SAME WAY.....	693
<i>Error A</i>	693
<i>Error B</i>	693
<i>Error C</i>	693
15.8 POKA-YOKE IN LEAD CAPTURE.....	693
15.9 AVOIDING THE "MANDATORY FIELD TRAP"	693
15.10 POKA-YOKE FOR LEAD QUALIFICATION.....	693
15.11 POKA-YOKE FOR LEAD ROUTING.....	693
15.12 POKA-YOKE FOR DUPLICATE LEADS.....	693
15.13 POKA-YOKE FOR SALES DISCOVERY.....	693
15.14 POKA-YOKE FOR TECHNICAL REQUESTS.....	693
15.15 POKA-YOKE FOR PROPOSAL CREATION.....	693
15.16 PREVENTING COPY-PASTE DEFECTS.....	693
15.17 POKA-YOKE FOR PRICING.....	693
15.18 POKA-YOKE FOR CURRENCY.....	693
15.19 POKA-YOKE FOR DISCOUNT APPROVAL.....	693
15.20 POKA-YOKE FOR PROPOSAL COMPLETENESS.....	693
15.21 POKA-YOKE FOR CONTRACT HANDOFF.....	693
15.22 THE PROMISE-CONTROL PROBLEM.....	693
15.23 POKA-YOKE FOR CAMPAIGN CLAIMS.....	693
15.24 RISK-BASED APPROVAL.....	693
<i>Low Risk</i>	693
<i>Medium Risk</i>	693
<i>High Risk</i>	693
15.25 POKA-YOKE AND EMAIL MARKETING.....	693
15.26 POKA-YOKE FOR CUSTOMER COMMUNICATION.....	693
15.27 POKA-YOKE FOR FOLLOW-UP.....	693
15.28 POKA-YOKE FOR STALE OPPORTUNITIES.....	693
15.29 POKA-YOKE AND SALES STAGE MOVEMENT.....	693
<i>Move to Proposal only if:</i>	693
<i>Move to Negotiation only if:</i>	693
<i>Move to Closed Won only if:</i>	693
15.30 THE DANGER OF OVER-POKA-YOKE.....	693
15.31 POKA-YOKE AND FLOW.....	693
15.32 POKA-YOKE AND BOTTLENECKS.....	693
15.33 POKA-YOKE AND WIP.....	693
15.34 POKA-YOKE AND LEAD TIME.....	693
15.35 THE COST OF A COMMERCIAL DEFECT.....	693

15.36 POKA-YOKE IN CUSTOMER ONBOARDING.....	693
15.37 THE ONE-TIME-DATA PRINCIPLE.....	693
15.38 THE CUSTOMER SHOULD NOT BECOME THE INTEGRATION LAYER.....	693
15.39 POKA-YOKE FOR INTERNAL HANDOFFS.....	693
15.40 ERROR-PROOFING THE HANDOFF.....	693
<i>Required Information</i>	693
<i>Validation</i>	693
<i>Ownership</i>	693
<i>Exception Handling</i>	693
<i>Confirmation</i>	693
15.41 POKA-YOKE AND STANDARD WORK.....	693
15.42 POKA-YOKE AND VISUAL MANAGEMENT.....	693
15.43 POKA-YOKE AND ANDON THINKING.....	693
15.44 DESIGNING POKA-YOKE THROUGH 5 WHYS.....	693
<i>Why was the price wrong?</i>	693
<i>Why was an outdated price list used?</i>	693
<i>Why did the old file still exist?</i>	693
<i>Why was information distributed manually?</i>	693
<i>Why was there no controlled source?</i>	693
15.45 FROM HUMAN REMINDER TO SYSTEM DESIGN.....	693
<i>Weak Countermeasure</i>	693
<i>Better Countermeasure</i>	693
<i>Stronger Countermeasure</i>	693
<i>Strongest Appropriate Countermeasure</i>	693
15.46 POKA-YOKE AND AI.....	693
15.47 AI OUTPUT VERIFICATION.....	693
15.48 AI AND HALLUCINATION AS A COMMERCIAL DEFECT.....	693
15.49 A POKA-YOKE ARCHITECTURE FOR LEAN MARKETING AND SALES.....	693
<i>Layer 1 — Prevention</i>	693
<i>Layer 2 — Detection</i>	693
<i>Layer 3 — Containment</i>	693
<i>Layer 4 — Escalation</i>	693
<i>Layer 5 — Learning</i>	693
15.50 THE POKA-YOKE DESIGN METHOD.....	693
STEP 1 — IDENTIFY RECURRING DEFECTS.....	693
STEP 2 — MEASURE FREQUENCY.....	693
STEP 3 — MEASURE CONSEQUENCE.....	693
STEP 4 — FIND THE POINT OF ORIGIN.....	693
STEP 5 — IDENTIFY THE FAILURE MECHANISM.....	693
STEP 6 — DESIGN PREVENTION.....	693
STEP 7 — DESIGN DETECTION.....	693
STEP 8 — CONTAIN THE DEFECT.....	693
STEP 9 — TEST.....	693
STEP 10 — STANDARDIZE.....	693
STEP 11 — MONITOR.....	693
STEP 12 — IMPROVE.....	693
15.51 A FULL EXAMPLE: PROPOSAL DEFECT REDUCTION.....	693
<i>Pricing</i>	693
<i>Specifications</i>	693
<i>Customer Information</i>	693
<i>Terms</i>	693

<i>Final Release</i>	693
15.52 DO NOT AUTOMATE THE WRONG CONTROL	693
15.53 POKA-YOKE AND THE DIGITAL LEAN PRINCIPLE	693
15.54 POKA-YOKE DOES NOT MEAN ZERO HUMAN JUDGMENT	693
15.55 POKA-YOKE AND CREATIVITY	693
15.56 THE ECONOMICS OF PREVENTION	693
15.57 FALSE POSITIVES ARE ALSO WASTE	693
15.58 POKA-YOKE AND CUSTOMER EFFORT	693
15.59 POKA-YOKE AND CUSTOMER TRUST	693
15.60 POKA-YOKE AS A LEARNING SYSTEM	693
15.61 POKA-YOKE AND KAIZEN	693
15.62 POKA-YOKE AND A3 PROBLEM SOLVING	693
<i>Background</i>	693
<i>Current Condition</i>	693
<i>Target</i>	693
<i>Root Cause</i>	693
<i>Countermeasures</i>	693
<i>Results</i>	693
<i>Standardization</i>	693
15.63 A POKA-YOKE MATURITY MODEL	693
LEVEL 1 — HUMAN MEMORY.....	693
LEVEL 2 — CHECKLIST.....	693
LEVEL 3 — WARNING.....	693
LEVEL 4 — CONTROLLED WORKFLOW.....	693
LEVEL 5 — PREVENTION.....	693
LEVEL 6 — LEARNING SYSTEM.....	693
15.64 A POKA-YOKE CHECKLIST FOR MARKETING AND SALES	693
15.65 INTEGRATING POKA-YOKE INTO THE L-MSO FRAMEWORK	693
<i>Define Value</i>	693
<i>Map the Value Stream</i>	693
<i>Eliminate Waste</i>	693
<i>Identify Bottlenecks</i>	693
<i>Establish Flow</i>	693
<i>Control WIP</i>	693
<i>Reduce Lead Time</i>	693
<i>Standardize the Work</i>	693
<i>Measure Performance</i>	693
<i>Improve Continuously</i>	693
15.66 THE DEEPER PRINCIPLE	693
15.67 CHAPTER SUMMARY	693
KEY TAKEAWAYS	693
CLOSING THOUGHT.....	693
PART V — CUSTOMER-CENTERED LEAN	693
CHAPTER 16 — LEAN CUSTOMER EXPERIENCE.....	693
CHAPTER 16 — LEAN CUSTOMER EXPERIENCE	693
INTRODUCTION.....	693
16.1 WHAT IS LEAN CUSTOMER EXPERIENCE?	693
16.2 SATISFACTION IS AN OUTCOME, NOT A PROCESS	693

16.3 CUSTOMER VALUE REVISITED.....	693
16.4 CUSTOMER EFFORT AS A LEAN VARIABLE.....	693
16.5 CUSTOMER EFFORT IS OFTEN HIDDEN.....	693
16.6 THE CUSTOMER JOURNEY AS A VALUE STREAM.....	693
16.7 CUSTOMER JOURNEY VERSUS CUSTOMER VALUE STREAM.....	693
<i>Customer sees:</i>	693
<i>Internal VSM reveals:</i>	693
16.8 THE FIVE QUESTIONS OF LEAN CX.....	693
1. <i>What does the customer need?</i>	693
2. <i>What effort must the customer expend?</i>	693
3. <i>Where does the customer wait?</i>	693
4. <i>Where does the customer experience failure or repetition?</i>	693
5. <i>What prevents the customer from reaching value?</i>	693
16.9 CUSTOMER WAITING.....	693
16.10 NECESSARY WAITING VERSUS WASTEFUL WAITING.....	693
16.11 CUSTOMER WAITING AS A PROMISE GAP.....	693
16.12 CUSTOMER EFFORT AND TRUST.....	693
16.13 THE "TELL US ONCE" PRINCIPLE.....	693
16.14 INFORMATION DEFECTS.....	693
16.15 CUSTOMER EXPERIENCE AND FIRST-TIME-RIGHT.....	693
16.16 CUSTOMER-FACING DEFECTS.....	693
<i>Type 1 — Invisible Internal Defect</i>	693
<i>Type 2 — Customer-Detected Defect</i>	693
<i>Type 3 — Customer-Impacting Failure</i>	693
16.17 CUSTOMER JOURNEY FRICTION.....	693
16.18 NECESSARY FRICTION.....	693
16.19 CUSTOMER JOURNEY HANDOFFS.....	693
16.20 THE INTERNAL HANDOFF SHOULD BE INVISIBLE.....	693
16.21 CUSTOMER JOURNEY OWNERSHIP.....	693
16.22 CUSTOMER EXPERIENCE AS A FLOW PROBLEM.....	693
16.23 THE CUSTOMER JOURNEY GEMBA.....	693
16.24 LISTENING TO THE CUSTOMER IS NOT ENOUGH.....	693
16.25 THE VOICE OF THE CUSTOMER AND THE VOICE OF THE PROCESS.....	693
<i>Voice of the Customer</i>	693
<i>Voice of the Process</i>	693
16.26 CUSTOMER COMPLAINTS AS DATA.....	693
16.27 THE COMPLAINT-TO-KAIZEN LOOP.....	693
16.28 CUSTOMER EFFORT MAPPING.....	693
16.29 CUSTOMER EFFORT VERSUS INTERNAL EFFORT.....	693
16.30 THE PRINCIPLE OF WORK TRANSFER.....	693
16.31 CUSTOMER SELF-SERVICE: LEAN OR WASTE?.....	693
16.32 DIGITAL CUSTOMER EXPERIENCE.....	693
<i>Motion</i>	693
<i>Waiting</i>	693
<i>Overprocessing</i>	693

<i>Defects</i>	693
<i>Transportation</i>	693
<i>Inventory</i>	693
<i>Overproduction</i>	693
16.33 OMNICHANNEL FRAGMENTATION.....	693
16.34 CHANNEL SWITCHING AS WASTE.....	693
16.35 DESIGNING A LEAN OMNICHANNEL JOURNEY.....	693
16.36 CUSTOMER EXPERIENCE AND PULL.....	693
16.37 PERSONALIZATION: VALUE OR OVERPROCESSING?.....	693
16.38 CUSTOMER CHOICE AND COMPLEXITY.....	693
16.39 CUSTOMER DECISION FLOW.....	693
16.40 REDUCING UNCERTAINTY.....	693
16.41 CUSTOMER EXPERIENCE AND ERROR RECOVERY.....	693
16.42 SERVICE RECOVERY AS FLOW.....	693
16.43 CUSTOMER EXPERIENCE AND WIP.....	693
16.44 CUSTOMER WIP EXAMPLE.....	693
16.45 ONE-STOP RESOLUTION.....	693
16.46 CUSTOMER EXPERIENCE AND FLOW EFFICIENCY.....	693
16.47 CUSTOMER JOURNEY LEAD TIME.....	693
16.48 TIME TO VALUE.....	693
16.49 ACQUISITION IS NOT THE FINISH LINE.....	693
16.50 LEAN CX AND RETENTION.....	693
16.51 CUSTOMER EXPERIENCE AND COST.....	693
16.52 THE LEAN CONTACT PRINCIPLE.....	693
16.53 DEMAND MANAGEMENT IN CUSTOMER SERVICE.....	693
16.54 CUSTOMER JOURNEY POKA-YOKE.....	693
16.55 CUSTOMER-FACING POKA-YOKE MUST BE GENTLE.....	693
16.56 LEAN CX AND STANDARD WORK.....	693
16.57 STANDARDIZE THE BACKBONE, PERSONALIZE THE INTERACTION.....	693
16.58 LEAN CX AND EMPLOYEES.....	693
16.59 ELIMINATE THE NEED FOR HEROES.....	693
16.60 THE CUSTOMER EXPERIENCE CONTROL LOOP.....	693
16.61 A FULL LEAN CX EXAMPLE.....	693
<i>Countermeasure 1</i>	693
<i>Countermeasure 2</i>	693
<i>Countermeasure 3</i>	693
<i>Countermeasure 4</i>	693
<i>Countermeasure 5</i>	693
16.62 MEASURING LEAN CUSTOMER EXPERIENCE.....	693
<i>Customer Outcome Metrics</i>	693
<i>Flow Metrics</i>	693
<i>Effort Metrics</i>	693
<i>Quality Metrics</i>	693
<i>WIP Metrics</i>	693
16.63 FROM SATISFACTION TO FRICTION.....	693

16.64 FROM COMPLAINTS TO PROCESS SIGNALS.....	693
<i>What happened?.....</i>	693
<i>Why did it happen?.....</i>	693
<i>How do we prevent recurrence?.....</i>	693
16.65 LEAN CX AND THE ECONOMICS OF LIFETIME VALUE.....	693
16.66 CUSTOMER EXPERIENCE IS A SYSTEM PROPERTY.....	693
16.67 THE LEAN CUSTOMER EXPERIENCE OPERATING MODEL.....	693
1. <i>Define Customer Value.....</i>	693
2. <i>Map the Customer Journey.....</i>	693
3. <i>Map the Internal Value Stream.....</i>	693
4. <i>Measure Customer Effort.....</i>	693
5. <i>Identify Waste and Defects.....</i>	693
6. <i>Identify Constraints.....</i>	693
7. <i>Error-Proof and Standardize.....</i>	693
8. <i>Continuously Improve.....</i>	693
16.68 INTEGRATING LEAN CX INTO L-MSO.....	693
<i>Define Value.....</i>	693
<i>Map the Value Stream.....</i>	693
<i>Eliminate Waste.....</i>	693
<i>Identify Bottlenecks.....</i>	693
<i>Establish Flow.....</i>	693
<i>Control WIP.....</i>	693
<i>Reduce Lead Time.....</i>	693
<i>Standardize the Work.....</i>	693
<i>Measure Performance.....</i>	693
<i>Improve Continuously.....</i>	693
16.69 CHAPTER SUMMARY.....	693
KEY TAKEAWAYS.....	693
CLOSING THOUGHT.....	693
CHAPTER 17 — VOICE OF THE CUSTOMER AND CONTINUOUS IMPROVEMENT.....	693
CHAPTER 17 — VOICE OF THE CUSTOMER AND CONTINUOUS IMPROVEMENT. .693	
INTRODUCTION.....	693
17.1 WHAT IS THE VOICE OF THE CUSTOMER?.....	693
EXPLICIT VOC.....	693
IMPLICIT VOC.....	693
17.2 VOC IS NOT THE SAME AS CUSTOMER REQUESTS.....	693
17.3 WHAT CUSTOMERS SAY VERSUS WHAT CUSTOMERS NEED.....	693
17.4 THE FIVE LAYERS OF CUSTOMER UNDERSTANDING.....	693
<i>Layer 1 — Statement.....</i>	693
<i>Layer 2 — Situation.....</i>	693
<i>Layer 3 — Behavior.....</i>	693
<i>Layer 4 — Need.....</i>	693
<i>Layer 5 — Root Cause.....</i>	693
17.5 VOC AS A LEAN INPUT.....	693
17.6 THE CUSTOMER IS PART OF THE VALUE STREAM.....	693
17.7 OPEN-LOOP VERSUS CLOSED-LOOP ORGANIZATIONS.....	693
17.8 WHY SURVEYS ALONE ARE NOT ENOUGH.....	693
17.9 THE VOC DATA ECOSYSTEM.....	693
<i>Direct.....</i>	693

<i>Operational</i>	693
<i>Behavioral</i>	693
<i>Commercial</i>	693
<i>Frontline</i>	693
17.10 THE FRONTLINE AS A VOC SENSOR.....	693
17.11 STANDARDIZING VOC CAPTURE.....	693
17.12 THE DANGER OF "PRICE" AS A LOST-SALE REASON.....	693
17.13 VOC AND THE FIVE WHYS.....	693
<i>Why?</i>	693
<i>Why?</i>	693
<i>Why?</i>	693
<i>Why?</i>	693
<i>Why?</i>	693
17.14 VOC AND GEMBA.....	693
17.15 VOC AND VALUE STREAM MAPPING.....	693
<i>Customer Complaint</i>	693
17.16 VOC AND CUSTOMER JOURNEY MAPPING.....	693
17.17 TRANSLATING VOC INTO CTQS.....	693
17.18 FROM VOICE TO REQUIREMENT.....	693
17.19 VOC AND KANO THINKING.....	693
<i>Basic Needs</i>	693
<i>Performance Needs</i>	693
<i>Exciters</i>	693
17.20 DO NOT IMPROVE THE WRONG THING.....	693
17.21 VOC AND FIRST-TIME-RIGHT.....	693
17.22 VOC AND CUSTOMER EFFORT.....	693
17.23 THE EFFORT SIGNAL.....	693
<i>Customer A</i>	693
<i>Customer B</i>	693
17.24 VOC AND HIDDEN DISSATISFACTION.....	693
17.25 LOST CUSTOMERS AS VOC.....	693
17.26 LOST DEALS AS LEARNING.....	693
17.27 THE PARETO OF CUSTOMER PROBLEMS.....	693
17.28 FROM COMPLAINT COUNT TO ROOT CAUSE COUNT.....	693
17.29 VOC AND A3.....	693
<i>Background</i>	693
<i>Current Condition</i>	693
<i>Customer Requirement</i>	693
<i>Root Cause</i>	693
<i>Countermeasures</i>	693
<i>Results</i>	693
<i>Standardization</i>	693
17.30 VOC AND KAIZEN.....	693
<i>Customer Pain</i>	693
<i>Improvement</i>	693
<i>Customer Pain</i>	693
<i>Improvement</i>	693
<i>Customer Pain</i>	693

<i>Improvement</i>	693
<i>Customer Pain</i>	693
<i>Improvement</i>	693
17.31 THE KAIZEN BACKLOG SHOULD NOT BECOME WIP.....	693
17.32 CUSTOMER VOICE AND PRIORITIZATION.....	693
17.33 VOC AND THE COST OF POOR QUALITY.....	693
<i>Prevention</i>	693
<i>Appraisal</i>	693
<i>Internal Failure</i>	693
<i>External Failure</i>	693
17.34 CUSTOMER FEEDBACK AS AN EARLY WARNING SYSTEM.....	693
17.35 TREND ANALYSIS.....	693
17.36 VOC AND SEGMENTATION.....	693
<i>Enterprise Customer</i>	693
<i>Small Customer</i>	693
17.37 DO NOT LET THE LOUDEST CUSTOMER DEFINE THE SYSTEM.....	693
17.38 VOC AND STANDARDIZATION.....	693
17.39 VOC AND POKA-YOKE.....	693
17.40 VOC AND BOTTLENECKS.....	693
17.41 THE CUSTOMER AS A SENSOR.....	693
17.42 VOC AND GEMBA TOGETHER.....	693
17.43 THE CLOSED-LOOP VOC SYSTEM.....	693
1. <i>Capture</i>	693
2. <i>Classify</i>	693
3. <i>Quantify</i>	693
4. <i>Observe</i>	693
5. <i>Analyze</i>	693
6. <i>Prioritize</i>	693
7. <i>Improve</i>	693
8. <i>Standardize</i>	693
9. <i>Verify</i>	693
10. <i>Listen Again</i>	693
17.44 THE IMPORTANCE OF CLOSING THE LOOP.....	693
17.45 VOC AND EMPLOYEE ENGAGEMENT.....	693
17.46 THE CUSTOMER FEEDBACK GEMBA BOARD.....	693
<i>Top Customer Problems</i>	693
<i>Current Countermeasures</i>	693
<i>Owner</i>	693
<i>Status</i>	693
<i>Result</i>	693
17.47 METRICS FOR VOC.....	693
<i>Volume</i>	693
<i>Frequency</i>	693
<i>Severity</i>	693
<i>Response Time</i>	693
<i>Resolution Time</i>	693
<i>Recurrence</i>	693
<i>Customer Effort</i>	693
<i>First-Time-Right</i>	693
<i>Root-Cause Closure</i>	693

17.48 TICKET CLOSURE IS NOT PROBLEM SOLVING.....	693
17.49 FROM REACTIVE SERVICE TO PREVENTIVE IMPROVEMENT.....	693
17.50 VOC AND THE L-MSO OPERATING SYSTEM.....	693
<i>Define Value</i>	693
<i>Map the Value Stream</i>	693
<i>Eliminate Waste</i>	693
<i>Identify Bottlenecks</i>	693
<i>Establish Flow</i>	693
<i>Control WIP</i>	693
<i>Reduce Lead Time</i>	693
<i>Standardize the Work</i>	693
<i>Measure Performance</i>	693
<i>Improve Continuously</i>	693
17.51 BUILDING A PRACTICAL VOC PROGRAM.....	693
STEP 1 — DEFINE WHAT YOU NEED TO LEARN.....	693
STEP 2 — SELECT MULTIPLE SOURCES.....	693
STEP 3 — CREATE A COMMON CLASSIFICATION.....	693
STEP 4 — QUANTIFY.....	693
STEP 5 — CONNECT FEEDBACK TO PROCESSES.....	693
STEP 6 — LAUNCH IMPROVEMENT.....	693
STEP 7 — VERIFY.....	693
17.52 AVOIDING VOC BUREAUCRACY.....	693
17.53 THE FEEDBACK-TO-ACTION RATIO.....	693
17.54 VOC AND EXPERIMENTATION.....	693
17.55 VOC AND SCIENTIFIC THINKING.....	693
17.56 VOC AND CONTINUOUS IMPROVEMENT.....	693
17.57 THE THREE-LEGGED IMPROVEMENT MODEL.....	693
<i>Customer Voice</i>	693
<i>Process Data</i>	693
<i>Employee Knowledge</i>	693
17.58 VOC AND MANAGEMENT BEHAVIOR.....	693
17.59 CUSTOMER VOICE AND RESPECT FOR PEOPLE.....	693
17.60 THE DEEPER PRINCIPLE.....	693
17.61 FROM VOC TO A LEARNING ORGANIZATION.....	693
17.62 VOC MATURITY MODEL.....	693
LEVEL 1 — FEEDBACK COLLECTION.....	693
LEVEL 2 — FEEDBACK REPORTING.....	693
LEVEL 3 — FEEDBACK ANALYSIS.....	693
LEVEL 4 — FEEDBACK-DRIVEN IMPROVEMENT.....	693
LEVEL 5 — CLOSED-LOOP LEARNING.....	693

KEY TAKEAWAYS.....	693
CLOSING THOUGHT.....	693
CHAPTER 18 — DESIGNING THE LEAN MARKETING & SALES OPERATING SYSTEM.....	693
CHAPTER 18 — DESIGNING THE LEAN MARKETING & SALES OPERATING SYSTEM	693
INTRODUCTION.....	693
18.1 FROM LEAN TOOLS TO A LEAN OPERATING SYSTEM.....	693

18.2 THE L-MSO FRAMEWORK.....	693
1. Define Value.....	693
2. Map the Value Stream.....	693
3. Eliminate Waste.....	693
4. Identify Bottlenecks.....	693
5. Establish Flow.....	693
6. Control WIP.....	693
7. Reduce Lead Time.....	693
8. Standardize the Work.....	693
9. Measure Performance.....	693
10. Improve Continuously.....	693
18.3 THE ARCHITECTURE OF L-MSO.....	693
Flow.....	693
Control.....	693
18.4 THE CUSTOMER IS THE STARTING POINT.....	693
18.5 DEMAND IS NOT THE SAME AS ACTIVITY.....	693
Activity.....	693
Demand.....	693
Qualified Demand.....	693
18.6 QUALITY AT THE BEGINNING OF THE VALUE STREAM.....	693
18.7 THE END-TO-END VALUE STREAM.....	693
18.8 FUNCTIONAL BOUNDARIES VERSUS VALUE-STREAM BOUNDARIES.....	693
18.9 VALUE-STREAM OWNERSHIP.....	693
18.10 THE DAILY MANAGEMENT SYSTEM.....	693
Demand.....	693
Flow.....	693
WIP.....	693
Aging.....	693
Bottlenecks.....	693
Quality.....	693
Customer.....	693
Improvement.....	693
18.11 MANAGING BY FLOW, NOT BY ACTIVITY.....	693
18.12 THE L-MSO METRIC ARCHITECTURE.....	693
LEVEL 1 — CUSTOMER METRICS.....	693
LEVEL 2 — OUTCOME METRICS.....	693
LEVEL 3 — FLOW METRICS.....	693
LEVEL 4 — QUALITY METRICS.....	693
LEVEL 5 — IMPROVEMENT METRICS.....	693
18.13 DO NOT OPTIMIZE METRICS INDEPENDENTLY.....	693
18.14 THE BALANCED FLOW SCORECARD.....	693
Customer.....	693
Flow.....	693
Quality.....	693
Capacity.....	693
Financial.....	693
Learning.....	693
18.15 VISUAL MANAGEMENT.....	693
18.16 ABNORMALITY MANAGEMENT.....	693
Normal Condition.....	693
Abnormal Condition.....	693

18.17 KANBAN AS THE FLOW-CONTROL LAYER.....	693
18.18 WIP LIMITS AS CAPACITY PROTECTION.....	693
18.19 BOTTLENECK MANAGEMENT.....	693
18.20 STANDARD WORK AS THE STABILITY LAYER.....	693
18.21 POKA-YOKE AS THE QUALITY LAYER.....	693
18.22 VOC AS THE SENSING LAYER.....	693
18.23 CUSTOMER EXPERIENCE AS THE OUTCOME LAYER.....	693
18.24 THE IMPROVEMENT ENGINE.....	693
18.25 A3 AS THE PROBLEM-SOLVING MECHANISM.....	693
18.26 THE L-MSO MEETING ARCHITECTURE.....	693
<i>Daily Flow Review</i>	693
<i>Weekly Value-Stream Review</i>	693
<i>Monthly Improvement Review</i>	693
<i>Quarterly System Review</i>	693
18.27 THE MEETING WASTE PROBLEM.....	693
18.28 DECISION LEAD TIME.....	693
18.29 DELEGATION AND DECISION RIGHTS.....	693
18.30 DIGITAL SYSTEMS AS PART OF THE VALUE STREAM.....	693
18.31 THE DIGITAL SPAGHETTI PROBLEM.....	693
18.32 AUTOMATION: THE CORRECT SEQUENCE.....	693
18.33 AI IN THE L-MSO OPERATING SYSTEM.....	693
18.34 AI REQUIRES STANDARD WORK.....	693
18.35 THE HUMAN ROLE IN L-MSO.....	693
18.36 RESPECT FOR PEOPLE.....	693
18.37 CAPACITY MANAGEMENT.....	693
<i>Demand Capacity</i>	693
<i>Processing Capacity</i>	693
<i>Bottleneck Capacity</i>	693
<i>Management Capacity</i>	693
18.38 IMPROVEMENT WIP.....	693
18.39 THE IMPROVEMENT PORTFOLIO.....	693
<i>Immediate</i>	693
<i>Kaizen</i>	693
<i>A3</i>	693
<i>System Redesign</i>	693
<i>Strategic</i>	693
18.40 ECONOMICS OF THE L-MSO SYSTEM.....	693
18.41 A SIMPLE ECONOMIC EXAMPLE.....	693
18.42 GROWTH WITHOUT FLOW CAN DESTROY PERFORMANCE.....	693
18.43 THE GROWTH GATE.....	693
18.44 DESIGNING THE FUTURE STATE.....	693
<i>Demand</i>	693
<i>Flow</i>	693
<i>WIP</i>	693
<i>Bottleneck</i>	693
<i>Quality</i>	693

<i>Technology</i>	693
<i>Metrics</i>	693
<i>Improvement</i>	693
18.45 THE L-MSO DAILY CONTROL LOOP.....	693
18.46 THE L-MSO WEEKLY IMPROVEMENT LOOP.....	693
18.47 A COMPLETE L-MSO EXAMPLE.....	693
L-MSO DIAGNOSIS.....	693
<i>Step 1 — Define Value</i>	693
<i>Step 2 — Map the Value Stream</i>	693
<i>Step 3 — Eliminate Waste</i>	693
<i>Step 4 — Control WIP</i>	693
<i>Step 5 — Standardize</i>	693
<i>Step 6 — Poka-Yoke</i>	693
<i>Step 7 — Improve Flow</i>	693
<i>Step 8 — Manage the Bottleneck</i>	693
<i>Step 9 — Measure</i>	693
<i>Step 10 — Improve Continuously</i>	693
18.48 THE TRANSFORMATION SEQUENCE.....	693
PHASE 1 — UNDERSTAND.....	693
PHASE 2 — STABILIZE.....	693
PHASE 3 — CONTROL FLOW.....	693
PHASE 4 — IMPROVE.....	693
PHASE 5 — INTEGRATE.....	693
PHASE 6 — DIGITIZE.....	693
PHASE 7 — INSTITUTIONALIZE.....	693
18.49 DO NOT START WITH TECHNOLOGY.....	693
18.50 THE LEAN TECHNOLOGY RULE.....	693
18.51 ORGANIZATIONAL STRUCTURE.....	693
18.52 CROSS-FUNCTIONAL FLOW TEAMS.....	693
18.53 MANAGEMENT AS SYSTEM DESIGN.....	693
18.54 LEADERSHIP QUESTIONS.....	693
18.55 THE STOP-STARTING PRINCIPLE.....	693
18.56 THE L-MSO MATURITY MODEL.....	693
STAGE 1 — ACTIVITY DRIVEN.....	693
STAGE 2 — PROCESS VISIBILITY.....	693
STAGE 3 — FLOW CONTROL.....	693
STAGE 4 — INTEGRATED LEAN SYSTEM.....	693
STAGE 5 — ADAPTIVE LEAN SYSTEM.....	693
18.57 WHAT L-MSO IS NOT.....	693
18.58 THE TEN CORE L-MSO QUESTIONS.....	693
1. <i>What is customer value?</i>	693
2. <i>What is our end-to-end value stream?</i>	693
3. <i>Where is waste?</i>	693
4. <i>Where is the bottleneck?</i>	693
5. <i>How much WIP exists?</i>	693
6. <i>How does work flow?</i>	693
7. <i>What is the Lead Time?</i>	693
8. <i>What work is standardized?</i>	693
9. <i>What metrics reveal the health of the system?</i>	693
10. <i>How does the system continuously improve?</i>	693

18.59 THE COMPLETE L-MSO MODEL.....	693
18.60 THE DEEPER PRINCIPLE: FLOW IS A MANAGEMENT RESPONSIBILITY.....	693
18.61 FROM INDIVIDUAL PRODUCTIVITY TO SYSTEM PRODUCTIVITY.....	693
18.62 FLOW EFFICIENCY AS A STRATEGIC METRIC.....	693
18.63 THE ULTIMATE L-MSO OBJECTIVE.....	693
18.64 A PRACTICAL L-MSO DEPLOYMENT CHECKLIST.....	693
<i>Customer</i>	693
<i>Value Stream</i>	693
<i>Flow</i>	693
<i>Bottlenecks</i>	693
<i>Quality</i>	693
<i>Standard Work</i>	693
<i>Management</i>	693
<i>Improvement</i>	693
<i>Technology</i>	693
18.65 FINAL PERSPECTIVE.....	693
CHAPTER SUMMARY.....	693
KEY TAKEAWAYS.....	693
CLOSING THOUGHT.....	693
CHAPTER 19 — LEAN METRICS FOR MARKETING AND SALES.....	693
INTRODUCTION.....	693
19.1 WHY METRICS MATTER IN LEAN.....	693
19.2 THE METRIC IS NOT THE PROCESS.....	693
19.3 OUTCOME METRICS VERSUS FLOW METRICS.....	693
<i>Outcome Metrics</i>	693
<i>Flow Metrics</i>	693
19.4 LEADING, FLOW, AND LAGGING INDICATORS.....	693
<i>Leading Indicators</i>	693
<i>Flow Indicators</i>	693
<i>Lagging Indicators</i>	693
19.5 THE FIVE LAYERS OF L-MSO METRICS.....	693
LAYER 1 — CUSTOMER.....	693
LAYER 2 — OUTCOME.....	693
LAYER 3 — FLOW.....	693
LAYER 4 — QUALITY.....	693
LAYER 5 — IMPROVEMENT.....	693
19.6 LAYER 1: CUSTOMER METRICS.....	693
19.7 CUSTOMER EFFORT.....	693
19.8 TIME TO VALUE.....	693
19.9 LAYER 2: OUTCOME METRICS.....	693
<i>Revenue</i>	693
<i>New Customers</i>	693
<i>Win Rate</i>	693
<i>Average Deal Value</i>	693
<i>Customer Acquisition Cost</i>	693
19.10 CONVERSION RATE NEEDS CONTEXT.....	693
19.11 LAYER 3: FLOW METRICS.....	693

19.12 THROUGHPUT.....	693
19.13 WIP.....	693
19.14 LITTLE'S LAW IN SALES.....	693
19.15 LEAD TIME.....	693
19.16 CYCLE TIME.....	693
19.17 TOUCH TIME.....	693
19.18 WAITING TIME.....	693
19.19 FLOW EFFICIENCY.....	693
19.20 AGING.....	693
19.21 AGING DISTRIBUTION.....	693
19.22 WHY AVERAGES CAN MISLEAD.....	693
19.23 PERCENTILES AND PREDICTABILITY.....	693
19.24 STAGE CYCLE TIME.....	693
19.25 QUEUE TIME BY STAGE.....	693
19.26 BOTTLENECK METRICS.....	693
19.27 BOTTLENECK UTILIZATION.....	693
19.28 QUALITY METRICS.....	693
CHAPTER 20 — KAIZEN, A3 AND PROBLEM SOLVING IN MARKETING & SALES..	693
INTRODUCTION.....	693
20.1 WHAT IS KAIZEN?.....	693
20.2 KAIZEN IS NOT RANDOM IMPROVEMENT.....	693
20.3 KAIZEN VERSUS FIREFIGHTING.....	693
<i>Firefighting</i>	693
<i>Kaizen</i>	693
20.4 CORRECTIVE ACTION VERSUS CONTINUOUS IMPROVEMENT.....	693
<i>Corrective Action</i>	693
<i>Improvement</i>	693
20.5 THE PDCA FOUNDATION.....	693
<i>Plan</i>	693
<i>Do</i>	693
<i>Check</i>	693
<i>Act</i>	693
20.6 WHY "PLAN" IS OFTEN SKIPPED.....	693
20.7 PROBLEM SOLVING BEGINS WITH THE CURRENT CONDITION.....	693
20.8 THE DIFFERENCE BETWEEN A PROBLEM AND A COMPLAINT.....	693
20.9 THE A3 THINKING METHOD.....	693
20.10 A3 IS A THINKING PROCESS.....	693
20.11 A3 BACKGROUND.....	693
20.12 PROBLEM STATEMENT.....	693
20.13 CURRENT CONDITION.....	693
20.14 TARGET CONDITION.....	693
20.15 ROOT CAUSE ANALYSIS.....	693
20.16 THE FIVE WHYS.....	693

<i>Problem</i>	693
<i>Why?</i>	693
<i>Why?</i>	693
<i>Why?</i>	693
<i>Why?</i>	693
<i>Why?</i>	693
20.17 FIVE WHYS IS NOT ALWAYS EXACTLY FIVE.....	693
20.18 ROOT CAUSE MUST BE VERIFIED.....	693
20.19 PARETO AND ROOT CAUSE ANALYSIS.....	693
20.20 COUNTERMEASURES VERSUS SOLUTIONS.....	693
20.21 COUNTERMEASURE HIERARCHY.....	693
<i>Eliminate</i>	693
<i>Simplify</i>	693
<i>Standardize</i>	693
<i>Prevent</i>	693
<i>Automate</i>	693
<i>Detect</i>	693
<i>Escalate</i>	693
20.22 AVOIDING THE TRAINING TRAP.....	693
20.23 STANDARD WORK AS A COUNTERMEASURE.....	693
20.24 POKA-YOKE AS A COUNTERMEASURE.....	693
20.25 BOTTLENECK REMOVAL AS A COUNTERMEASURE.....	693
20.26 WIP REDUCTION AS A COUNTERMEASURE.....	693
20.27 KAIZEN AND THE "STOP STARTING" PRINCIPLE.....	693
20.28 KAIZEN AND FLOW.....	693
20.29 KAIZEN AND CUSTOMER VALUE.....	693
20.30 SMALL KAIZEN VERSUS LARGE TRANSFORMATION.....	693
<i>Small Kaizen</i>	693
<i>Larger A3</i>	693
<i>Strategic Transformation</i>	693
20.31 THE KAIZEN FUNNEL.....	693
20.32 THE IMPROVEMENT BACKLOG.....	693
20.33 LIMIT IMPROVEMENT WIP.....	693
20.34 COST OF DELAY IN IMPROVEMENT.....	693
<i>Improvement A</i>	693
<i>Improvement B</i>	693
20.35 KAIZEN AND DAILY WORK.....	693
20.36 THE ROLE OF GEMBA.....	693
20.37 GO AND SEE.....	693
20.38 MANAGEMENT STANDARD WORK.....	693
20.39 DAILY PROBLEM SOLVING.....	693
20.40 CONTAINMENT VERSUS ROOT CAUSE.....	693
<i>Containment</i>	693
<i>Root-Cause Countermeasure</i>	693
20.41 THE ESCALATION RULE.....	693
<i>Local Problem</i>	693
<i>Cross-Functional Problem</i>	693

<i>Systemic Problem</i>	693
20.42 RECURRENCE IS A CRITICAL SIGNAL	693
20.43 FROM INCIDENT MANAGEMENT TO SYSTEM IMPROVEMENT	693
20.44 STANDARDIZATION AFTER IMPROVEMENT	693
20.45 STANDARDIZATION IS NOT THE END	693
20.46 THE IMPROVEMENT SPIRAL	693
20.47 A FULL A3 EXAMPLE	693
BACKGROUND.....	693
PROBLEM.....	693
CURRENT CONDITION.....	693
ROOT CAUSE ANALYSIS.....	693
COUNTERMEASURES.....	693
1. <i>Standard Technical Intake</i>	693
2. <i>Standard Solution Packages</i>	693
3. <i>Approval Thresholds</i>	693
4. <i>Proposal Standard Work</i>	693
5. <i>Discovery Standard</i>	693
RESULTS.....	693
20.48 WHAT MADE THE IMPROVEMENT SUCCESSFUL?	693
20.49 MEASURING KAIZEN RESULTS	693
<i>Flow</i>	693
<i>Quality</i>	693
<i>Customer</i>	693
<i>Economics</i>	693
20.50 THE DANGER OF ACTIVITY-BASED KAIZEN	693
20.51 IMPROVEMENT IMPACT	693
20.52 THE LEARNING METRIC	693
20.53 KAIZEN AND EMPLOYEE CAPABILITY	693
20.54 THE ROLE OF LEADERS IN KAIZEN	693
20.55 COACHING INSTEAD OF COMMANDING	693
20.56 THE "WHY?" CULTURE	693
20.57 AVOIDING BLAME	693
20.58 KAIZEN AND RESPECT FOR PEOPLE	693
20.59 KAIZEN AND CUSTOMER VOICE	693
20.60 KAIZEN AND METRICS	693
20.61 KAIZEN AND BOTTLENECKS	693
20.62 KAIZEN AND WIP	693
20.63 KAIZEN AND POKA-YOKE	693
20.64 THE L-MSO CONTINUOUS IMPROVEMENT LOOP	693
20.65 PRACTICAL KAIZEN IMPLEMENTATION ROADMAP	693
<i>Step 1</i>	693
<i>Step 2</i>	693
<i>Step 3</i>	693
<i>Step 4</i>	693
<i>Step 5</i>	693
<i>Step 6</i>	693
<i>Step 7</i>	693
<i>Step 8</i>	693

<i>Step 9</i>	693
<i>Step 10</i>	693
<i>Step 11</i>	693
<i>Step 12</i>	693
20.66 THE KAIZEN GOVERNANCE SYSTEM.....	693
<i>Daily</i>	693
<i>Weekly</i>	693
<i>Monthly</i>	693
<i>Quarterly</i>	693
20.67 DO NOT TURN KAIZEN INTO BUREAUCRACY.....	693
<i>Simple problem</i> :.....	693
<i>Repeated problem</i> :.....	693
<i>Systemic problem</i> :.....	693
<i>Strategic problem</i> :.....	693
20.68 THE PRINCIPLE OF MINIMUM SUFFICIENT STRUCTURE.....	693
20.69 THE ULTIMATE TEST OF PROBLEM SOLVING.....	693
<i>Did the problem improve?</i>	693
<i>Did the customer benefit?</i>	693
<i>Did the problem stop recurring?</i>	693
20.70 CHAPTER SUMMARY.....	693
KEY TAKEAWAYS.....	693
CLOSING THOUGHT.....	693
CHAPTER 21 — BUILDING A LEAN MARKETING & SALES CULTURE.....	693
CHAPTER 21 — BUILDING A LEAN MARKETING & SALES CULTURE.....	693
INTRODUCTION.....	693
21.1 WHAT IS LEAN CULTURE?.....	693
21.2 TOOLS CAN BE IMPLEMENTED FASTER THAN CULTURE.....	693
21.3 TOOL ADOPTION VERSUS THINKING ADOPTION.....	693
<i>Organization A</i>	693
<i>Organization B</i>	693
21.4 THE FIVE CULTURAL FOUNDATIONS.....	693
21.5 CUSTOMER FOCUS.....	693
21.6 THE CUSTOMER IS NOT A DEPARTMENT.....	693
21.7 PROBLEM VISIBILITY.....	693
21.8 THE ANDON MINDSET.....	693
21.9 PSYCHOLOGICAL SAFETY.....	693
21.10 PROBLEMS ARE INFORMATION.....	693
21.11 ACCOUNTABILITY STILL MATTERS.....	693
<i>Blame</i>	693
<i>Accountability</i>	693
<i>Learning</i>	693
21.12 LEADERSHIP IS THE STRONGEST CULTURAL SIGNAL.....	693
21.13 LEADER STANDARD WORK.....	693
21.14 THE LEADER'S QUESTIONS.....	693
21.15 MANAGEMENT BY GEMBA.....	693
21.16 GEMBA IS NOT AN AUDIT.....	693

21.17 RESPECT FOR PEOPLE.....	693
21.18 THE HUMAN POTENTIAL WASTE.....	693
21.19 RELEASING HUMAN CAPACITY.....	693
21.20 STANDARD WORK AND CULTURE.....	693
21.21 THE STANDARD-IMPROVE CYCLE.....	693
21.22 THE DANGER OF "HERO CULTURE"	693
21.23 FROM HEROICS TO SYSTEMS.....	693
21.24 STANDARDIZATION AND CREATIVITY.....	693
21.25 INCENTIVES AND LEAN CULTURE.....	693
21.26 DESIGNING BETTER INCENTIVES.....	693
<i>Marketing</i>	693
<i>Sales</i>	693
<i>Customer Success</i>	693
<i>Leadership</i>	693
21.27 AVOIDING METRIC GAMING.....	693
21.28 CULTURE AND FLOW.....	693
21.29 THE "EVERYTHING IS URGENT" PROBLEM.....	693
21.30 RESPECTING CAPACITY.....	693
21.31 THE CULTURE OF SAYING "NO".....	693
21.32 LEARNING FROM FAILURE.....	693
21.33 PSYCHOLOGICAL SAFETY AND EXPERIMENTATION.....	693
<i>Responsible Experiment Failure</i>	693
<i>Poor Execution</i>	693
21.34 CUSTOMER-CENTERED EXPERIMENTATION.....	693
21.35 CROSS-FUNCTIONAL CULTURE.....	693
21.36 SHARED GOALS.....	693
21.37 THE LANGUAGE OF LEAN.....	693
21.38 FROM BLAME LANGUAGE TO PROCESS LANGUAGE.....	693
21.39 DAILY MANAGEMENT AS CULTURAL REINFORCEMENT.....	693
21.40 RECOGNITION.....	693
21.41 REWARD PREVENTION.....	693
21.42 BUILDING LEAN CAPABILITY.....	693
21.43 LEARN BY DOING.....	693
21.44 COACHING.....	693
21.45 THE LEAN CULTURE LADDER.....	693
LEVEL 1 — COMPLIANCE.....	693
LEVEL 2 — AWARENESS.....	693
LEVEL 3 — PARTICIPATION.....	693
LEVEL 4 — OWNERSHIP.....	693
LEVEL 5 — LEARNING ORGANIZATION.....	693
21.46 SIGNS OF A MATURE LEAN CULTURE.....	693
21.47 SIGNS OF A WEAK LEAN CULTURE.....	693
21.48 CHANGE FATIGUE.....	693
21.49 LEAN AS THE NORMAL WAY OF WORKING.....	693

21.50 CULTURE AND TECHNOLOGY.....	693
21.51 AI AND LEAN CULTURE.....	693
21.52 CULTURE AND DATA INTEGRITY.....	693
21.53 THE LEADER'S RESPONSIBILITY FOR CULTURE.....	693
21.54 THE L-MSO CULTURAL SYSTEM.....	693
21.55 BUILDING THE CULTURE STEP BY STEP.....	693
<i>Step 1</i>	693
<i>Step 2</i>	693
<i>Step 3</i>	693
<i>Step 4</i>	693
<i>Step 5</i>	693
<i>Step 6</i>	693
<i>Step 7</i>	693
<i>Step 8</i>	693
<i>Step 9</i>	693
<i>Step 10</i>	693
21.56 THE 90-DAY CULTURAL START.....	693
MONTH 1 — SEE.....	693
MONTH 2 — STABILIZE.....	693
MONTH 3 — IMPROVE.....	693
21.57 SCALING THE CULTURE.....	693
21.58 CULTURE AS A COMPETITIVE CAPABILITY.....	693
21.59 THE FINAL CULTURAL SHIFT.....	693
21.60 THE LEAN CULTURE TEST.....	693
<i>Weak Culture</i>	693
<i>Mature Culture</i>	693
21.61 CHAPTER SUMMARY.....	693
KEY TAKEAWAYS.....	693
CLOSING THOUGHT.....	693
CHAPTER 22 — THE LEAN MARKETING & SALES PLAYBOOK.....	693
CHAPTER 22 — THE LEAN MARKETING & SALES PLAYBOOK.....	693
INTRODUCTION.....	693
22.1 THE L-MSO TRANSFORMATION ROADMAP.....	693
<i>Phase 1 — Diagnose</i>	693
<i>Phase 2 — Define Value</i>	693
<i>Phase 3 — Map the Value Stream</i>	693
<i>Phase 4 — Stabilize</i>	693
<i>Phase 5 — Control Flow</i>	693
<i>Phase 6 — Improve</i>	693
<i>Phase 7 — Institutionalize</i>	693
<i>Phase 8 — Continuously Evolve</i>	693
22.2 PHASE 1 — DIAGNOSE THE CURRENT SYSTEM.....	693
22.3 SELECT ONE VALUE STREAM.....	693
22.4 DEFINE THE BOUNDARIES.....	693
<i>Start</i>	693
<i>End</i>	693
22.5 GO TO GEMBA.....	693
22.6 MEASURE BEFORE CHANGING.....	693

22.7 PHASE 2 — DEFINE CUSTOMER VALUE.....	693
22.8 DEFINE CUSTOMER OUTCOMES.....	693
22.9 IDENTIFY CRITICAL-TO-QUALITY REQUIREMENTS.....	693
22.10 PHASE 3 — MAP THE CURRENT-STATE VALUE STREAM.....	693
22.11 CALCULATE TOTAL LEAD TIME.....	693
22.12 CALCULATE FLOW EFFICIENCY.....	693
22.13 IDENTIFY WIP.....	693
22.14 IDENTIFY WAITING.....	693
<i>Customer Waiting</i>	693
<i>Organizational Waiting</i>	693
<i>Decision Waiting</i>	693
<i>Information Waiting</i>	693
<i>Resource Waiting</i>	693
22.15 IDENTIFY WASTE.....	693
22.16 IDENTIFY BOTTLENECKS.....	693
22.17 PHASE 4 — STABILIZE THE PROCESS.....	693
22.18 DEFINE ENTRY AND EXIT CRITERIA.....	693
<i>Definition of Ready</i>	693
<i>Definition of Done</i>	693
22.19 INTRODUCE BASIC POKA-YOKE.....	693
22.20 PHASE 5 — ESTABLISH FLOW.....	693
22.21 ESTABLISH WIP LIMITS.....	693
22.22 CREATE PULL.....	693
22.23 DEFINE CLASSES OF SERVICE.....	693
<i>Expedite</i>	693
<i>Fixed Date</i>	693
<i>Standard</i>	693
<i>Nurture</i>	693
22.24 ESTABLISH AGING RULES.....	693
22.25 PHASE 6 — IMPROVE THE CONSTRAINT.....	693
<i>Identify</i>	693
<i>Exploit</i>	693
<i>Subordinate</i>	693
<i>Elevate</i>	693
<i>Repeat</i>	693
22.26 DO NOT ADD CAPACITY TOO EARLY.....	693
22.27 PHASE 7 — REDUCE LEAD TIME.....	693
22.28 REDUCE HANDOFFS.....	693
22.29 REDUCE BATCH SIZE.....	693
22.30 REDUCE APPROVAL DELAY.....	693
22.31 IMPROVE FIRST-TIME-RIGHT.....	693
22.32 PHASE 8 — BUILD THE MEASUREMENT SYSTEM.....	693
<i>Customer</i>	693
<i>Outcome</i>	693
<i>Flow</i>	693
<i>Quality</i>	693
<i>Improvement</i>	693

22.33 THE RULE OF METRIC ACTIONABILITY.....	693
22.34 CREATE THE DAILY MANAGEMENT ROUTINE.....	693
22.35 CREATE THE WEEKLY IMPROVEMENT ROUTINE.....	693
22.36 CREATE THE MONTHLY SYSTEM REVIEW.....	693
22.37 BUILD THE CONTINUOUS IMPROVEMENT BACKLOG.....	693
22.38 CHOOSE THE RIGHT PROBLEM-SOLVING METHOD.....	693
<i>Immediate Abnormality</i>	693
<i>Small Recurring Issue</i>	693
<i>Significant Systemic Problem</i>	693
<i>Complex Statistical Problem</i>	693
<i>Strategic Structural Problem</i>	693
22.39 USE DATA BEFORE OPINIONS.....	693
22.40 USE VOC AS A CONTINUOUS SIGNAL.....	693
22.41 CONNECT MARKETING AND SALES.....	693
22.42 CONNECT SALES AND OPERATIONS.....	693
22.43 CONNECT ACQUISITION TO VALUE REALIZATION.....	693
22.44 ESTABLISH THE CUSTOMER-TO-CUSTOMER LOOP.....	693
22.45 TECHNOLOGY IMPLEMENTATION.....	693
<i>Integration</i>	693
<i>Automation</i>	693
<i>Visibility</i>	693
<i>Error Prevention</i>	693
<i>Analytics</i>	693
<i>AI</i>	693
22.46 AI IMPLEMENTATION RULES.....	693
22.47 THE AI FLOW PRINCIPLE.....	693
22.48 ORGANIZATIONAL ROLES.....	693
<i>Executive Sponsor</i>	693
<i>Value-Stream Owner</i>	693
<i>Process Owners</i>	693
<i>Lean/Continuous Improvement Lead</i>	693
<i>Frontline Employees</i>	693
<i>Data/Technology Support</i>	693
22.49 THE ROLE OF THE VALUE-STREAM OWNER.....	693
22.50 TRAINING THE ORGANIZATION.....	693
<i>Executives</i>	693
<i>Managers</i>	693
<i>Process Owners</i>	693
<i>Employees</i>	693
22.51 THE FIRST 30 DAYS.....	693
<i>Week 1</i>	693
<i>Week 2</i>	693
<i>Week 3</i>	693
<i>Week 4</i>	693
22.52 DAYS 31–60.....	693
22.53 DAYS 61–90.....	693
22.54 MONTHS 4–6.....	693
22.55 MONTHS 7–12.....	693

22.56 THE L-MSO TRANSFORMATION SCORECARD.....	693
22.57 WHAT SUCCESS LOOKS LIKE.....	693
22.58 COMMON FAILURE MODES.....	693
<i>Failure 1 — Starting With Tools.....</i>	<i>693</i>
<i>Failure 2 — Measuring Activity.....</i>	<i>693</i>
<i>Failure 3 — Ignoring WIP.....</i>	<i>693</i>
<i>Failure 4 — Optimizing Departments.....</i>	<i>693</i>
<i>Failure 5 — Ignoring Customer Experience.....</i>	<i>693</i>
<i>Failure 6 — Automating Waste.....</i>	<i>693</i>
<i>Failure 7 — Treating Training as the Main Solution.....</i>	<i>693</i>
<i>Failure 8 — Ignoring Bottlenecks.....</i>	<i>693</i>
<i>Failure 9 — Failing to Standardize.....</i>	<i>693</i>
<i>Failure 10 — Leadership Inconsistency.....</i>	<i>693</i>
22.59 THE ANTI-PATTERNS.....	693
22.60 THE L-MSO PRACTITIONER CHECKLIST.....	693

Preface

Lean thinking has traditionally been associated with manufacturing, production systems, quality, and operational excellence. Over the years, however, I have become increasingly convinced that the fundamental principles of Lean are not limited to factories.

Wherever there is a process, there is the potential for waste. Wherever there is demand, there is a need for flow. Wherever customers wait, organizations have an opportunity to improve.

Marketing and sales are no exception.

Every organization moves potential customers through a series of activities: attracting attention, generating leads, qualifying opportunities, communicating value, preparing proposals, negotiating, following up, and ultimately closing the sale. Between these activities, however, enormous amounts of waste can accumulate—waiting, unnecessary approvals, duplicated work, poor handoffs, excessive processing, ineffective campaigns, overloaded sales pipelines, and delays that customers experience as friction.

This book is an attempt to look at that entire system through the eyes of a Lean practitioner and an industrial engineer.

I have deliberately approached marketing and sales as **operational systems** rather than as purely creative or commercial functions. The objective is not to turn marketers into production engineers or salespeople into process analysts. Rather, it is to provide a different lens through which they can see their work.

A lead can be viewed as Work-in-Process.

A sales pipeline can be viewed as a Value Stream.

A delayed proposal can be viewed as Waiting.

An ineffective campaign can be viewed as Overproduction.

A repeated data-entry task can be viewed as Overprocessing.

A customer who abandons the buying journey can be a signal of process friction.

And a sales organization struggling with too many open opportunities may have a WIP problem rather than a people problem.

These perspectives can lead to very different questions—and ultimately very different solutions.

This book brings together Lean principles, Value Stream Mapping, Kanban, Flow, Bottleneck Management, Standard Work, Poka-Yoke, Kaizen, A3 Problem Solving, and Lean Performance Measurement and applies them to customer acquisition, marketing operations, sales processes, and conversion.

My goal is not simply to introduce another collection of Lean tools.

My goal is to encourage a change in thinking:

Marketing and sales are not merely activities that generate revenue. They are processes through which value flows toward the customer.

Once we begin to see them this way, many hidden opportunities for improvement become visible.

I hope this book helps you see your marketing and sales processes differently—and, more importantly, helps you improve them.

Why This Book

I wrote this book because there is a gap between the way Lean is traditionally taught and the way modern organizations actually create customers and generate revenue.

Lean has given organizations powerful methods for improving production and operations. Yet many companies continue to manage their marketing and sales activities using fundamentally different logic.

Manufacturing processes are analyzed for waste.

Sales processes are often not.

Production lines are studied for bottlenecks.

Marketing and sales bottlenecks are often accepted as normal.

Factories measure cycle time and throughput.

Sales teams may focus primarily on monthly targets.

Kanban is used to control Work-in-Process on the shop floor, while sales organizations may carry hundreds of uncontrolled opportunities in their pipelines.

This creates a paradox.

An organization may have a highly optimized operational system for producing its product, while the process used to acquire customers and convert demand into revenue remains fragmented, slow, and wasteful.

This book addresses that paradox.

The central question is simple:

What happens when we apply Lean thinking to the journey from market demand to customer and revenue?

The answer requires more than simply replacing a few marketing terms with Lean terminology.

It requires understanding the customer acquisition and sales process as a complete value stream.

Where does value actually begin?

Where does the customer experience waiting?

Where does information stop flowing?

Where does work accumulate?

Where are decisions unnecessarily delayed?

Where are leads overproduced?

Where do marketing and sales handoffs create defects?

Where is the real bottleneck?

And ultimately:

How can we create smoother flow from customer demand to customer value and revenue?

The purpose of this book is to explore these questions systematically.

It is written for marketing professionals, sales leaders, business owners, entrepreneurs, consultants, operations professionals, and Lean practitioners who want to understand how Lean principles can be applied beyond the traditional factory environment.

You do not need to be an industrial engineer to benefit from this book.

You do not need to be a Lean expert.

What you need is a willingness to look at familiar processes from a different perspective.

Because sometimes the biggest improvement does not come from working harder.

It comes from removing the things that make the work unnecessarily difficult, slow, and complicated.

That is the essence of Lean.

And that is the perspective behind this book.

Dedication

To Professor Jeff,

For the knowledge, guidance, and intellectual influence that helped shape my journey and my way of thinking.

To Professor Attia Gomaa,

With deep appreciation for your teaching, mentorship, and the lasting impact you have had on my academic and professional development.

To my wife, Esraa,

For your patience, encouragement, understanding, and for standing beside me through the long hours, endless ideas, and countless pages that became my books.

And to my children,

You are the joy behind the work, the reason to keep learning, creating, and leaving something meaningful behind.

To all of you—with gratitude, love, and appreciation.

Chapter 1

Marketing and Sales as Flow Systems

1.1 Beyond Traditional Marketing and Sales

Marketing and sales are often described as two essential functions of a business.

Marketing creates awareness, generates interest, communicates value, and attracts potential customers. Sales then engages with those potential customers, understands their requirements, develops solutions, handles objections, negotiates, and converts opportunities into revenue.

This description is correct—but incomplete.

It describes **functions**, not the **system** connecting them.

From a Lean and industrial engineering perspective, this distinction is fundamental.

A business does not generate revenue simply because it has a marketing department and a sales department. Revenue is created when customer demand successfully moves through a sequence of interconnected activities until value is delivered and the customer commits to a transaction.

That means that between **market demand** and **revenue**, there is a process.

And whenever there is a process, there is an opportunity to study:

- Flow
- Capacity
- Cycle time
- Lead time
- Work-in-process
- Bottlenecks
- Variability
- Waste
- Quality
- Handoffs
- Standardization
- Performance

This is precisely where Lean thinking becomes powerful.

Lean does not ask only:

"Are our people working hard?"

It asks:

"How effectively does value flow through the system?"

This is a very different question.

A marketing team may be extremely busy creating content, launching campaigns, producing advertisements, attending events, sending emails, generating leads, and managing social media.

A sales team may be equally busy making calls, conducting meetings, preparing quotations, sending proposals, negotiating contracts, and following up with prospects.

Yet the organization may still have:

- Low conversion rates
- Long sales cycles
- Aging leads
- Excessive customer waiting
- Repeated work
- Poor marketing-to-sales handoffs
- Large numbers of inactive opportunities
- Slow quotation processes
- High customer acquisition costs
- Lost opportunities
- Frustrated employees

This creates an important Lean paradox:

High activity does not necessarily mean high flow.

A system can be extremely busy while being operationally inefficient.

That principle is well understood in manufacturing.

A factory can have machines running continuously while work-in-process accumulates between operations. Employees may appear productive, but the overall lead time may continue to increase.

The same phenomenon can occur in sales.

A sales organization can have hundreds or thousands of opportunities inside its CRM while very few are actually progressing toward closure.

The pipeline looks healthy because it is full.

The system, however, may be congested.

This is why Lean Marketing & Sales Operations begins with a change in perspective.

We are not going to look at marketing and sales merely as departments.

We are going to look at them as a **flow system**.

1.2 From Functional Thinking to Systems Thinking

Traditional organizational structures naturally encourage functional thinking.

Marketing owns marketing.

Sales owns sales.

Finance owns pricing and approvals.

Operations owns delivery.

Customer service owns the customer after the sale.

Each department has its own objectives, meetings, KPIs, software, priorities, and management structure.

This arrangement can make organizational responsibility clear.

But it can also make the **end-to-end customer flow invisible**.

Consider a simplified example.

A company launches a digital advertising campaign.

The campaign generates 1,000 leads.

Marketing considers the campaign successful.

The leads are transferred to sales.

Sales discovers that many leads are poorly qualified.

Some leads have incomplete information.

Some are duplicates.

Some have no realistic purchasing intent.

Salespeople begin calling the leads.

They cannot reach many of them.

Others ask for information that marketing did not provide.

Some require technical clarification.

Technical staff must then become involved.

A quotation requires management approval.

The approval takes two days.

The customer waits.

The salesperson follows up.

The customer asks for a revised proposal.

The proposal is prepared again.

The customer eventually purchases—but after three weeks.

Now ask a simple question:

Where did the process actually fail?

Marketing might say:

"We generated 1,000 leads."

Sales might say:

"Only 50 were qualified."

Sales management might say:

"The sales team needs to follow up faster."

Finance might say:

"We cannot approve pricing without proper documentation."

Everyone may be correct from the perspective of their own department.

Yet the customer experienced only one process.

The customer did not experience:

Marketing → Sales → Finance → Technical → Management

as separate departments.

The customer experienced:

"I wanted to buy something, and it took three weeks."

This is the fundamental reason Lean thinking must cross functional boundaries.

The customer experiences the flow—not the organization chart.

1.3 The Customer Acquisition Value Stream

A useful way to visualize the system is to consider the journey from demand to revenue.

A simplified customer acquisition value stream may look like this:

Market Demand

↓

Awareness

↓

Interest

↓

Lead Generation

↓

Lead Qualification

↓

Sales Engagement

↓

Needs Analysis

↓

Solution Development

Proposal

Negotiation

Decision

Closing

Customer

Each stage performs work.

But between the stages, something else happens.

Waiting.

A lead may wait before being contacted.

A salesperson may wait for technical information.

A proposal may wait for approval.

A customer may wait for an answer.

A contract may wait for legal review.

Information may wait inside someone's inbox.

These waiting periods are often invisible when organizations measure only activity.

Suppose:

- Actual customer-facing work = 3 hours
- Total elapsed time from lead to purchase = 15 days

The organization might proudly say:

"We processed the customer quickly."

But the customer experienced 15 days.

From a Lean perspective, the relevant question is not simply how much labor was performed.

It is:

How much of the customer's elapsed journey actually created value?

This distinction between **work content** and **elapsed time** is one of the most important ideas in Lean Marketing & Sales Operations.

1.4 Flow: The Heart of Lean Thinking

Flow is one of the central concepts of Lean.

In a well-designed process, work moves smoothly from one step to the next with minimal interruption.

In manufacturing, this might mean that a component moves from machining to inspection to assembly without unnecessary queues.

In marketing and sales, the "work" is often information.

A lead moves from one stage to another.

Customer information moves between employees.

A request moves from sales to technical staff.

Pricing information moves from finance to sales.

A proposal moves from sales to management.

A decision moves back to the customer.

Therefore, Lean Marketing & Sales Operations must pay attention not only to the movement of physical products, but also to the movement of:

- Customer information
- Decisions
- Leads
- Opportunities
- Proposals
- Approvals
- Feedback
- Requirements
- Communication

Information flow is the production flow of knowledge-based commercial work.

This is why many marketing and sales problems are not actually people problems.

They are **flow problems**.

When information is incomplete, people compensate.

When approvals are slow, employees follow up.

When systems are disconnected, people manually transfer information.

When qualification is poor, salespeople spend time filtering leads.

When responsibilities are unclear, employees send emails asking:

"Who is handling this?"

Each of these behaviors consumes capacity.

The organization may respond by hiring more people.

But adding capacity to a broken flow can sometimes make the system even more complicated.

Lean asks a different question first:

Why is the work not flowing?

1.5 Lead Time Versus Activity Time

One of the most common mistakes in sales and marketing management is confusing **activity time** with **lead time**.

Consider a quotation process.

A salesperson spends 45 minutes preparing a quotation.

The quotation then waits 8 hours for pricing approval.

It waits another 4 hours for management approval.

The customer receives it the following morning.

The actual work may have required less than one hour.

But the customer's lead time was much longer.

We can conceptually express this as:

Lead Time = Processing Time + Waiting Time + Transfer Time + Rework Time + Other Delays

This is not merely a mathematical distinction.

It changes management behavior.

If management sees only processing time, it may ask:

"How can we make employees prepare quotations faster?"

If management examines total lead time, it may discover:

"The quotation is already prepared quickly. The real problem is the approval queue."

That is a completely different improvement opportunity.

The first approach optimizes the worker.

The second improves the system.

Lean focuses on improving the system rather than merely accelerating individual activities.

1.6 Leads Are Work-in-Process

One of the most useful Lean concepts to transfer into sales is **Work-in-Process (WIP)**.

In a factory, WIP represents partially completed work.

A component that has started production but has not yet become a finished product is WIP.

In sales, the equivalent is an opportunity that has entered the process but has not yet become a customer.

This means:

An active lead or sales opportunity is a form of commercial WIP.

This seemingly simple observation has significant implications.

Imagine a sales team with:

- 500 open opportunities
- 10 salespeople
- 40 new opportunities arriving every week

At first glance, 500 opportunities may appear impressive.

Management may interpret the number as:

"We have a huge pipeline."

But Lean asks:

Can the system actually process this amount of WIP?

If the team has insufficient capacity, the pipeline becomes congested.

Some opportunities receive attention.

Others wait.

Older opportunities receive occasional follow-ups.

New opportunities enter the system.

The CRM becomes increasingly full.

Eventually, nobody knows which opportunities are genuinely active.

The pipeline becomes a storage area rather than a flow system.

This is exactly what happens in poorly controlled manufacturing systems.

Excess WIP can create the illusion of productivity while increasing lead time and hiding problems.

1.7 The Relationship Between WIP, Throughput, and Lead Time

One of the most powerful relationships available to Lean practitioners is **Little's Law**.

In a stable system:

$$WIP = Throughput \times LeadTime$$

Or:

$$LeadTime = \frac{WIP}{Throughput}$$

The principle applies naturally to sales pipelines.

Suppose a company has:

WIP = 200 opportunities

and closes:

Throughput = 20 opportunities per month

Then:

$$LeadTime = \frac{200}{20} = 10 \text{ months}$$

This simplified calculation suggests an average flow time of approximately ten months.

Now imagine management decides that the sales pipeline needs to "look bigger."

The organization increases WIP to 400 opportunities without increasing throughput.

Then:

$$LeadTime = \frac{400}{20} = 20 \text{ months}$$

The pipeline has doubled.

But the system has not become twice as productive.

It has become twice as congested.

This illustrates a critical principle:

More opportunities do not automatically mean more sales.

If throughput does not increase, excessive WIP can simply increase waiting and lead time.

This is one reason why a giant CRM pipeline can be misleading.

The question is not:

"How many opportunities do we have?"

The better questions are:

- How many are genuinely active?
- How quickly are they progressing?
- How long have they been waiting?
- Where are they accumulating?
- What percentage advances from one stage to the next?
- What is our throughput?
- What is our average lead time?
- What is the constraint limiting flow?

These are Lean questions.

Consider a simplified sales pipeline:

Lead → Qualified Lead → Opportunity → Proposal → Negotiation → Closed

This looks remarkably similar to a production process:

Raw Material → Processed Material → Subassembly → Finished Product → Inspection → Shipment

The analogy is not perfect—and we should not force it too far.

But operationally, there are meaningful similarities.

Manufacturing	Marketing & Sales
Raw material	New lead
WIP	Active opportunity
Processing	Customer engagement
Inspection	Qualification
Rework	Proposal revision
Queue	Waiting opportunity
Bottleneck	Slow stage
Throughput	Closed deals
Cycle time	Sales cycle
Finished product	Won customer

This perspective enables managers to ask questions that traditional sales management may overlook.

For example:

Manufacturing question:

Where is WIP accumulating?

Sales question:

At which pipeline stage are opportunities accumulating?

Manufacturing question:

Which machine is constraining throughput?

Sales question:

Which activity is constraining deal progression?

Manufacturing question:

Why are products waiting between operations?

Sales question:

Why are opportunities waiting between stages?

Manufacturing question:

How much rework is occurring?

Sales question:

How many proposals are repeatedly revised?

Manufacturing question:

What causes defects?

Sales question:

Why are customers receiving incorrect or incomplete information?

The objective is not to pretend that sales is a factory.

The objective is to recognize that **both are systems through which work flows.**

1.9 Bottlenecks: The Point Where Flow Breaks

Every flow system has constraints.

In sales and marketing, the constraint may not be obvious.

Suppose marketing generates 1,000 qualified leads per month.

The sales team can effectively process only 300.

The organization therefore has a capacity mismatch.

If marketing continues increasing lead generation, the result may simply be more WIP.

The bottleneck is sales capacity.

But suppose sales has sufficient capacity and proposals are delayed because every quotation requires management approval.

Now the bottleneck is approval.

Or perhaps proposals are prepared quickly but customers wait because technical questions take three days to answer.

Now technical support is constraining the flow.

Or perhaps everything works well until negotiation, where deals remain open for months.

The bottleneck has moved.

This leads to an important principle:

The system should be improved at its constraint, not wherever improvement happens to be easiest.

A marketing department may celebrate a 50% increase in leads.

But if the downstream system cannot process them, the improvement may actually increase congestion.

This is a classic example of **local optimization**.

Marketing optimizes marketing.

Sales optimizes sales.

But the customer experiences the combined system.

Lean therefore encourages **end-to-end optimization**.

1.10 Push Versus Pull

Another important Lean concept is the distinction between **Push** and **Pull**.

In a push system, work is created because someone decides it should be produced.

In a pull system, work is initiated or replenished in response to actual demand or downstream need.

The distinction appears naturally in marketing.

A company may produce:

- 100 social media posts
- 20 email campaigns
- 15 white papers
- 10 webinars

because the marketing calendar says so.

But the question should be:

Are these activities creating useful customer demand and moving the value stream?

Production of marketing content can itself become inventory.

A marketing team can accumulate a huge library of content that nobody reads.

Similarly, a sales team may aggressively push customers toward a proposal before the customer is properly qualified.

The result is overproduction of proposals.

Lean does not mean eliminating proactive marketing or sales.

Rather, it means understanding **when push creates value and when it creates unnecessary WIP**.

A pull-oriented system responds more intelligently to customer signals.

Those signals may include:

- Search behavior
- Website interactions
- Requests for information
- Product inquiries
- Demonstration requests
- Pricing requests
- Customer questions

- Existing customer demand

The objective is to create a stronger connection between actual demand and the work performed by the organization.

1.11 The Handoff Problem

Few things destroy flow more effectively than poor handoffs.

Marketing says:

"The lead has been transferred."

Sales says:

"The lead is incomplete."

Sales requests additional information.

Marketing responds.

The customer waits.

Or sales promises something to the customer that operations cannot deliver.

Operations pushes the issue back to sales.

The customer experiences confusion.

Every handoff creates an opportunity for:

- Information loss
- Delay
- Misinterpretation
- Duplication
- Rework
- Accountability gaps

The solution is not necessarily to eliminate all handoffs.

Some handoffs are unavoidable.

The Lean objective is to make them **reliable and standardized**.

A good handoff should answer:

- What information must be transferred?
- In what format?
- At what point?
- Who owns the next step?
- What is the expected response time?
- What constitutes a complete handoff?
- What happens when information is missing?

This is where **Standard Work** becomes important.

A marketing-to-sales handoff should not depend entirely on individual memory or personal communication style.

It should be designed as part of the process.

1.12 Flow Efficiency

Traditional organizations frequently measure efficiency at the activity level.

For example:

- Number of calls
- Number of emails
- Number of meetings
- Number of campaigns
- Number of leads
- Number of proposals

These metrics can be useful.

But they do not necessarily tell us whether the customer journey is efficient.

Lean encourages us to examine **Flow Efficiency**.

A useful conceptual measure is:

$$FlowEfficiency = \frac{Value - AddedTime}{TotalLeadTime} \times 100$$

Suppose a customer journey takes:

10 days

but actual value-creating interaction represents:

5 hours

Then the process contains enormous amounts of elapsed time relative to actual value-creating work.

The precise classification of "value-added" in knowledge work requires judgment, and not every waiting period can simply be eliminated.

Nevertheless, the calculation forces an important question:

What is the customer actually waiting for?

That question can reveal enormous opportunities.

1.13 From Activity Metrics to Flow Metrics

The transformation from traditional management to Lean management requires a change in metrics.

Instead of looking only at:

"How many leads did marketing generate?"

we should also examine:

- Lead qualification rate

- Lead response time
- Lead aging
- Lead-to-opportunity conversion
- Opportunity throughput

Instead of:

"How many proposals did sales send?"

we should examine:

- Proposal lead time
- Proposal-to-close conversion
- Proposal rework
- Approval waiting time
- Average time to decision

Instead of:

"How many opportunities are in the pipeline?"

we should examine:

- Active WIP
- WIP aging
- Stage conversion
- Pipeline velocity
- Throughput
- Sales cycle time

This does not mean abandoning traditional KPIs.

It means adding **flow metrics** that expose how the system actually behaves.

1.14 A New Mental Model

The most important transformation in this chapter is therefore conceptual.

Traditional thinking asks:

How can we make marketing more effective?

How can we make salespeople more productive?

Lean thinking asks:

How can we make the entire customer acquisition system flow better?

Traditional thinking asks:

How many leads did we generate?

Lean thinking asks:

How quickly and reliably do qualified leads flow toward customer value?

Traditional thinking asks:

How many opportunities are in the pipeline?

Lean thinking asks:

How much WIP can the system effectively handle?

Traditional thinking asks:

How can we increase activity?

Lean thinking asks:

Which activity actually improves flow and creates customer value?

Traditional thinking asks:

Who is responsible for the delay?

Lean thinking asks:

What condition in the system created the delay?

This last question is particularly important.

Lean is not fundamentally a blame system.

When a sales representative fails to follow up, management may immediately blame the salesperson.

But perhaps:

- The CRM is difficult to use.
- The lead information is incomplete.
- The salesperson has 300 active opportunities.
- There is no prioritization mechanism.
- Leads are assigned manually.
- Notifications are unreliable.
- The qualification process generates too much low-quality WIP.

The individual may be part of the problem.

But the system may be creating the behavior.

Lean asks us to investigate before blaming.

1.15 Designing the Marketing & Sales Flow System

A Lean Marketing & Sales system should ultimately answer six fundamental questions:

1. What is the customer value?

What does the customer actually need?

2. What is the value stream?

What sequence of activities moves the customer from demand to value?

3. Where is the waste?

Where do time, effort, information, and resources fail to create value?

4. Where is the bottleneck?

What currently limits system throughput?

5. How should work flow?

How can we reduce interruption, WIP, waiting, and unnecessary handoffs?

6. How will we improve?

How will performance be measured and continuously improved?

These six questions provide the foundation for the remainder of this book.

The objective is not to force manufacturing terminology into marketing and sales.

The objective is much more useful:

to apply the underlying logic of Lean to a different type of value stream.

1.16 A Practical Example: Redesigning a Sales Flow

Consider a B2B company selling industrial equipment.

The existing process is:

Lead Generated

↓

Salesperson Receives Email

↓

Salesperson Reviews Lead

↓

Salesperson Calls Customer

↓

Customer Requests Technical Information

↓

Salesperson Emails Engineering

↓

Engineering Responds

↓

Salesperson Prepares Proposal

↓

Manager Reviews Proposal

Finance Reviews Price

Proposal Sent

Customer Requests Revision

Proposal Revised

Negotiation

Order

The organization initially believes that the salesperson is the bottleneck.

A Value Stream analysis reveals something different.

The largest delays are:

- Lead waiting for assignment
- Engineering response
- Manager approval
- Finance approval
- Proposal revision

The salesperson's actual working time is not the dominant source of delay.

The process itself is.

A Lean redesign could introduce:

- Automatic lead assignment
- Standard qualification criteria
- Standard technical information packages
- Defined engineering response time
- Standard pricing rules
- Approval thresholds
- Standard proposal templates
- Clear revision limits
- Visual pipeline management

The result is not necessarily "salespeople working harder."

It is a system that requires **less unnecessary work**.

That distinction is the essence of Lean.

1.17 The Ultimate Objective: Flow of Customer Value

The final objective is not speed for its own sake.

Lean is sometimes misunderstood as simply a methodology for making processes faster.

But faster waste is still waste.

A marketing campaign that produces irrelevant leads faster is not necessarily better.

A sales team that sends more proposals without understanding customer needs is not necessarily better.

A CRM that processes more opportunities without improving conversion is not necessarily better.

The objective is:

To create a system in which customer value flows with minimum unnecessary interruption, effort, delay, and waste.

Speed matters because customers value responsiveness.

Flow matters because interruptions create delay.

Quality matters because defects destroy trust.

WIP matters because excessive inventory creates congestion.

Standardization matters because variation creates instability.

Continuous improvement matters because no process remains perfect.

And customer value remains the ultimate reference point.

1.18 Chapter Summary

Marketing and sales should not be viewed only as independent business functions.

They form an interconnected **customer acquisition and revenue-generation system**.

By applying Lean thinking, we can view:

- Leads as **Work-in-Process**
- Sales pipelines as **Value Streams**
- Closed deals as **Throughput**
- Sales cycles as **Lead Time**
- Pipeline accumulation as **WIP**
- Delayed approvals as **Waiting**
- Proposal revisions as **Rework**
- Poor handoffs as **Flow interruptions**
- Sales capacity constraints as **Bottlenecks**
- Customer friction as **Waste**

The central lesson is simple:

A busy marketing or sales organization is not necessarily an efficient marketing or sales system.

Lean shifts our attention from activity to flow, from departments to value streams, and from individual performance to system performance.

Once we begin to see marketing and sales as flow systems, the next question becomes unavoidable:

What exactly is flowing—and what does the customer actually consider valuable?

That is the subject of the next chapter.

Key Takeaways

1. Marketing and sales can be analyzed as interconnected flow systems.
2. Customer acquisition is a value stream extending from demand to revenue.
3. Leads and opportunities represent forms of Work-in-Process.
4. Excessive WIP can increase lead time without increasing throughput.
5. Little's Law provides a useful way to understand the relationship between WIP, throughput, and lead time.
6. Handoffs between marketing, sales, finance, technical teams, and management can create significant flow interruptions.
7. Activity does not necessarily equal productivity.
8. Lean focuses on improving the system rather than simply asking individuals to work faster.
9. Bottlenecks should be identified at the system level.
10. The ultimate objective is the smooth flow of customer value—not simply faster activity.
