The Grown-Up Friend Book for Memories, Confessions & Questionable Decisions

Remember those slam books you used to pass around in school? This is the upgraded, unfiltered version for the people who currently know your deepest secrets—and know which ex to never mention in public.

Friendship Rememberly is an interactive keepsake designed for up to 20 of your favorite humans. Pass it around to your crew, hand over a pen, and let them fill out two dedicated pages of friendship statistics, unfiltered memories, bad memory-drawn portraits, and hilarious hypothetical arrest scenarios.

Complete with a group bucket list for future chaotic adventures, it's a time capsule of the people who make your life funnier, softer, and a little more ridiculous.

Disclaimer: What happens in the book stays in the book.

IMPORTANT NOTICE

If found, please return this book to its owner.
It contains memories, confessions, inside jokes and potentially
compromising information.
You know too much now.

Property of someone with excellent taste in friends.

some people are worth keeping

Some friendships start at school.
Others happen at work, on a night out that
went on far too long, while travelling,
through mutual friends, at the school gates —
or simply at a moment when two people
happened to need each other.

We share so much with our friends.

We know their usual drink order.

We know which ex not to mention.

We know the stories that should never make
it into a wedding speech.

And somehow, there are still things we've
never asked.

Between Friends is a place for all of it.
The stories you've told a hundred times.
The things you've never said out loud.
The inside jokes nobody else understands.
The questionable decisions.

The ordinary moments you don't realize
you'll miss yet.

Pass this book around to the people who
make your life better, funnier, softer, louder
or just a little more chaotic.

Let them write.

Let them overshare.

Let them draw badly.

Let them stick in the photo that should
probably never see the internet.

Don't worry about making it perfect.

Just make it yours.

Because one day, years from now, you'll open
this book again and realize:

these were the people who were there.

WHY THIS BOOK EXISTS

THE RULES

of the house

HOW THIS WORKS

Very official rules for a highly unofficial book.

01

PICK YOUR PEOPLE.

Choose the friends you absolutely want to remember exactly as they are right now.

02

HAND OVER THE BOOK.

Give them their own spread and at least one pen that actually works. Basic hospitality.

03

ONE FRIEND. TWO PAGES.

That's their territory. Writing, doodling, crossing things out and excessive use of exclamation marks are all allowed.

04

BRING RECEIPTS.

Photos, old tickets, tiny notes and other evidence of your friendship are strongly encouraged.

05

BE HONEST.

Especially when it gets slightly uncomfortable. That's usually where the good stuff is.

06

SKIPPING IS ALLOWED.

See a question you'd rather take to the grave?
Answer. Skip. Or plead the fifth. No explanation required.

07

WHAT HAPPENS IN THE BOOK...

...stays in the book. Obviously.

08

KEEP IT.

Don't throw this away during your next decluttering phase. Put it somewhere safe. Open it again in ten years.

ONE FINAL RULE:

Spelling is optional.

Honesty isn't.

Now turn the page.

You go first.

BEFORE WE TALK ABOUT YOU

Let's establish who I am first.

Because in a few pages, twenty people will be sharing their opinions about me. It seems only fair that I go on record first.
